Introduction

This 2023 Body Worn Camera Report contains a summary of departments that submitted body worn camera program reports to the Illinois Law Enforcement Training and Standards Board (ILETSB). Each department overview includes narrative information and data provided by the department. Visual charts identify the ten (10) most frequent charges related to incidents; a single incident may have multiple charges. Departments reporting less than five (5) charges exclude visual charts. ILETSB is the repository for department reports.

One hundred eighty (180) law enforcement departments submitted body worn camera program reports for the period of January 1, 2023, to December 31, 2023, up from one hundred seventeen (117) last year. Categorically, one (1) forest preserve district, eight (8) campus law enforcement departments, twenty-three (23) sheriff's offices, and one hundred forty-eight (148) municipal law enforcement departments submitted reports.

Nine (9) law enforcement departments either do not use body worn cameras or implemented them in the year 2024. Therefore, this report excludes these departments:

- Bartlett Police Department
- Bureau County Sheriff's Office
- Carrier Mills Police Department
- Deerfield Police Department
- Effingham County Sheriff's Office
- Glasford Police Department
- Mason County Sheriff's Office
- Tinley Park Police Department
- Toluca Police Department

Executive Summary

Departments provide a brief overview, which includes the number of officers in the department, number of body worn cameras, and number of officers who use those cameras.

Technical Issues

Common technical issues include low battery life, cameras not charging, difficulty uploading footage, and cameras falling off the officer. Departments may list remedies to the issues.

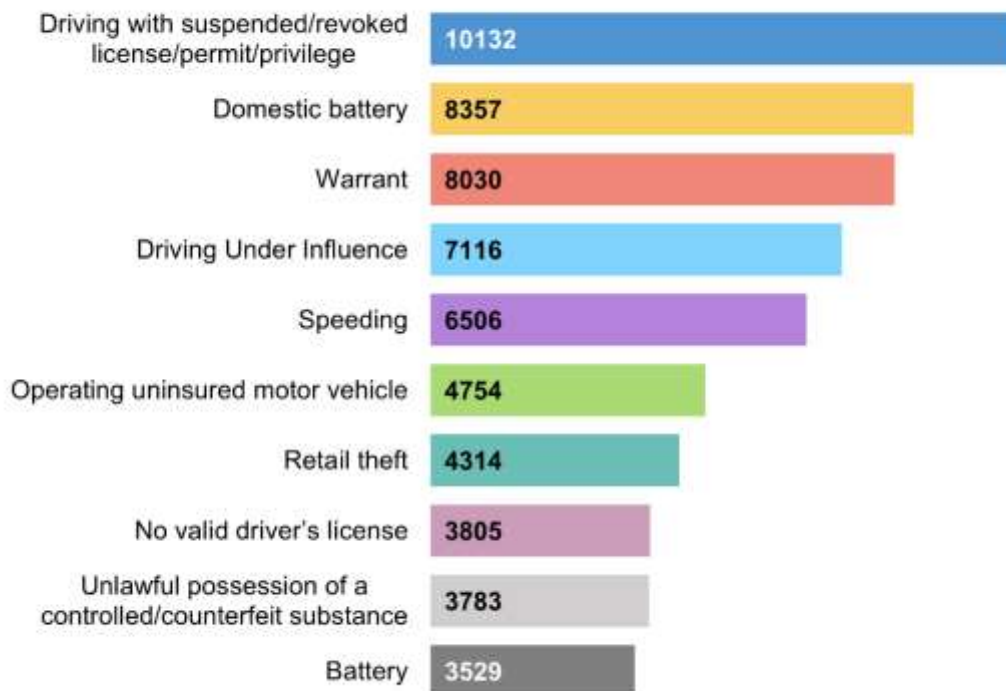

Review Process

Departments report review policy on body worn camera footage.

Incidents

Departments report incidents when prosecutors use body worn camera footage. This section counts and lists incidents and offenses charged. Please note, one (1) incident may contain multiple offenses charged. Between January 1, 2023, and December 31, 2023, one hundred twenty-three (123) departments reported ninety-nine thousand five hundred thirty (99,530) incidents leading to one hundred twenty thousand nine hundred eighty-three (120,983) offenses charged. Fifty percent (50%) of offenses charged were the following ten (10) offenses:

Greatest Frequency Offenses

Department Overview – Aledo Police Department

Aledo Police Department consists of six (6) full-time officers, three (3) part-time officers and one (1) auxiliary officer, using REVEAL D3 body worn cameras.

Technical Issues

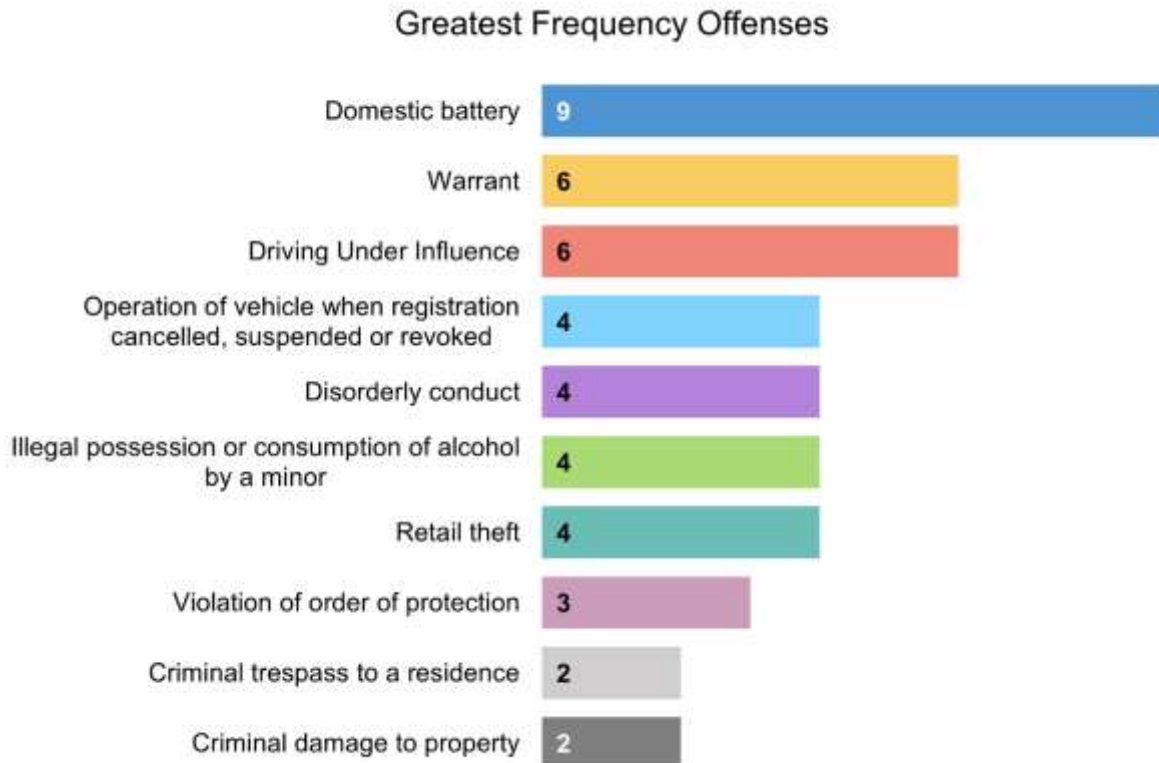

Aledo Police Department reports issues with two (2) cameras splitting apart, multiple problems with cameras not turning on at activation, and not turning off when shut down. Due to this, Axon body worn cameras were purchased.

Review Process

Aledo Police Department’s supervisors are authorized to review relevant recordings any time they are investigating alleged misconduct or reports of meritorious conduct, or whenever such recordings would be beneficial in reviewing a member’s performance.

Incidents

Between January 1, 2023, and December 31, 2023, Aledo Police Department reports sixty-four (64) incidents leading to sixty-four (64) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Alton Police Department

Alton Police Department consists of sixty-two (62) officers who utilize seventy (70) body worn cameras.

Technical Issues

Alton Police Department reports zero (0) technical issues.

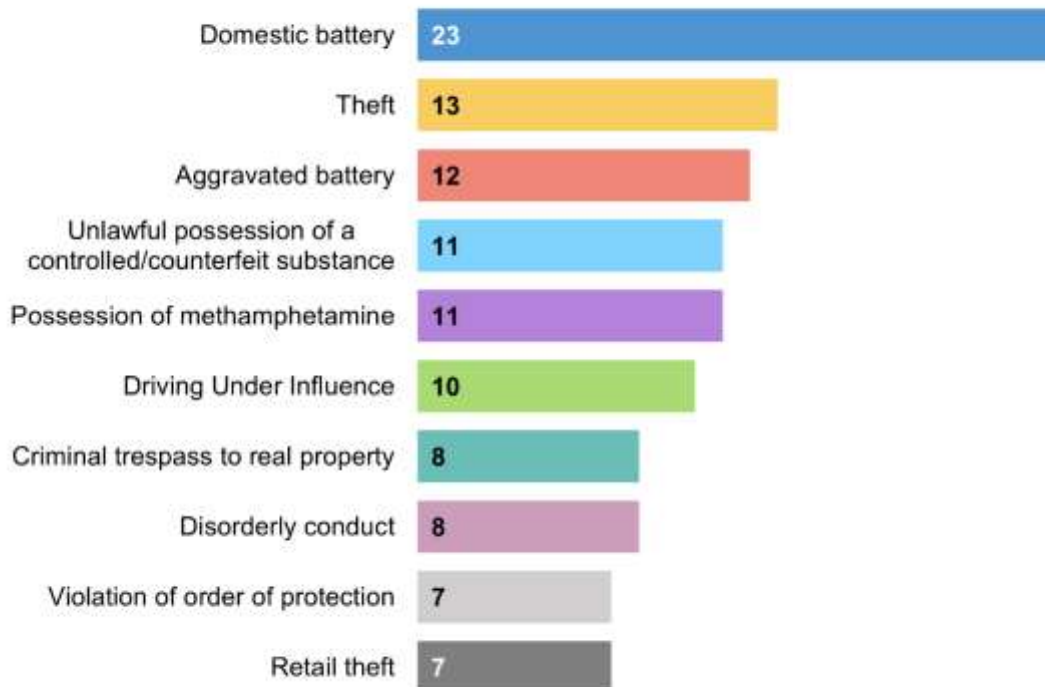

Review Process

Alton Police Department's supervisors ensure officers equipped with body worn cameras utilize them in accordance with policy and training. Monthly, patrol supervisors randomly review four (4) body worn camera recordings pertaining to subordinates under his/her responsibility. They document their review in a Guardian Tracking entry. Recordings are not reviewed indiscriminately for disciplinary purposes.

Incidents

Between August 1, 2023, and December 31, 2023, Alton Police Department reports one hundred ninety-one (191) incidents leading to one hundred ninety-two (192) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Arlington Heights Police Department

Arlington Heights Police Department's report does not provide department or body worn camera information.

Technical Issues

Arlington Heights Police Department reports zero (0) technical issues.

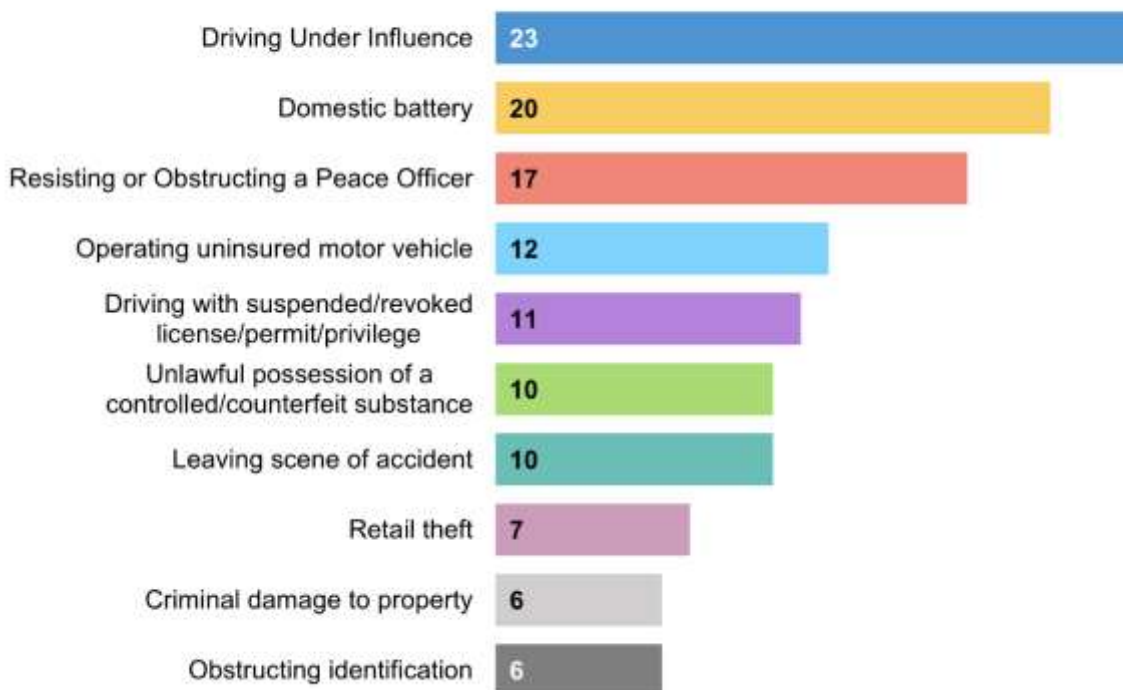

Review Process

Arlington Heights Police Department's report does not include a formal review process.

Incidents

Between January 1, 2023, and December 31, 2023, Arlington Heights Police Department reports one hundred twenty-two (122) incidents leading to two hundred nine (209) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Aurora Police Department

Aurora Police Department consists of three hundred twenty-five (325) sworn officers who utilize three hundred twenty-five (325) body worn cameras.

Technical Issues

The Aurora Police Department reports few technical issues, with only a handful of cameras needing to be sent back for repairs/replacement. Additionally, a couple of fleet cameras were sent back and replaced. The main technical issue was the intermittent issues with Redaction Studio.

Review Process

The Aurora Police Department utilizes built-in software in Axon's evidence.com, called Axon Performance, to review body worn camera footage of officers and supervisors, ensuring their proper use and performance. The software is set to automatically select one (1) random video for each officer in a squad, for review monthly. The supervisor one rank above the rank of the officer creating the video, is responsible for these reviews. Any deficiencies in how the camera is utilized, worn, and functions is documented and then an email is directed to the officer or supervisor for correction.

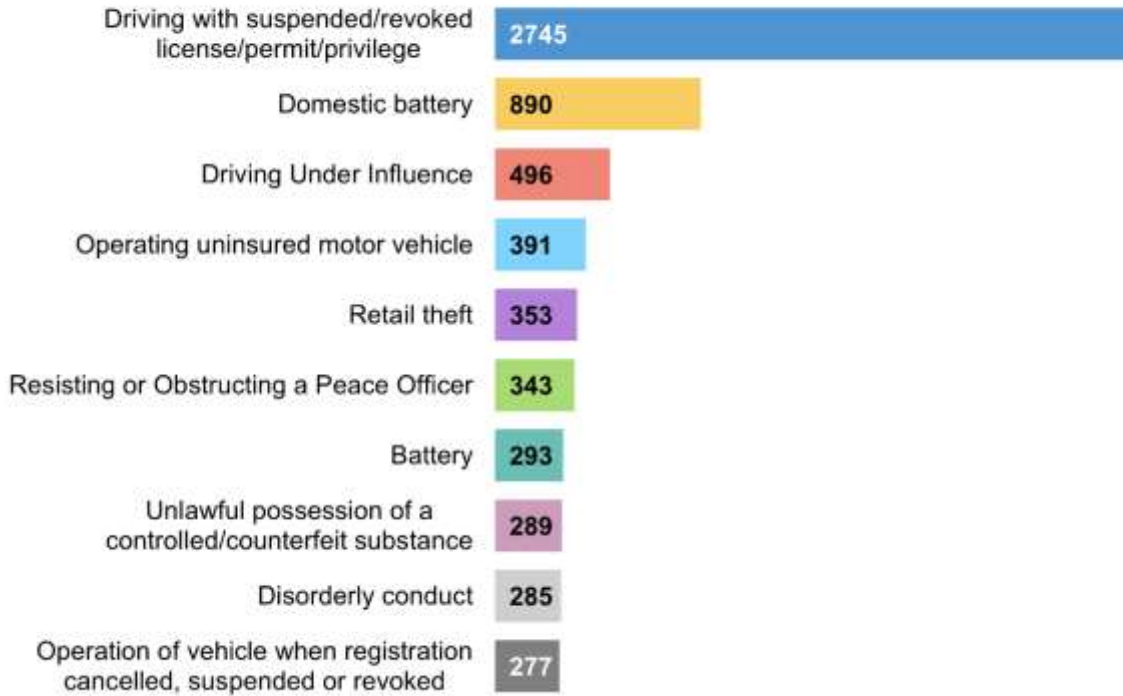

Supervisors do not review recordings to search for violations of policy or law not related to a specific complaint or incident. Supervisors may, per policy, review body worn camera footage for formal or informal complaint, or encounter could result in a complaint, use of force encounters, as corroboration of evidence of misconduct, or viewed to correct substandard performance or highlight commendatory performance.

Department Overview – Aurora Police Department, Continued

Incidents

Between January 1, 2023, and December 31, 2023, Aurora Police Department reports seven thousand two hundred twenty (7,220) arrests leading to nine thousand nine hundred fifty-four (9,954) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Bannockburn Police Department

Bannockburn Police Department consists of eight (8) full-time officers, including the Chief of Police and ten (10) part-time officers who utilize eleven (11) body worn cameras.

Technical Issues

Bannockburn Police Department reports zero (0) technical issues.

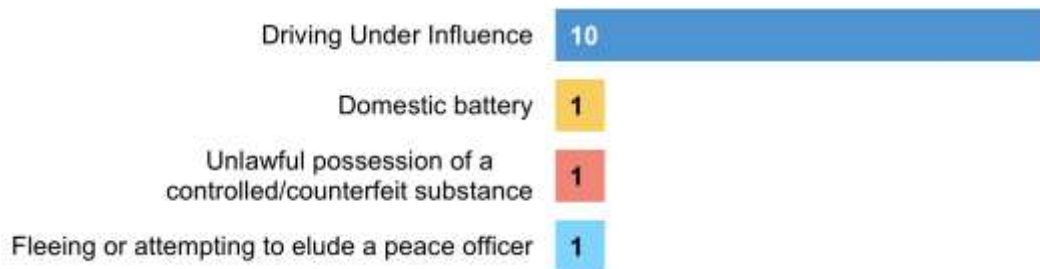

Review Process

Bannockburn Police Department's supervisors review footage for quality control measures. Officers may review their own BWC videos for report writing and recall purposes.

Incidents

Between January 1, 2023, and December 31, 2023, Bannockburn Police Department reports thirteen (13) incidents leading to thirteen (13) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Bartonville Police Department

Bartonville Police Department consists of thirteen (13) sworn officers who utilize eight (8) body worn cameras. The detective, school resource officer, and CIERT/ILEAS officer each have an additional camera, for a total of eleven (11) WatchGuard body cameras.

Technical Issues

Bartonville Police Department reports issues with five (5) body worn cameras malfunctioning due to battery and locking clips issues. Installing new batteries and clips solved the issues.

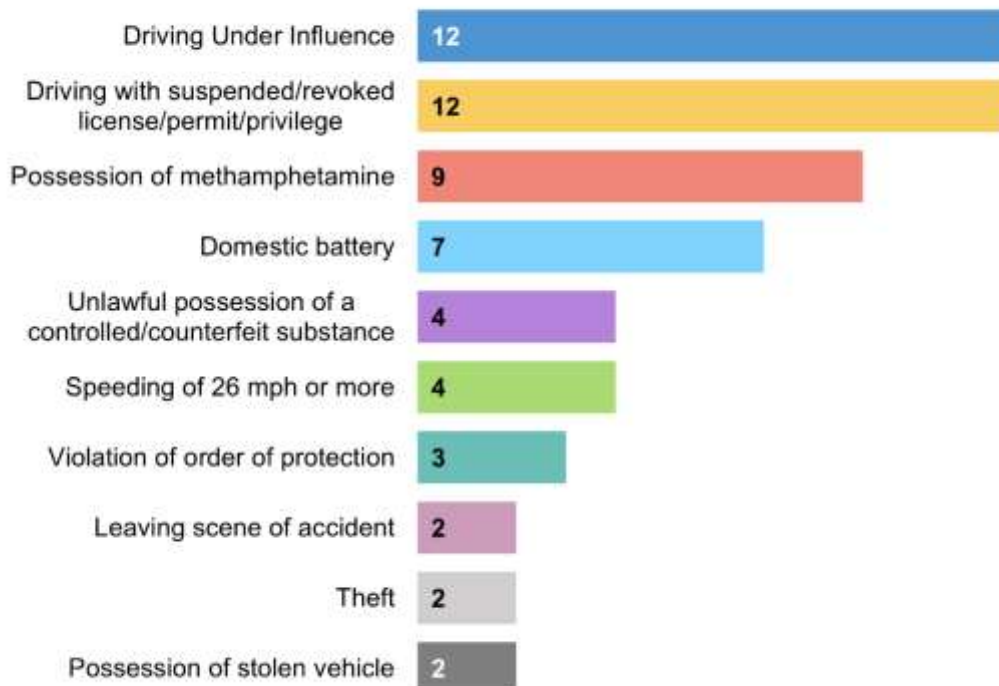

Review Process

Bartonville Police Department's review process consists of all use of force incidents being reviewed by the Chief of Police. Every sixty (60) days the detective officer reviews at least one (1) taped event from each officer. The reviews ensure that the cameras are being used properly, any malfunctioning of equipment is addressed, and any feedback can be given to each officer.

Incidents

Between January 1, 2023, and December 31, 2023, Bartonville Police Department reports seventy-three (73) incidents leading to seventy-five (75) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Batavia Police Department

Batavia Police Department utilizes forty-one (41) body worn cameras. The department activated and deployed its body worn camera program on May 10, 2021. Getac was selected as the camera vendor and model BC-2 is the camera used by all officers during this annual report cycle.

Technical Issues

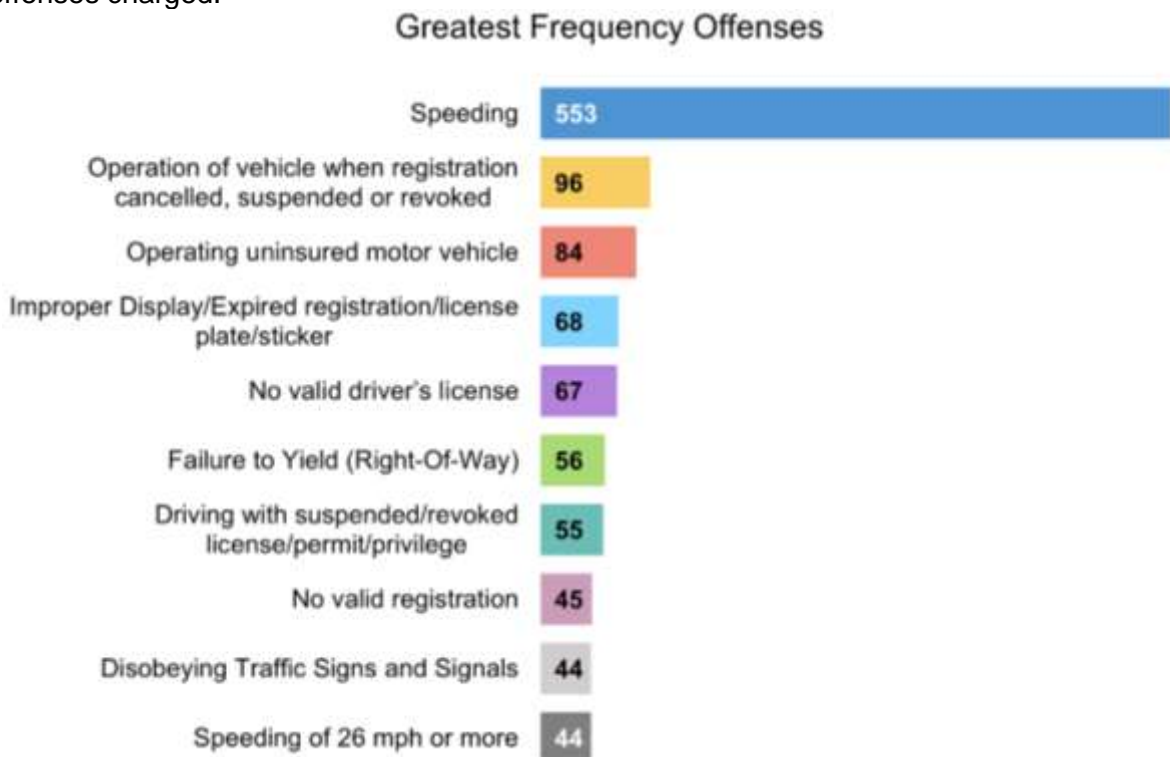

Batavia Police Department reports few occasions where there were issues with body cameras failing to sync to the squad cameras and failing to activate when expected. Also, the camera charging stations not connecting with the server which caused delays in charging and in uploads of videos. No loss of data was reported.

Review Process

Batavia Police Department supervisors are authorized to review relevant body camera recordings at any time, to include when they are investigating misconduct or reports of meritorious conduct, or whenever such recordings would be beneficial in reviewing an officer's performance. Monthly, supervisors randomly review ten (10) recordings pertaining to their area of responsibility to ensure that the equipment is operating properly and that officers are using the cameras appropriately and in accordance with policy and training.

Incidents

Between January 1, 2023, and December 31, 2023, Batavia Police Department reports one thousand two hundred twenty-three (1,223) incidents leading to one thousand four hundred seventy-one (1,471) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Bedford Park Police Department

Bedford Park Police Department consists of thirty-six (36) sworn officers who utilize thirty-six (36) Axon Body 4 body worn cameras.

Technical Issues

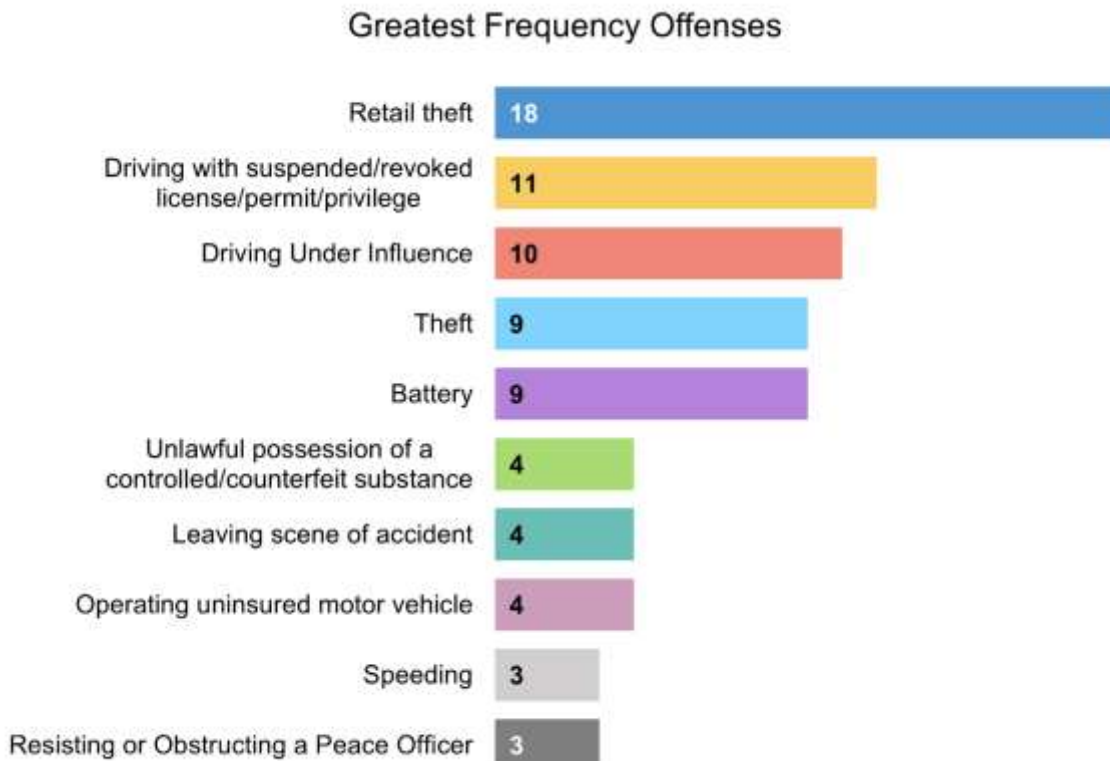

Bedford Park Police Department reports battery issues with the Axon Body 3 cameras.

Review Process

Bedford Park Police Department uses Frontline Quality Assurance Evaluations software and sergeant completes a body worn camera review once a month. The software randomly selects a body worn camera video for each officer's review. The evaluation lists the date, time and location for each event, and lists twelve (12) questions to ensure that each officer is following department policies. The sergeant attaches the link for each video reviewed so the officer can view the video, and then acknowledge the evaluation with their signature.

Incidents

Between January 1, 2023, and December 31, 2023, Bedford Park Police Department reports ninety-three (93) incidents leading to ninety-six (96) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Bensenville Police Department

Bensenville Police Department consists of thirty-six (36) sworn full-time officers and four (4) part-time officers who utilize forty-one (41) Motorola Solutions WatchGuard V300 body worn cameras (two (2) part-time officers share one (1) camera). Two (2) body worn cameras remain unassigned to be utilized as a spare if a camera malfunctions or has technical difficulties.

Technical Issues

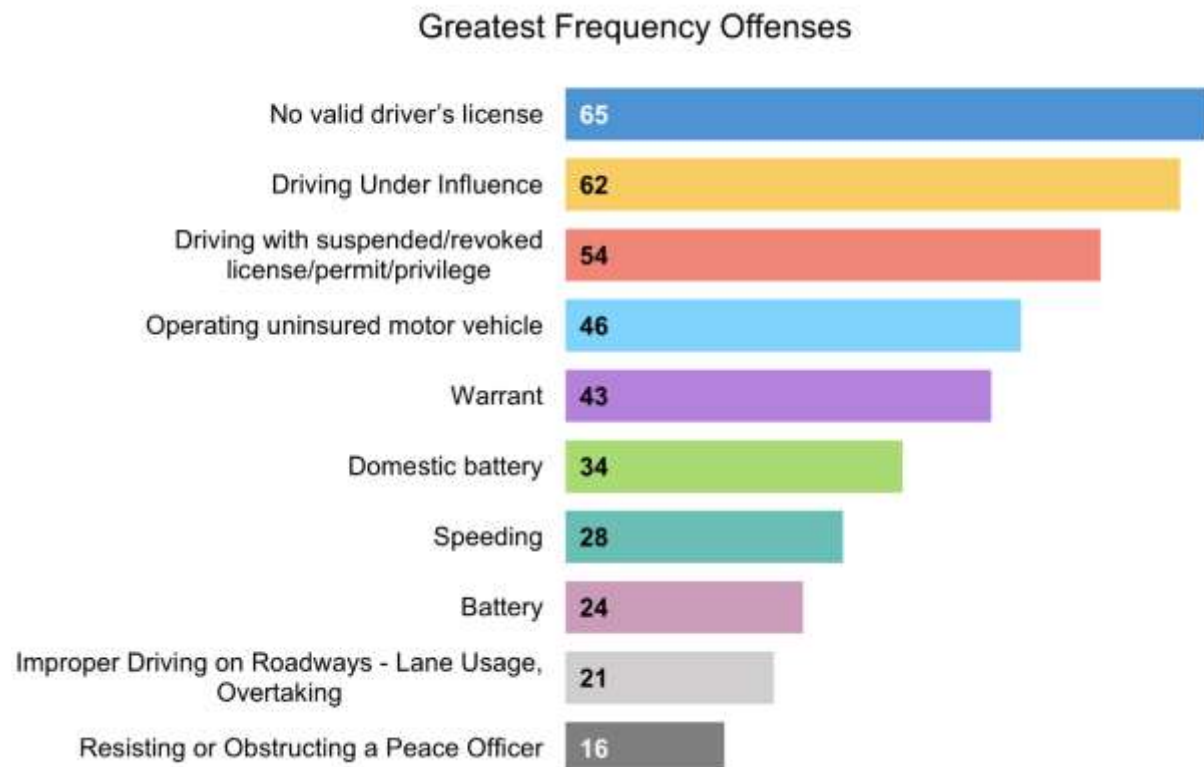

Bensenville Police Department reports eight (8) technical issues. Of those reported issues, four (4) were sync issues with the 4RE system. Other issues include “bloating” or enlargement of the middle of batteries, Error 0342, sync issues, incorrect time stamp, and repeatedly powered down which were solved by replacement or system recovery reboot.

Review Process

On a monthly basis, supervisors review an event captured by their officer’s body worn camera. This audit is to ensure that the body worn camera is operating properly and that officers are using the camera appropriately and in accordance with policy and training. The supervisor completes the Bensenville Police Department BWC Supervisor Monthly Audit form and reviews it with their officer. Those audits are then turned into the Body Worn Camera Administrator for review.

Incidents

Between January 1, 2023, and December 31, 2023, Bensenville Police Department reports three hundred twenty-five (325) incidents leading to six hundred nine (609) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Berwyn Police Department

Berwyn Police Department consists of one hundred twenty-two (122) full-time sworn officers who use a body worn camera each and fifty-seven (57) auxiliary officers who share thirty (30) body worn cameras.

Technical Issues

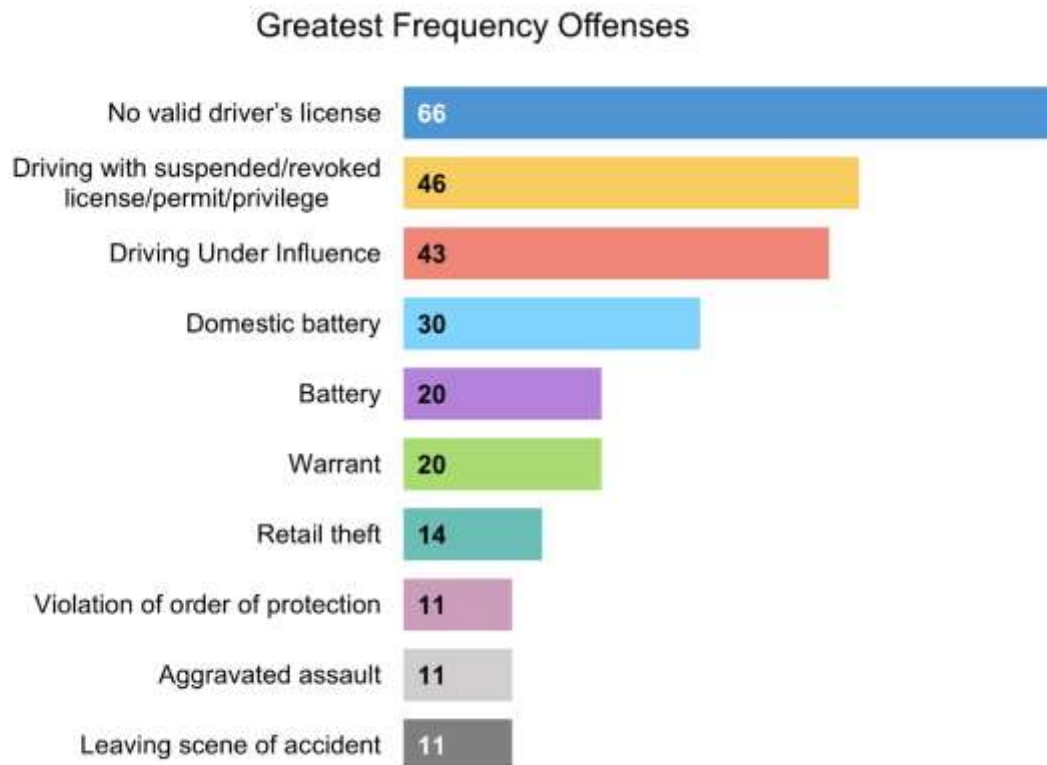

Berwyn Police Department does not report specific technical issues. There were four (4) body worn cameras that were sent out for repair or replacement due to technical issues. Most of the issues were remedied by restarting the cameras.

Review Process

Berwyn Police Department’s supervisors perform monthly random reviews of body worn camera recordings which consist of one (1) incident’s footage of each officer. Supervisors coordinate the selection of officers with one another to ensure there are no duplicate reviews. These reviews are documented on the “In-Car / Officer-Worn Camera Video Review” form which includes reviewing supervisor, date of review, officer being reviewed, date/time of occurrence, type of incident, policy compliance, compliance with the law, officer’s safety, any necessary action/follow-up taken.

Incidents

Between January 1, 2023, and December 31, 2023, Berwyn Police Department reports three hundred sixty-one (361) incidents leading to three hundred ninety-nine (399) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Bloomington Police Department

Bloomington Police Department has one hundred twenty-eight (128) body worn cameras, used by all sworn personnel when required.

Technical Issues

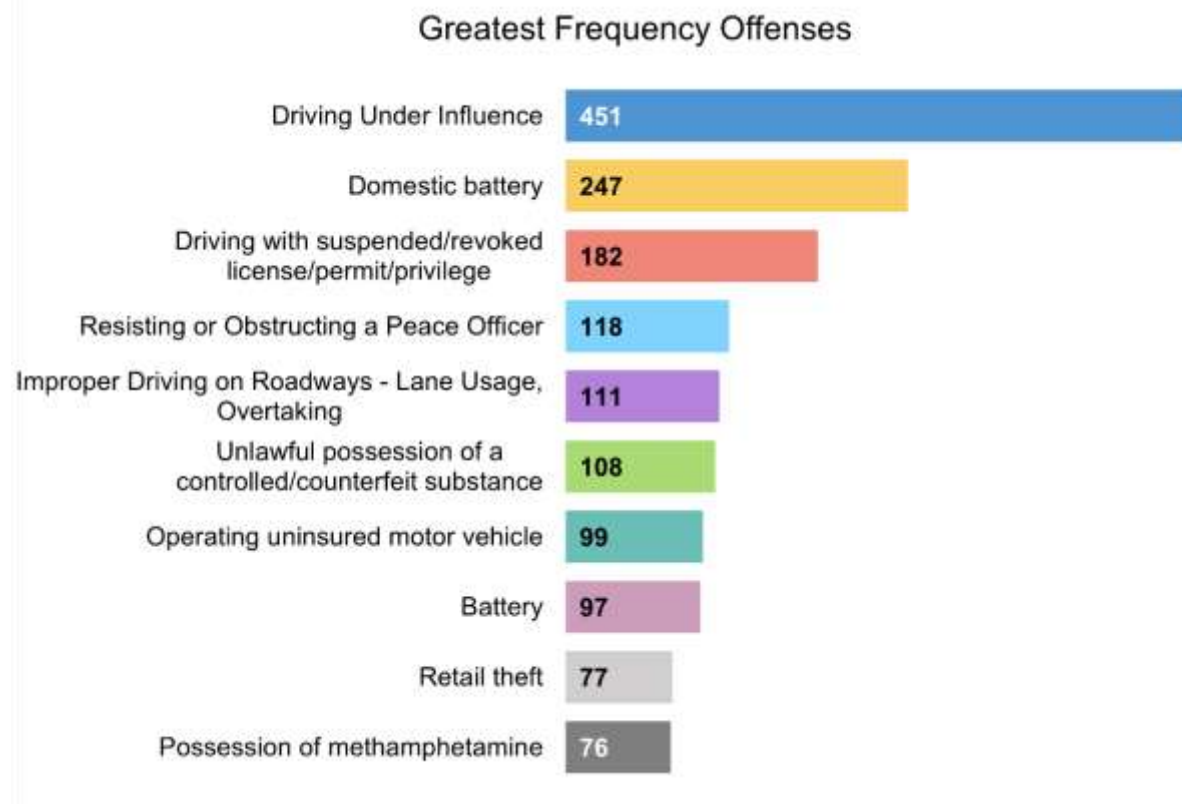

Bloomington Police Department reports zero (0) technical issues.

Review Process

Bloomington Police Department's supervisors review footage on an as-needed basis, including calls for service, complaints, or other relevant issues. Supervisors also review a minimum of two (2) random videos per officer per month.

Incidents

Between January 1, 2023, and December 31, 2023, Bloomington Police Department reports one thousand four hundred ninety-five (1,495) incidents leading to three thousand sixty-seven (3,067) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Bond County Sheriff’s Office

Bond County Sheriff’s Office’s report does not provide department or body worn camera information.

Technical Issues

Bond County Sheriff’s Office reports zero (0) technical issues.

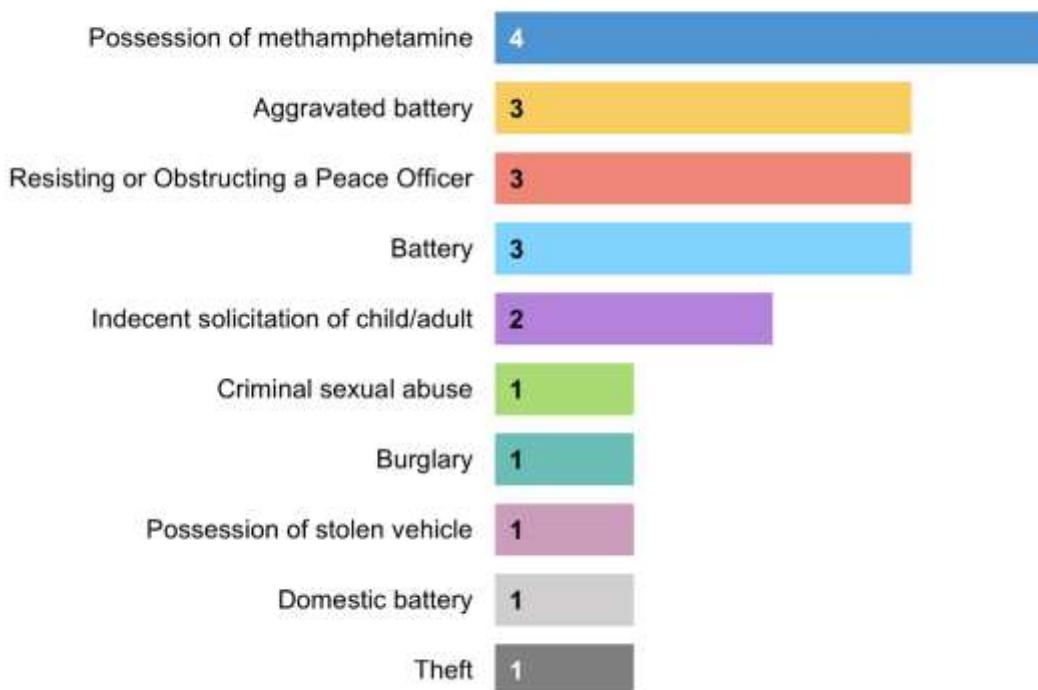

Review Process

Bond County Sheriff’s Office’s report does not include a formal review process.

Incidents

Between January 1, 2023, and December 31, 2023, Bond County Sheriff’s Office reports thirty-one (31) incidents leading to thirty-one (31) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Bourbonnais Police Department

Bourbonnais Police Department consists of twenty-seven (27) sworn officers who utilize twenty-four (24) Getac Body Worn Cameras (model# BC-02).

Technical Issues

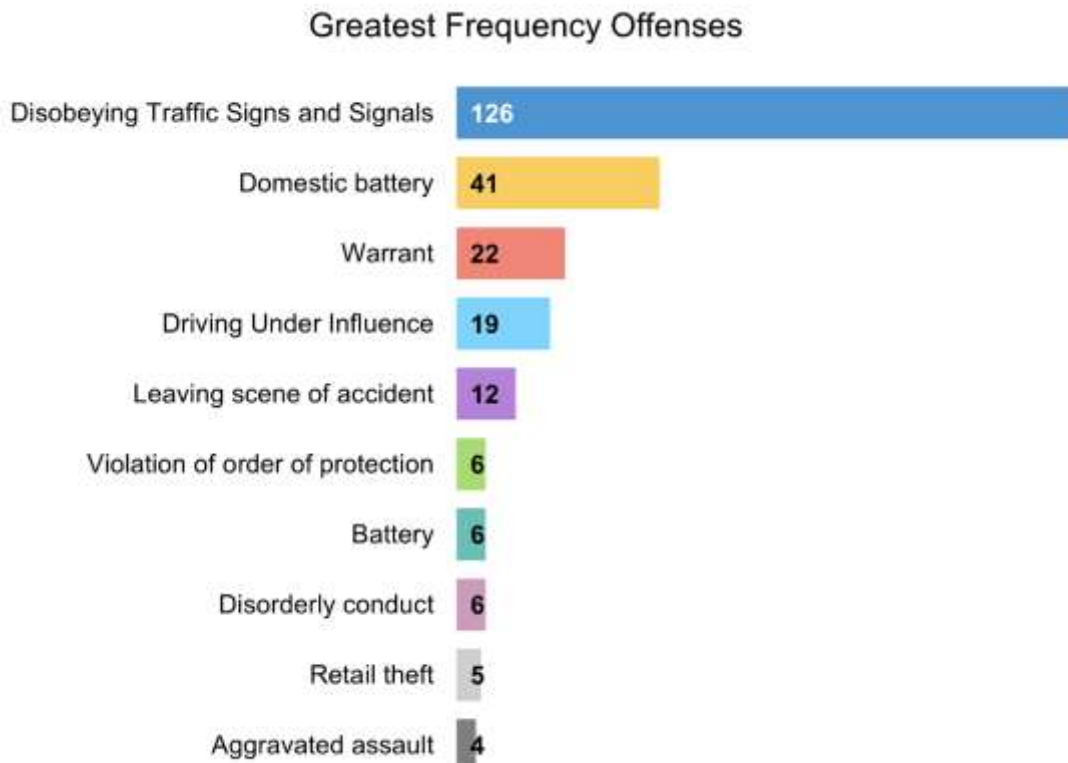

Bourbonnais Police Department reports minor technical issues including low battery life, video being uploaded in different usernames, and cameras not syncing to in-car cameras.

Review Process

Bourbonnais Police Department's supervisors review body worn camera videos of officers on their shifts to document training issues and policy compliance that should be addressed at their level. Administrators have the right to review body worn camera videos any time they are investigating alleged misconduct, reports of meritorious conduct or whenever such recordings would be beneficial in reviewing an officer's performance or a training exercise.

Incidents

Between January 1, 2023, and December 31, 2023, Bourbonnais Police Department two hundred eighty (280) incidents leading to two hundred eighty (280) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Burbank Police Department

Burbank Police Department consists of forty-seven (47) full-time police officers who utilize twenty (20) body worn cameras.

Technical Issues

Burbank Police Department reports that three (3) body worn cameras were shipped to the service provider for being defective. The technical issues encountered include camera displaying a SD card error code, camera stuck in boot sequence, and damaged internal component.

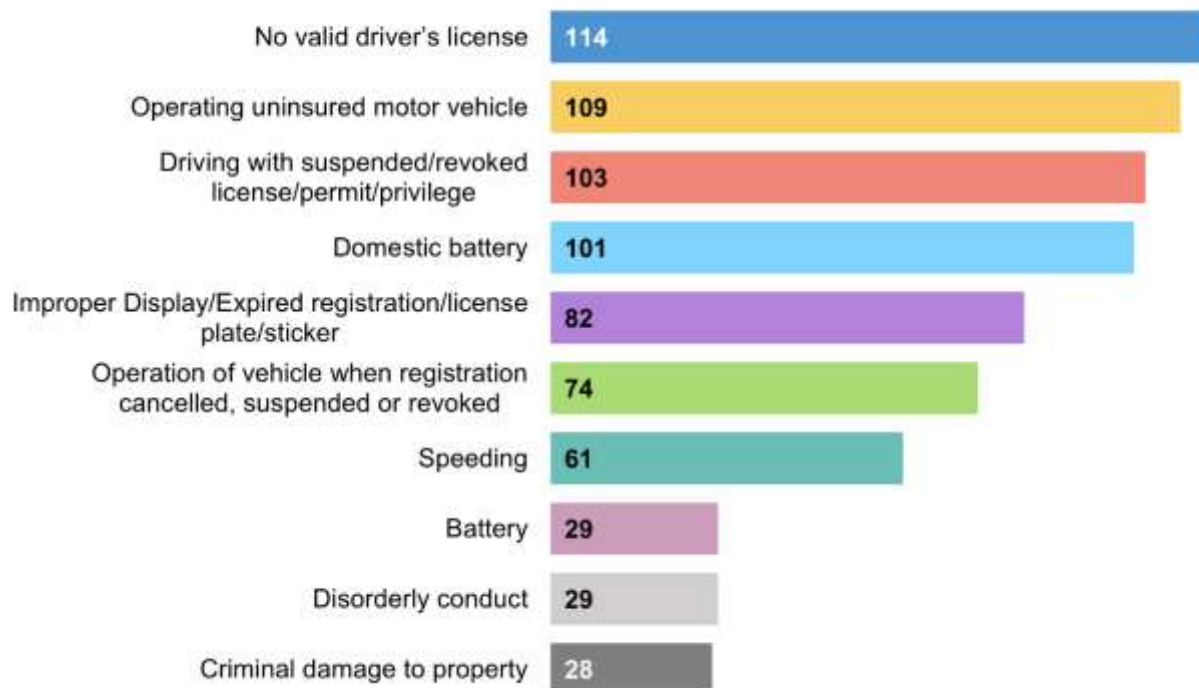

Review Process

Burbank Police Department’s supervisors are authorized to review relevant body camera recordings any time they are investigating alleged misconduct or reports of meritorious conduct, or whenever such recordings would be beneficial in reviewing a member’s performance. Supervisor of the recording member documents in the report or other documentation if the supervisor reviewed body worn camera recordings prior to completing the report or other documentation.

Incidents

Between May 3, 2023, and December 31, 2023, Burbank Police Department reports five hundred seventy-eight (578) incidents leading to one thousand two hundred thirty-two (1,232) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Burr Ridge Police Department

Burr Ridge Police Department consists of twenty-seven (27) officers who utilize twenty-seven (27) Axon Body 3 body worn cameras.

Technical Issues

Burr Ridge Police Department reports intermittent reboot issue while recording which led to incomplete video recordings. The camera was sent to the manufacturer for repair.

Review Process

Burr Ridge Police Department's patrol sergeant conducts monthly documented review of video data for every employee to assist in periodic assessment of performance and to determine whether the equipment is being properly used. Each watch includes at least two separate instances per employee.

Incidents

Burr Ridge Police Department's report does not include incidents data.

Department Overview – Carbondale Police Department

Carbondale Police Department consists of approximately sixty (60) sworn officers who utilize a body worn camera each.

Technical Issues

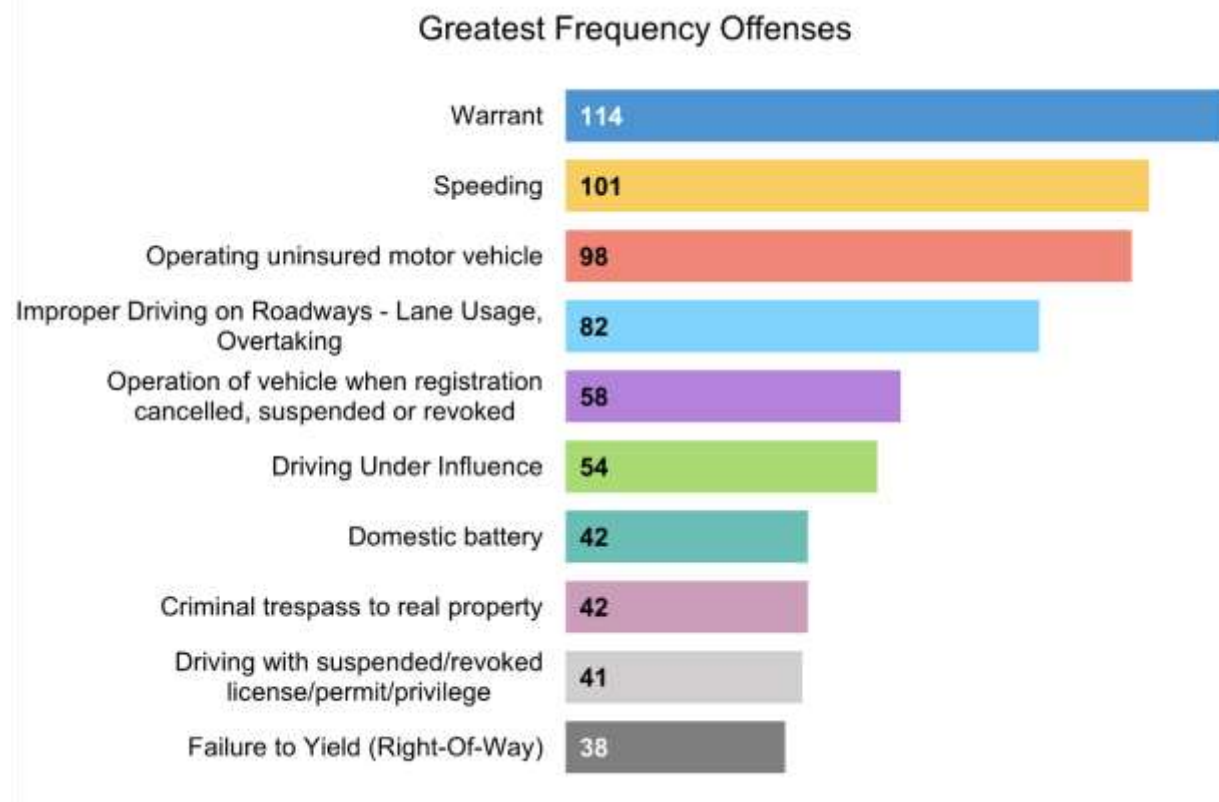

Carbondale Police Department reports zero (0) technical issues.

Review Process

Carbondale Police Department’s supervisors, sergeants, lieutenants, and command staff review all body worn camera videos that contain any use of force to ensure adherence to laws and policy. Other videos are reviewed at random or when complaints arise.

Incidents

Between July 1, 2023, and December 31, 2023, Carbondale Police Department reports seven hundred seventy-two (772) incidents leading to one thousand one hundred forty-four (1,144) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Carol Stream Police Department

Carol Stream Police Department consists of sixty (60) officers who utilize sixty (60) WatchGuard Vista body worn cameras.

Technical Issues

Carol Stream Police Department reports battery charging issues requiring batteries replacement, docking issue that delayed uploading of data and software issues which required replacement of camera through the manufacturer.

Review Process

Carol Stream Police Department's supervisors randomly review recordings pertaining to their area of responsibility to ensure the equipment is operating properly and that officers are using the cameras appropriately and in accordance with training and department policy.

Incidents

Carol Stream Police Department's report does not include incidents data.

Department Overview – Carpentersville Police Department

Carpentersville Police Department consists of fifty-two (52) sworn officers who utilize fifty-two (52) body worn cameras.

Technical Issues

Carpentersville Police Department reports minor technical issues with low battery life of the cameras, which was resolved by internal programming and USB charging cords in the squads as well as the ability to swap out for a fully charged camera during the shift.

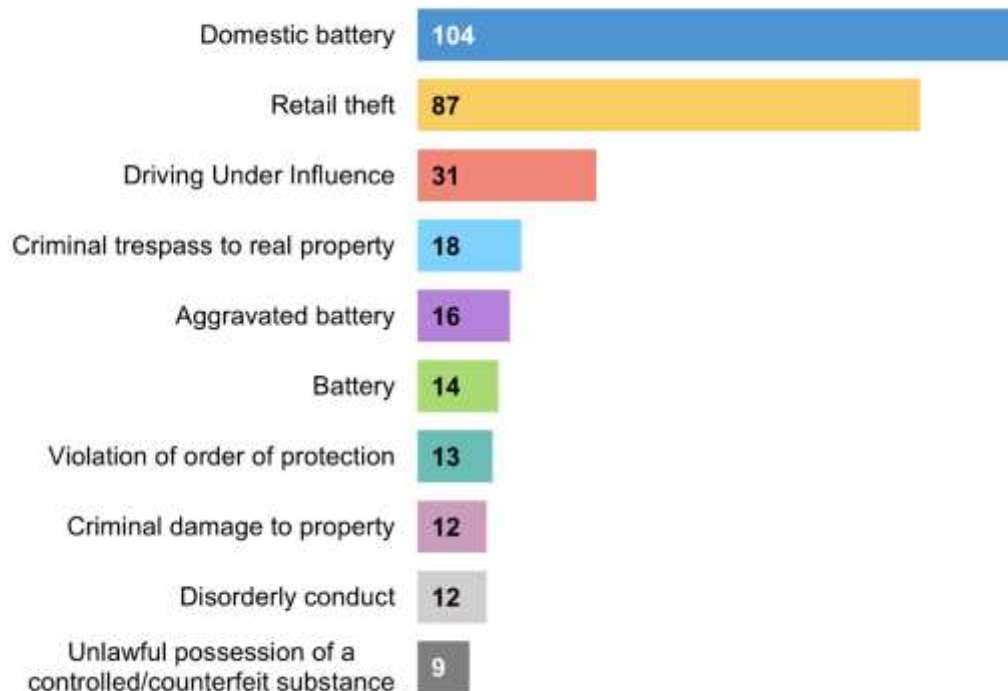

Review Process

Carpentersville Police Department’s supervisors review a minimum of two (2) recordings per officer selected from the month being audited, ensuring that they were recorded in that month. The selection of recordings is conducted in a manner that promotes an equitable review of recordings from all officers. Supervisors document their review using the BWC Monthly Review electronically on My Frontline, BWC Audits. Supervisors do not review recordings for the sole purpose of searching for violations of department policy or law not related to a specific complaint or incident. If policy violations are observed by a supervisor, such policy violations are treated on a basis which neither enhances or diminishes any potential discipline.

Incidents

Between January 1, 2023, and December 31, 2023, Carpentersville Police Department reports four hundred twenty-two (422) incidents leading to four hundred twenty-two (422) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Champaign County Sheriff’s Office

Champaign County Sheriff’s Office utilizes fifty-six (56) VIEVU body worn cameras. The report does not include staff information.

Technical Issues

Champaign County Sheriff’s Office reports minor wear and tear issues.

Review Process

Champaign County Sheriff’s Office’s Patrol Division Lieutenant, the Investigations Division Lieutenant, and the Administrative Support Lieutenant view at least four (4) videos, one (1) from each shift, and review them from a management standpoint of quality control. If an issue is discovered, the captain of the law enforcement division is contacted, and a determination is made for the best course of action to remedy the problem. Each week, the shift supervisors choose at least six (6) videos from their shift and review the videos from a supervisory standpoint for quality control. If an issue is discovered, which cannot be addressed at their level, they are advised to contact the patrol division lieutenant to determine the best course of action to remedy the problem.

Incidents

Champaign County Sheriff’s Office’s report does not include incidents data.

Department Overview – Champaign Police Department

Champaign Police Department consists of one hundred twenty-six (126) sworn officers who utilize a body worn camera each.

Technical Issues

Champaign Police Department reports following issues with body worn cameras:

- Officers misclassify footage - resolved with further training and supervision
- SD card errors - repaired in-house
- Camera synchronization failure
- Diminished battery life
- Three (3) Video import issues - resolved by in-house staff trained in the video system
- Camera mount failure
- Two (2) cameras stopped recording – remedied with a firmware update by manufacturer
- Camera shut down due to overheating

Review Process

Champaign Police Department's sergeants randomly review body worn camera videos for each of their assigned officers to ensure policy compliance. Reviews are also conducted for use of force incidents above normal handcuffing, when officers flag and note footage reviewed before submitting a report, before debriefings, and for FOIA requests.

Incidents

Champaign Police Department's report does not include incidents data.

Department Overview – Charleston Police Department

Charleston Police Department consists of thirty-two (32) sworn officers who utilize thirty-five (35) body worn cameras.

Technical Issues

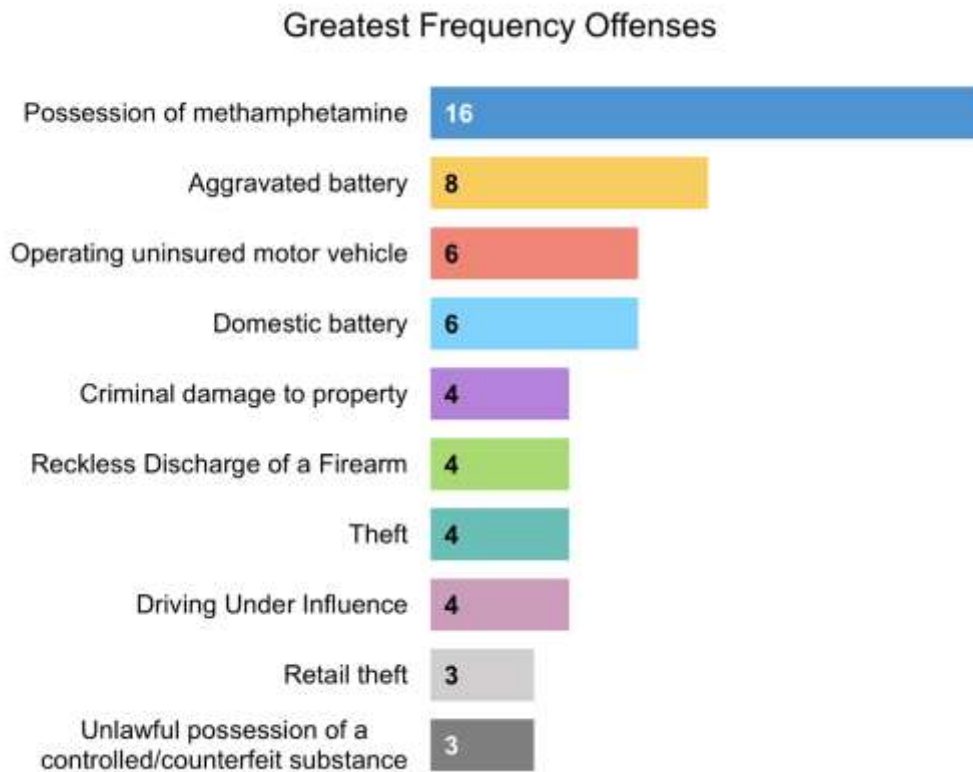

Charleston Police Department reports zero (0) technical issues.

Review Process

Charleston Police Department's shift supervisory staff review body worn camera footage regularly and as needed after criminal investigation or staff complaint resolution. All use of force incidents are reviewed as well. Information technology staff regularly reviews system infrastructure (hardware and servers) to ensure proper recording and collection of video files.

Incidents

Between January 1, 2023, and December 31, 2023, Charleston Police Department reports eighty-seven (87) incidents leading to one hundred nine (109) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Chenoa Police Department

Chenoa Police Department consists of seven (7) officers, four (4) full-time, and three (3) part-time, who utilize seven (7) AXON Body-3 body worn cameras.

Technical Issues

Chenoa Police Department reported zero (0) technical issues.

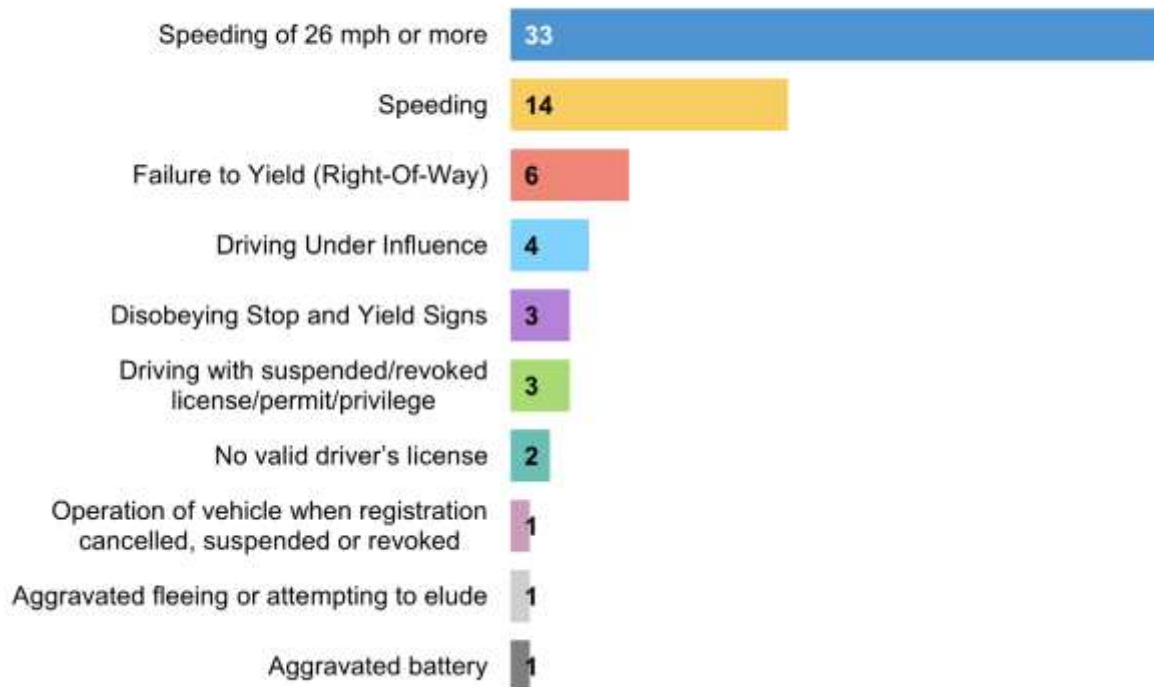

Review Process

Chenoa Police Department reviews all use of force incidents and most felony and DUI arrests, as well as performing periodic random reviews, to assess policy and procedure compliance in the use of body worn cameras.

Incidents

Between January 1, 2023, and December 31, 2023, Chenoa Police Department reports seventy-two (72) incidents leading to seventy-four (74) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Chicago Police Department

Chicago Police Department is the largest municipal police agency in Illinois with approximately eleven thousand five hundred (11,500) sworn officers. The Chicago Police Department is divided into two (2) offices: the Office of Operations and the Office of Constitutional Policing and Reform. The Chicago Police Department has prioritized officer worn camera deployment in the Office of Operations Patrol Districts and Units within the Special Operations Group. CPD maintains a pool of one thousand eight hundred (1,800) additional cameras to be assigned to sworn officers during deployments, special events, and temporary field duty.

The Chicago Police Department consists of twenty-two (22) patrol districts, as well as Area Community Safety Teams. These districts and teams are staffed by approximately seven thousand five hundred (7,500) sworn officers; all the officers are equipped with body worn cameras. There are another approximate eight hundred (800) body worn cameras assigned to the Mass Transit Unit, SWAT, Traffic, Detail Unit, Fugitive Apprehension, and Investigative Response teams. As of May 1st, 2023, approximately ten thousand (10,000) body worn cameras are utilized by the Chicago Police Department. Eight thousand two hundred (8,200) permanently assigned and one thousand eight hundred (1,800) utilized for temporary field deployments.

Technical Issues

Chicago Police Department reports that there have been no major technical issues with their cameras and are currently in the process of replacing their older cameras with new cameras of the same model.

Review Process

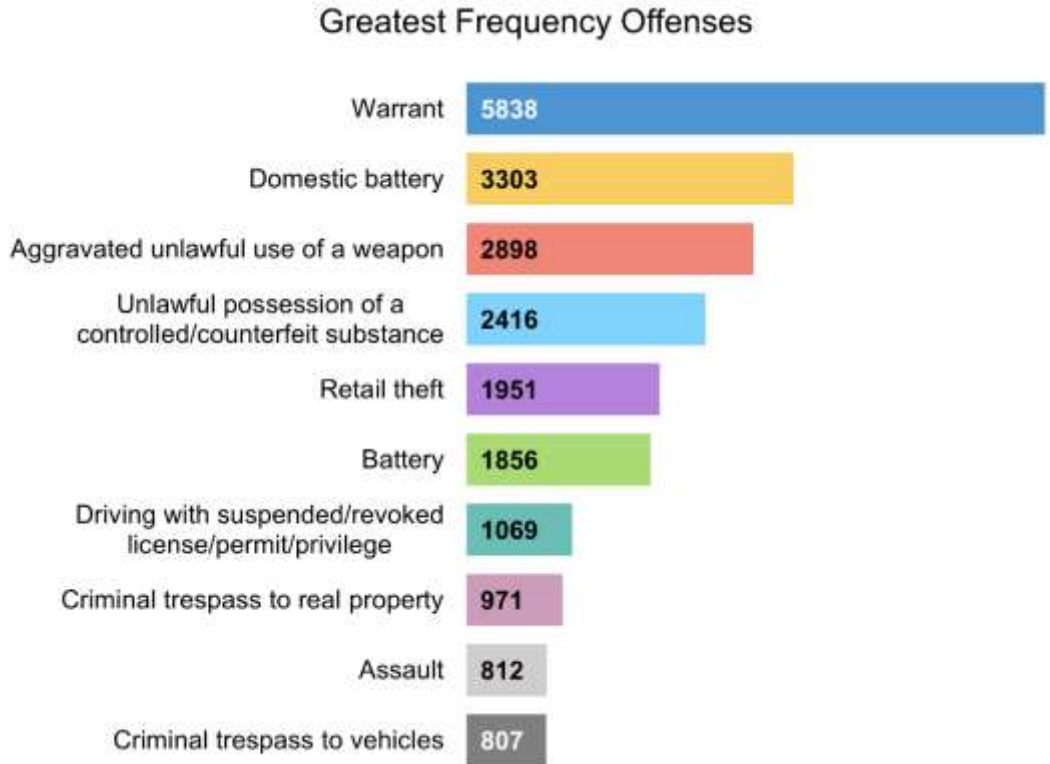

Chicago Police Department supervisors ensure:

- Department members use body worn cameras consistent with Chicago Police Department directives.
- A report is entered in a Chicago Police Department application whenever any member is unable to use the body worn camera or download digitally recorded data due to technical problems. This application is monitored by trained field technicians who respond to repair or replace any defective equipment; there are also a small number of cameras at each location that can be assigned to an officer on a temporary basis.
- An investigation is initiated when notified of a missing, lost, or damaged body worn camera.
- The distribution, charging, and uploading of the body worn cameras are consistent with Chicago Police Department directives.
- Officers who reviewed a body worn camera recording prior to writing an arrest report document this fact in the narrative portion of the arrest report prior to submitting the report for approval.
- The Watch Operations Lieutenant reviews at least one (1) random recording per watch to ensure Chicago Police Department policy is properly adhered to.
- For use of force incidents, all pertinent body worn camera videos are reviewed by the Watch Operations Lieutenant.
- District commanders/unit commanding officers, or their designee, receive weekly reports on officer body worn camera usage and the number of unmatched videos to ensure

compliance with Chicago Police Department policy.

Incidents

Between January 1, 2023, and December 31, 2023, Chicago Police Department reports thirty-six thousand five hundred sixty-four (36,564) incidents leading to thirty-seven thousand two hundred eighty-two (37,282) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Chicago Ridge Police Department

Chicago Ridge Police Department consists of thirty-one (31) sworn officers, who utilize thirty-one (31) Motorola V300 body worn cameras, that have been in use since 2023.

Technical Issues

Chicago Ridge Police Department reports that there were minor technical issues caused by a firmware malfunction which is under repair.

Review Process

Chicago Ridge Police Department's report does not include a formal review process. However, it is mentioned that all videos are retained for a minimum of ninety (90) days period.

Incidents

Chicago Ridge Police Department's report does not include incidents data.

Department Overview – Cicero Police Department

Cicero Police Department utilizes one hundred fifty-six (156) body worn cameras. The report does not include staff information.

Technical Issues

Cicero Police Department reports zero (0) technical issues.

Review Process

Cicero Police Department's supervisory personnel conducts documented random reviews of video files of personnel under their command to ensure officers are adhering to department policies and procedures.

Incidents

Cicero Police Department's report does not include incidents data.

Department Overview – Clarendon Hills Police Department

Clarendon Hills Police Department consists of fourteen (14) sworn officers who utilize fifteen (15) Motorola body worn cameras.

Technical Issues

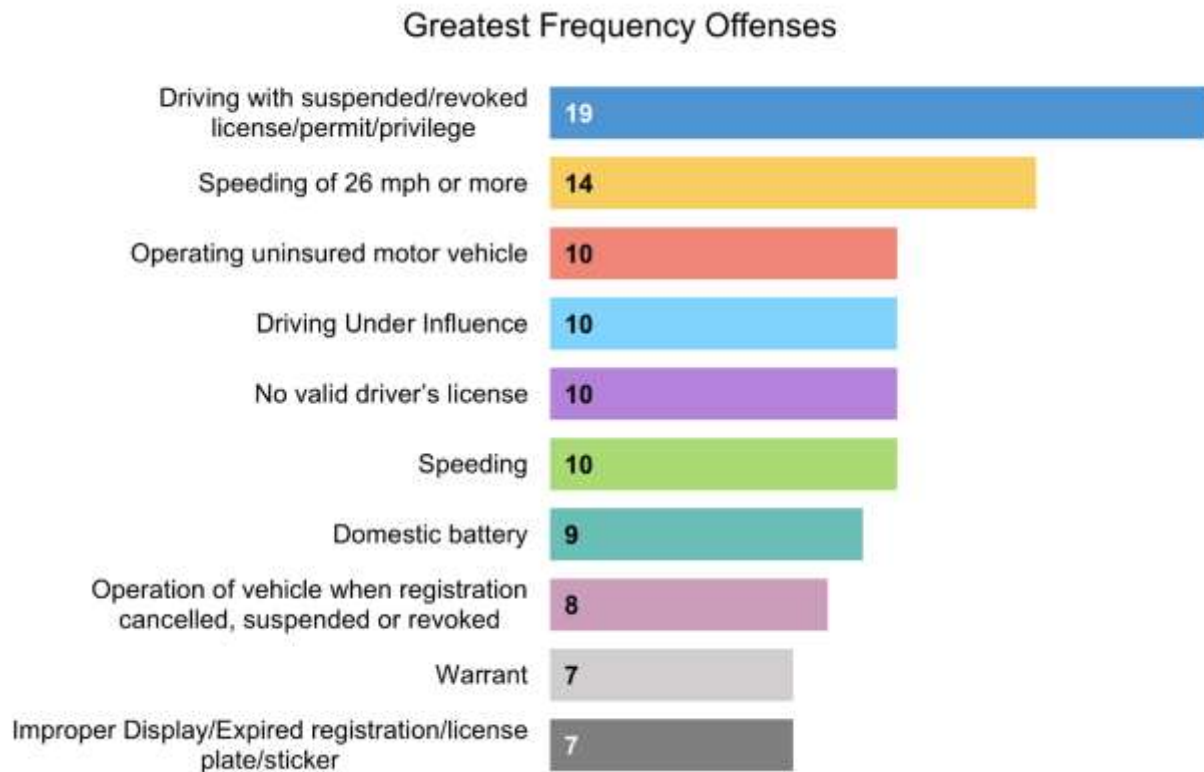

Clarendon Hills Police Department reports zero (0) technical issues.

Review Process

Clarendon Hills Police Department's supervisors review body worn camera recordings to investigate a specific act of officer conduct, to assess reports of meritorious conduct, to assess proper functioning of the body worn camera, to assess training value, for report preparation, and/or in the case of an official investigation such as a personal complaint, or administrative inquiry of a criminal investigation.

Incidents

Between January 1, 2023, and December 31, 2023, Clarendon Hills Police Department reports sixty-nine (69) incidents leading to one hundred twenty-four (124) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Coles County Sheriff's Office

Coles County Sheriff's Office consists of twenty (20) sworn officers and utilize twenty-four (24) body worn cameras.

Technical Issues

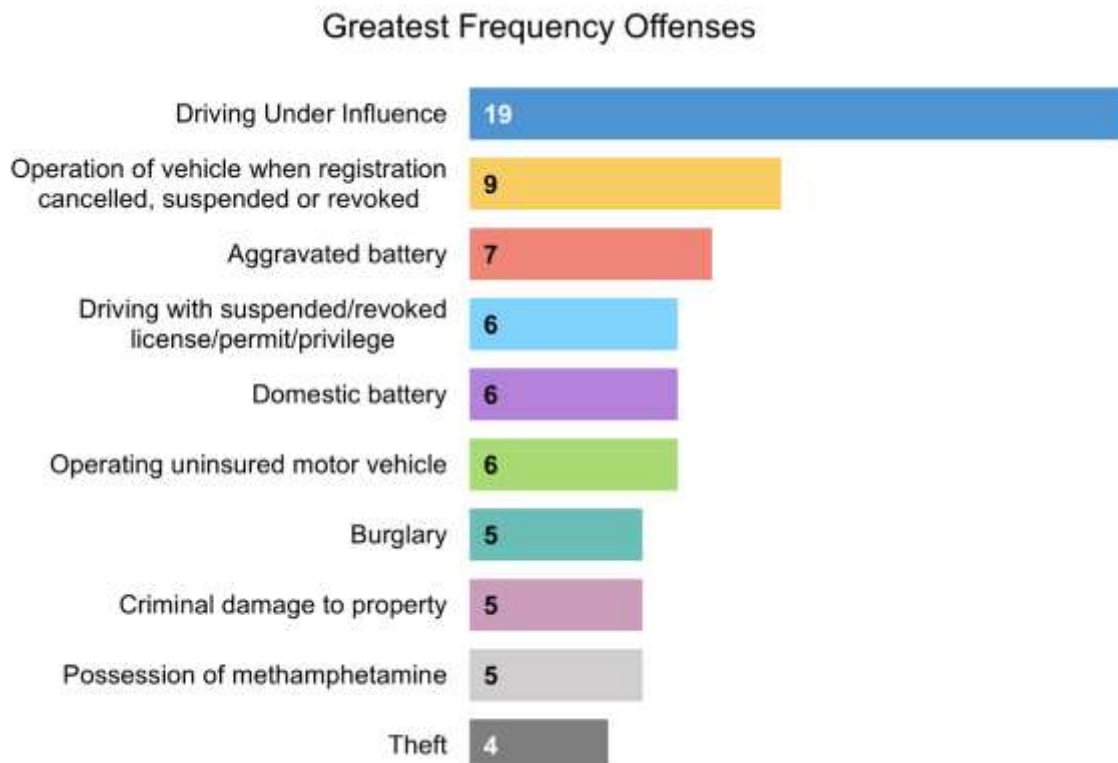

Coles County Sheriff's Office reports zero (0) technical issues. They conduct regular preventive maintenance to servers and battery issues.

Review Process

Coles County Sheriff's Office's supervisors are authorized to review relevant recordings any time they are investigating alleged misconduct or reports of meritorious conduct, or whenever such recordings would be beneficial in reviewing the member's performance. The supervisor of the recording member document in the report or other documentation if the supervisor or the recording member reviewed body worn camera recordings prior to completing the report or other documentation.

Incidents

Between January 1, 2023, and December 31, 2023, Coles County Sheriff's Office reports eighty-five (85) incidents leading to ninety-nine (99) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Country Club Hills Police Department

Country Club Hills Police Department consists of thirty-four (34) officers who utilize thirty-four (34) body worn cameras.

Technical Issues

Country Club Hills Police Department reports two (2) technical issues.

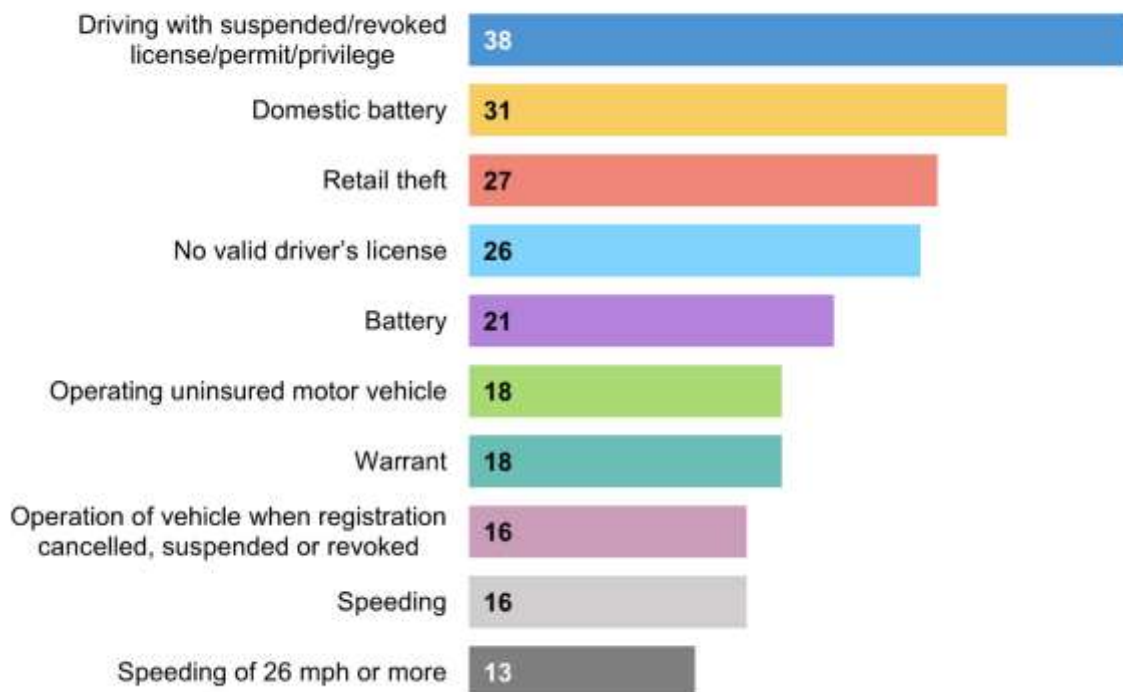

Review Process

Country Club Hills Police Department's report does not include a formal review process.

Incidents

Between May 1, 2023, and December 31, 2023, Country Club Hills Police Department reports two hundred nine (209) incidents leading to three hundred seventy-six (376) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Crestwood Police Department

Crestwood Police Department consists of thirty-four (34) sworn officers who utilize twenty-five (25) body worn cameras.

Technical Issues

Crestwood Police Department reports a few technical issues that were corrected immediately by Axon, with only a learning curve as the officers learned the procedures and the Body Worn Camera Act. Initial problem with battery life not lasting through shift was addressed by supplying charging cables in each patrol vehicle.

Review Process

Crestwood Police Department utilizes a program titled Body Worn Camera Audits through Frontline, to review body worn camera footage of officers and supervisors, ensuring their proper use and performance. Each month, the number of videos created for each police officer is entered into Frontline Quality Assurance Evaluation. Frontline shuffles the videos, randomly selects a video, and then a supervisor views the video in its entirety, to ensure that each officer is following the policy. Each supervisor one rank above randomly selects two (2) videos per officer monthly.

Any deficiencies in how the camera is utilized, worn, and functions is documented and then an email is directed to the officer or supervisor for correction. A command staff officer reviews and evaluates all supervisors.

Incidents

Crestwood Police Department's report does not include incidents data.

Department Overview – Crystal Lake Police Department

Crystal Lake Police Department utilizes sixty-nine (69) body worn cameras, of which sixty-five (65) are currently being utilized.

Technical Issues

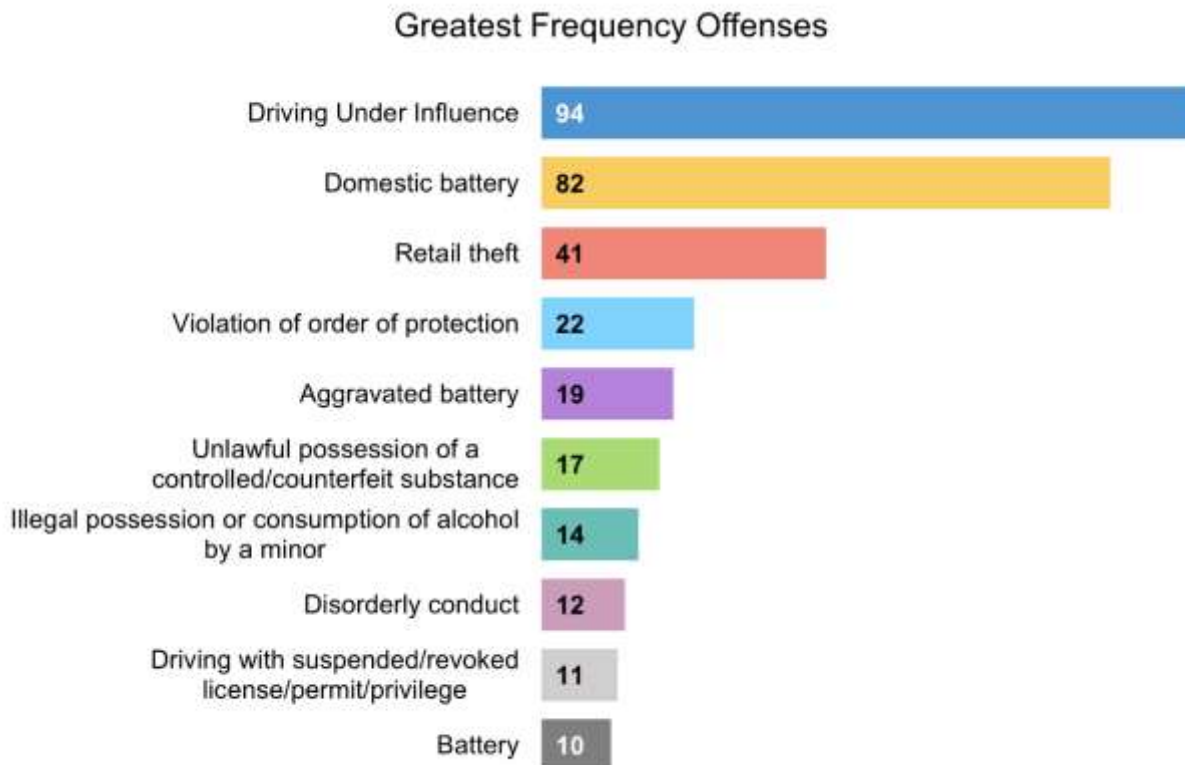

Crystal Lake Police Department reported zero (0) technical issues.

Review Process

Crystal Lake Police Sergeants have permission to conduct video reviews, when necessary, but are required to select two random videos each month for mentoring and training purposes. The ranks above sergeant conduct administrative reviews of videos as necessary and in-line with our Response to Resistance Administrative Review Policy. Videos that are reviewed should have a note attached in Evidence.com specifying who watches the video and the reason.

Incidents

Between January 1, 2023, and December 31, 2023, Crystal Lake Police Department reports four hundred eighty (480) incidents leading to four hundred ninety (490) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Darien Police Department

Darien Police Department consists of thirty-four (34) sworn officers who utilize thirty-four (34) body worn cameras. The department fully implemented the program in March of 2023.

Technical Issues

Darien Police Department reports one (1) problem with the activation button on a camera which was resolved by sending it back to the vendor.

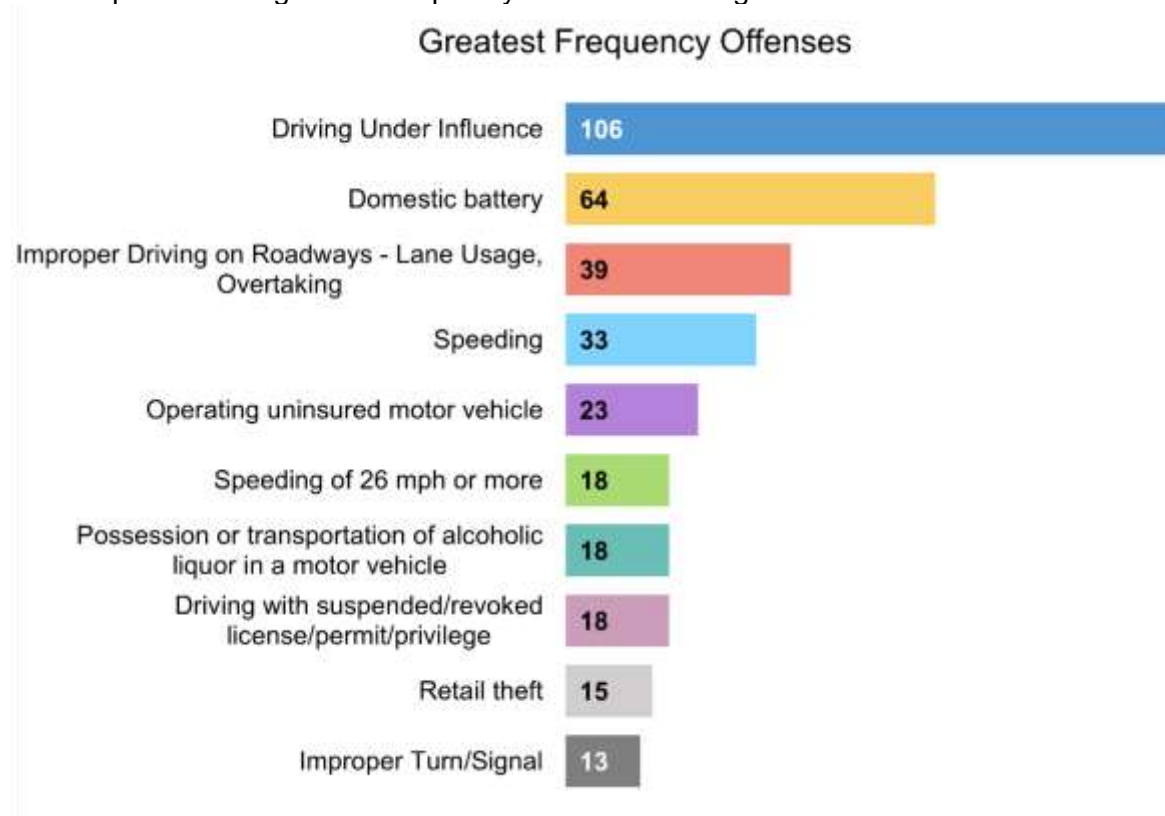

Review Process

Darien Police Department's supervisors (patrol and investigations) periodically review their personnel's body worn camera footage. There is an Excel log sheet accessible to supervisors detailing each review performed. The date reviewed, type of recording (Axon or WatchGuard), time of incident, officer, vehicle number (if applicable), event category and comments (whether there were issues and the remedy) are all columns that can be answered.

A random video review system was purchased by the Darien Police Department in 2024 to ensure that videos reviewed by supervisors are selected randomly and autonomously.

Incidents

Between March 1, 2023, and December 31, 2023, Darien Police Department reports one hundred eighty-nine (189) incidents leading to five hundred ten (510) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Decatur Police Department

Decatur Police Department currently consists of one hundred thirty-five (135) sworn staff who utilize a body worn camera each.

Technical Issues

Decatur Police Department reports minor technical issues but does not provide details.

Review Process

Decatur Police Department's supervisors review body worn camera footage for reporting purposes, use of force reviews, and periodic spot checks.

Incidents

Decatur Police Department's report does not include incidents data.

Department Overview – DeKalb County Sheriff’s Office

DeKalb County Sheriff’s Office utilizes forty-two (42) Axon Body 3 body worn cameras.

Technical Issues

DeKalb County Sheriff’s Office reports zero (0) technical issues.

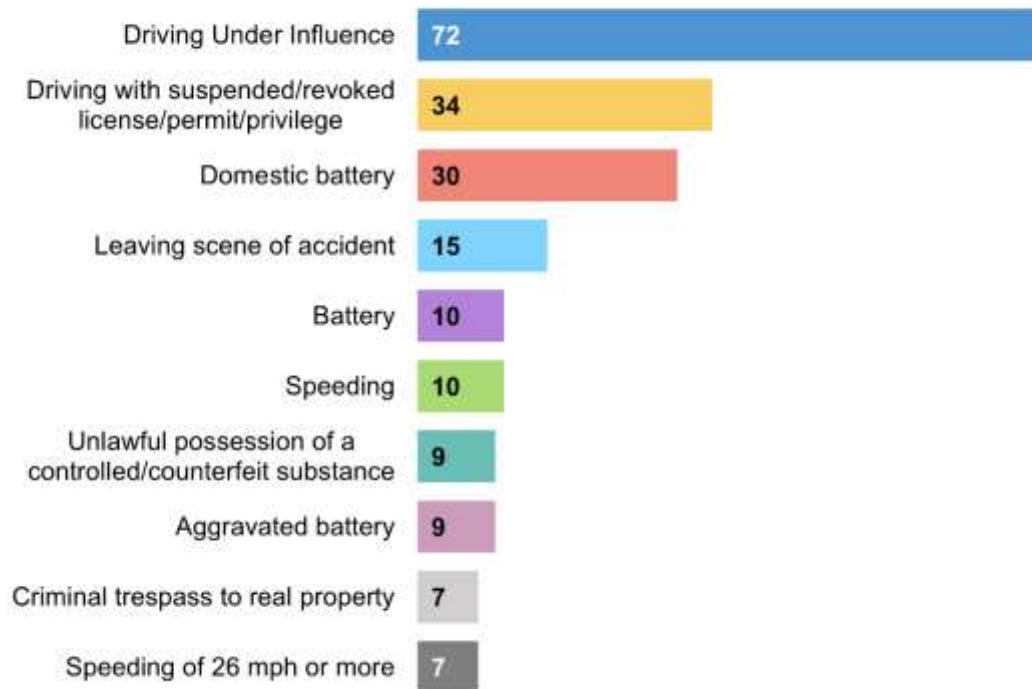

Review Process

DeKalb County Sheriff’s Office’s supervisors review relevant recordings any time they are completing a report, investigating alleged misconduct or reports of meritorious conduct, or whenever such recordings would be beneficial in reviewing the member’s performance.

Incidents

Between January 1, 2023, and December 31, 2023, DeKalb County Sheriff’s Office reports two hundred ninety-five (295) incidents leading to two hundred ninety-eight (298) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – DeKalb Police Department

DeKalb Police Department consists of sixty-eight (68) officers who utilize sixty-three (63) body worn cameras.

Technical Issues

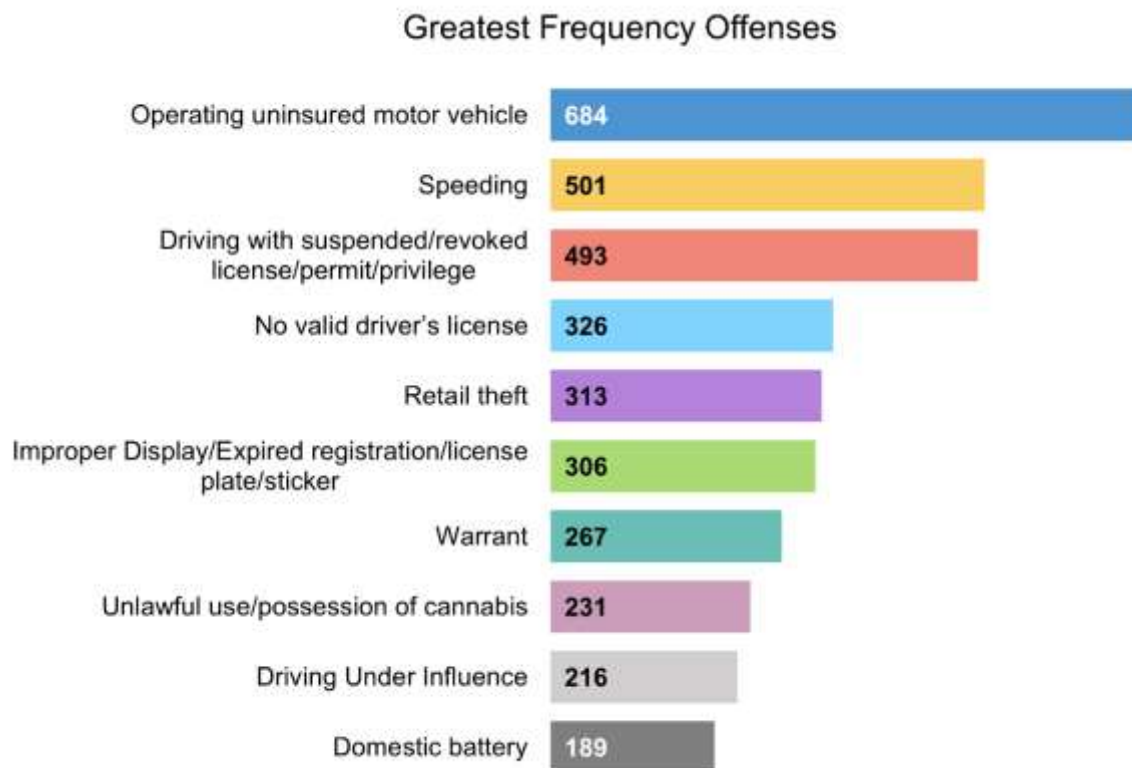

DeKalb Police Department reports zero (0) technical issues.

Review Process

DeKalb Police Department supervisors are required to review a sample of every officer assigned to them each quarter. They are to review three (3) videos per officer within a time frame to confirm their adherence to policy and statute.

Incidents

Between January 1, 2023, and December 31, 2023, DeKalb Police Department reports four thousand five hundred fifty-nine (4,559) incidents leading to five thousand seven hundred eighteen (5,718) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Des Plaines Police Department

Des Plaines Police Department consists of ninety-nine (99) full-time sworn officers, and seven (7) civilian community service officers who utilize one hundred twenty-two (122) Safe-Fleet body worn cameras.

Technical Issues

Des Plaines Police Department reported a few issues with their body worn cameras. One (1) camera needed to be sent in for repair due to the systems needing to be re-flashed with software, and a few cameras were not recording which was fixed by a simple hard restart.

Review Process

Des Plaines Police Department supervisors have access and the responsibility to review the body worn camera videos. Labeling, redacting, and duplicating of any recordings is done by the support services manager, operations deputy chief, support services deputy chief, and chief of police. Recorded files are viewed: upon approval by a supervisor as part of an official investigation, pursuant to a lawful process, by media personnel, in compliance with public records request, by the recording officer's field training officer for training purposes, and/or by any detective or investigator involved in the investigation of a matter.

Incidents

Des Plaines Police Department's report does not include incidents data.

Department Overview – Downers Grove Police Department

Downers Grove Police Department consists of seventy-one (71) sworn officers, and possess seventy-seven (77) body worn cameras, of which sixty-three (63) are assigned to officers.

Technical Issues

Downers Grove Police Department reports that there were four (4) reported technical issues with their body worn cameras. The primary issue that was reported was cameras were not pairing with vehicle computers and turning off on their own. The other issue reported was a reset error.

Review Process

Downers Grove Police Department's report includes a body worn camera review process as follows:

- Department members utilize the officer-worn body camera consistent with police department directives.
- Recordings are assigned in Evidence.com to the member who created the recordings.
- A civilian staff member is assigned to monitor and review all the digital files within Evidence.com to ensure they are properly identified and categorized. When a digital file is not in compliance, the officer and their supervisor are made aware of the situation so that it can be remedied.
- An investigation is initiated when a staff member determines that an officer-worn body camera is missing, lost, or damaged.
- The distribution, charging, and uploading of the officer-worn body cameras and their digital files are consistent with police department directives.
- Officers who reviewed an officer-worn body camera recording prior to writing a report document this information in the narrative portion of the police report.
- Quarterly, supervisors review both officer-worn body camera and in-car camera recordings, if applicable. Supervisors review four (4) incidents per officer per quarter. If an officer is assigned a squad car equipped with an in-car camera, the reviews shall include two (2) officer-worn body camera recordings and two (2) in-car camera recordings. If an officer is not assigned a squad car equipped with an in-car camera, the review shall be of four (4) officer-worn body camera recordings. The reviews are performed to ensure officers utilize the body worn cameras in compliance with police department policy and procedures. This review process is documented on a standardized form and saved for future reference.

Incidents

Downers Grove Police Department's report does not include incidents data.

Department Overview – DuPage County Sheriff’s Office

DuPage County Sheriff’s Office consists of one hundred five (105) sworn law enforcement personnel who utilize an Axon body worn camera each.

Technical Issues

DuPage County Sheriff’s Office reports issues with equipment breaking from normal use, and View XL application failing or requiring IT support. The cameras were sent back to Axon for replacement.

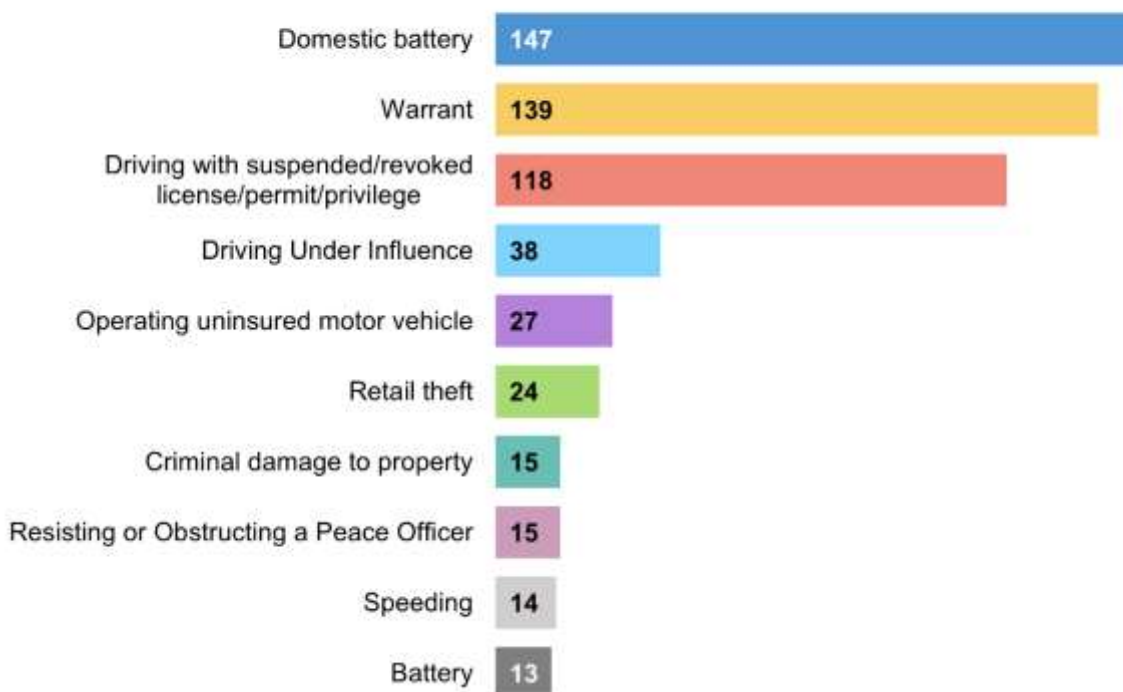

Review Process

DuPage County Sheriff’s Office body worn camera program is managed by sergeant and civilian personnel. Both individuals organize and manage the Evidence.com data, the labeling of videos, citizen shared evidence, sharing videos with the state attorney’s office, and conducting FOIA and subpoena requests. Axon Performance randomly selects a video and then plays it for the supervisor. After the review, the supervisor can add comments or click several pre-determined responses such as no issues/concerns observed, late activation, poor video/poor sound, or unsatisfactory behavior. The deputy then gets an email response with the results of the review. Each team supervisor is required at minimum to review four (4) videos from their team per month.

Incidents

Between January 1, 2023, and December 31, 2023, DuPage County Sheriff’s Office reports six hundred ninety (690) incidents leading to seven hundred eighteen (718) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – East Moline Police Department

East Moline Police Department utilizes thirty-eight (38) Axon body worn cameras that are issued to officers at the department.

Technical Issues

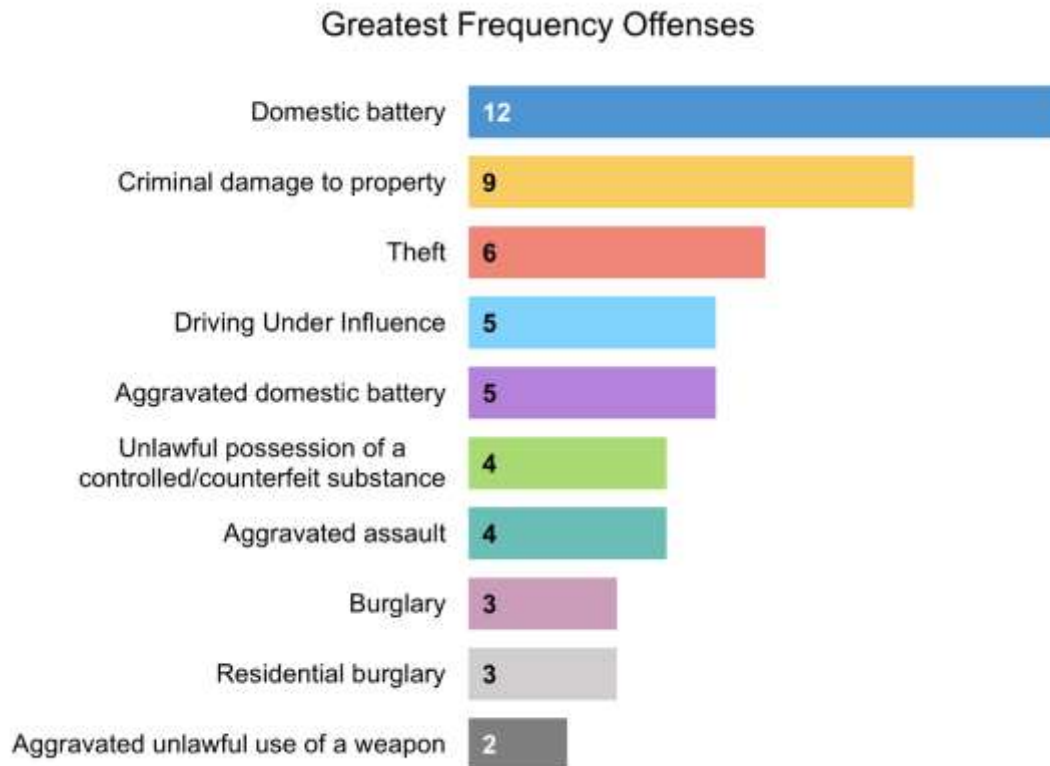

East Moline Police Department reports zero (0) technical issues.

Review Process

East Moline Police Department supervisors review a minimum of one (1) video per officer per month.

Incidents

Between January 1, 2023, and December 31, 2023, East Moline Police Department reports sixty-eight (68) incidents leading to seventy-one (71) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Effingham Police Department

Effingham Police Department consists of twenty-seven (27) sworn officers who utilize thirty (30) Getac body worn cameras.

Technical Issues

Effingham Police Department reports zero (0) technical issues.

Review Process

Effingham Police Department's supervisors have access to review officer video footage at their discretion. Periodic reviews are conducted to ensure professional public interaction and compliance with Effingham Police Department Policy and Procedure. This review process is also used for professional employee evaluations. Civilian staff have access to forward evidence to the states attorney's office and to complete necessary FOIA requests.

Incidents

Effingham Police Department's report does not include incidents data.

Department Overview – Elgin Police Department

Elgin Police Department consists of one hundred eighty-nine (189) officers and supervisors who utilize one hundred eighty-nine (189) Axon Body 3 body worn cameras. Additionally, twenty-eight (28) SWAT team members utilize twenty-eight (28) Axon Flex 2 body worn cameras.

Technical Issues

Elgin Police Department reported minor battery life issue which was resolved.

Review Process

Elgin Police Department's Lieutenants conduct a review of a minimum of thirty to thirty-five percent of officers assigned in their work group, once every thirty (30) days. Selected officers are notified. The reviewing supervisor documents the monthly review and forwards the report to their appropriate commander.

Incidents

Elgin Police Department's report does not include incidents data.

Department Overview – Elk Grove Village Police Department

Elk Grove Village Police Department consists of one (1) civilian director of police, eighty-four (84) sworn police officers and five (5) civilian public service officers. Sworn police officer and civilian public service officers utilize eighty-four (84) Axon Body 3 body worn cameras.

Technical Issues

Elk Grove Village Police Department reported zero (0) technical issues.

Review Process

Elk Grove Village Police Department reports that not less than once every thirty (30) days, commanders shall ensure that an appropriate sampling of the body worn camera recordings pertaining to the work groups under their command are reviewed. Additionally, supervisors also review recordings for all officer involved shootings, and officer involved incidents that result in death and/or great bodily harm.

Body worn camera recordings may also be reviewed to determine possible employee discipline when:

- A formal or informal complaint of misconduct has been made.
- The encounter on the recording could result in a formal investigation under the Uniform Peace Officer's Act.
- A use of force incident has occurred.
- Corroboration or other evidence of misconduct.

Incidents

Elk Grove Village Police Department's report does not include incidents data.

Department Overview – Eureka Police Department

Eureka Police Department’s report does not provide department or body worn camera information.

Technical Issues

Eureka Police Department reports zero (0) technical issues.

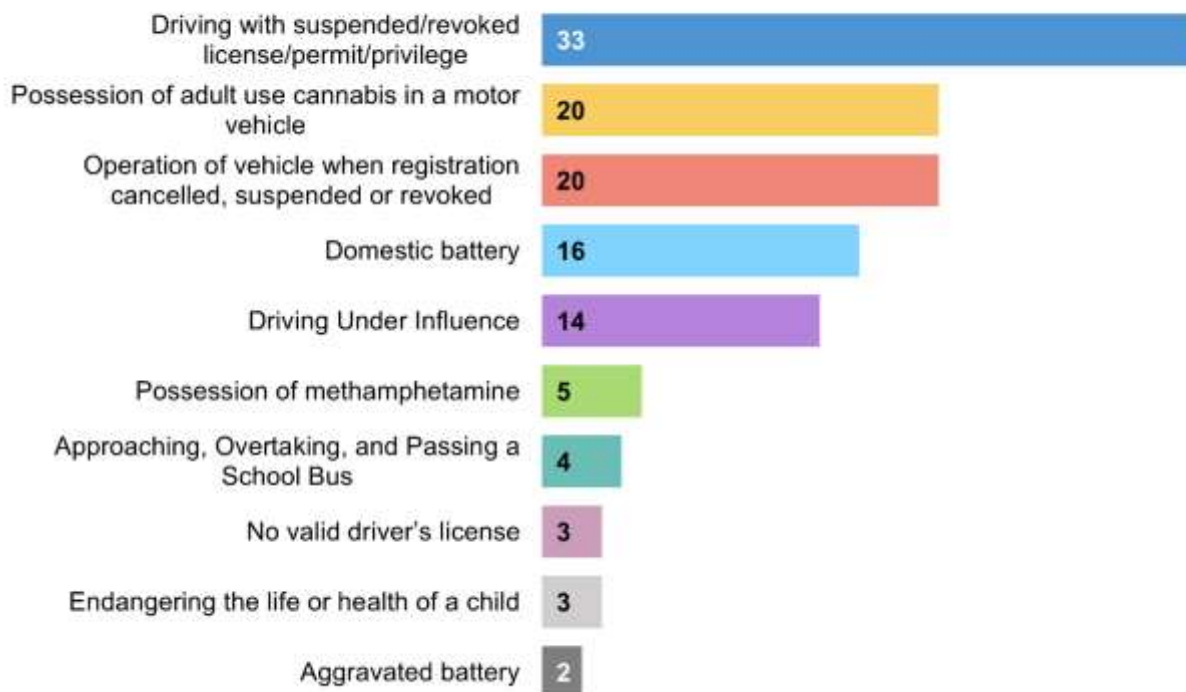

Review Process

Eureka Police Department’s report does not include a formal review process.

Incidents

Between January 1, 2023, and December 31, 2023, Eureka Police Department reports one hundred fifty-six (156) incidents leading to one hundred fifty-six (156) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Evergreen Park Police Department

Evergreen Park Police Department consists of sixty (60) full-time sworn police officers, five (5) part-time sworn police officers, three (3) code enforcement officers, and one (1) community service officer. Each officer is assigned a body worn camera except two (2) full-time sworn police officers. The department utilized a total of sixty-seven (67) body worn cameras.

Technical Issues

Evergreen Park Police Department reported sixteen (16) technical issues due to equipment malfunctions. The issue was resolved with equipment replacement within warrantee. A few issues didn't require replacement.

Review Process

Evergreen Park Police Department reports that police supervisors perform body camera recording reviews once every sixty (60) days and share the results of their observations with the officers. Additionally, a sixty (60) day review confirmation report form for each reporting officer is completed and submitted to the Administrative Service Officer. A summary of this ongoing report system is supplied to all supervisors in an ongoing basis. The sixty (60) day review confirmation forms are compiled and maintained by the Administrative Service Officer.

Incidents

Evergreen Park Police Department's report does not include incidents data.

Department Overview – Farmer City Police Department

Farmer City Police Department's officers utilize a total of six (6) body worn cameras.

Technical Issues

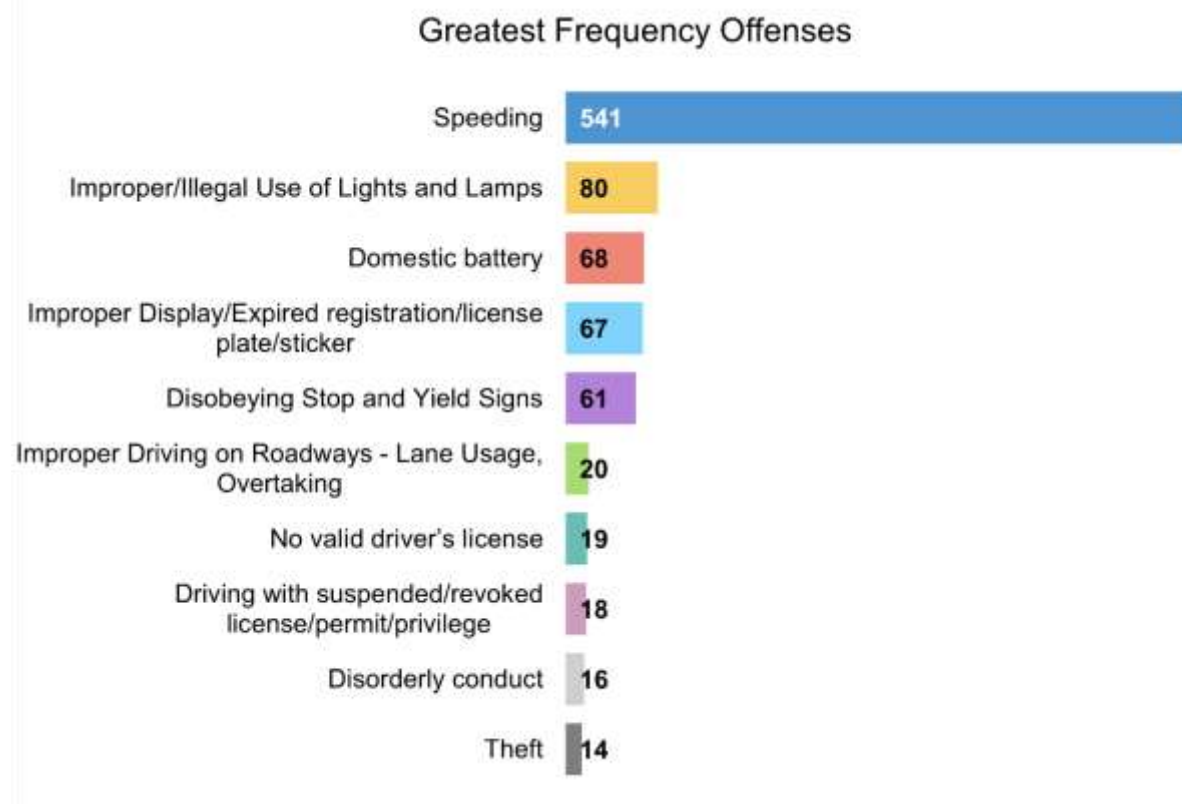

Farmer City Police Department reports zero (0) technical issues.

Review Process

Farmer City Police Department's chief of police or his designee downloads the video from the vehicle cameras to a secure evidence library when needed or when the camera hard drive gets full. The videos are then reviewed monthly or when needed by the chief of police or his designee.

Incidents

Between January 1, 2023, and December 31, 2023, Farmer City Police Department reports nine hundred fifty-four (954) incidents leading to nine hundred ninety-eight (998) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Fayette County Sheriff’s Office

Fayette County Sheriff’s Office consists of twenty-five (25) officers who utilize eighteen (18) body worn cameras.

Technical Issues

Fayette County Sheriff’s Office reports zero (0) technical issues.

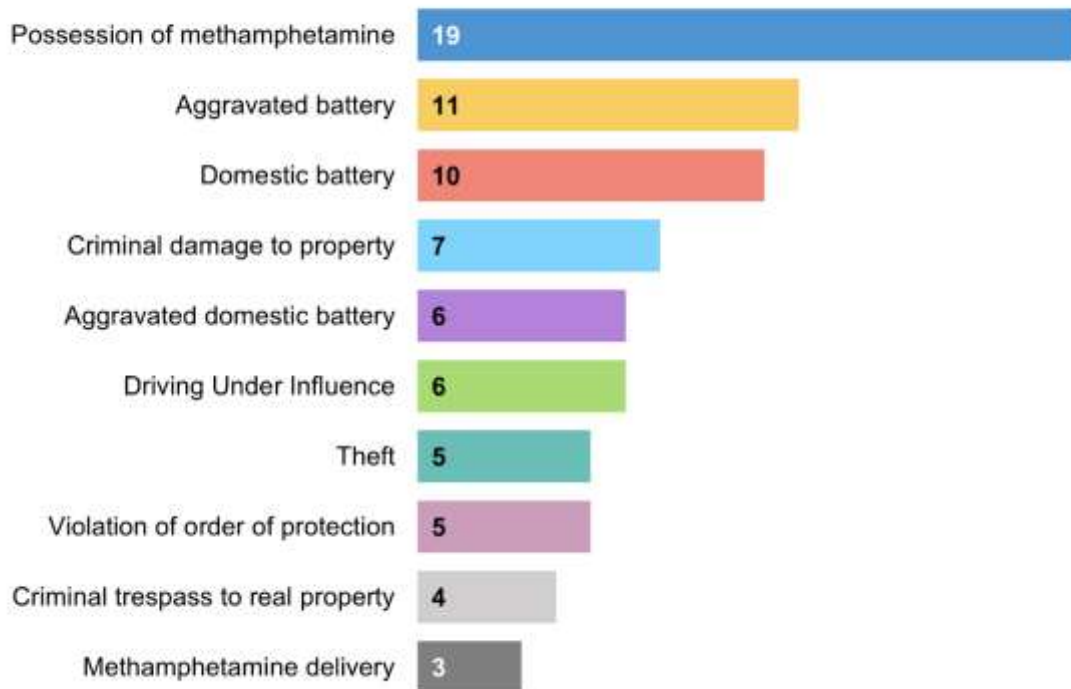

Review Process

Fayette County Sheriff’s Office’s first line supervisors review a taped event of each deputy at least once every sixty-day period.

Incidents

Between January 1, 2023, and December 31, 2023, Fayette County Sheriff’s Office reports one hundred two (102) incidents leading to one hundred four (104) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Findlay Police Department

Findlay Police Department consists of a Chief and four (4) part-time officers who utilize two (2) body worn cameras.

Technical Issues

Technical Issues

Henry County Sheriff's Office reports two (2) technical issues related to body worn camera not functioning and were replaced.

Review Process

Henry County Sheriff's Office's Platoon Sergeant reviews at least four (4) random videos of every officer issued a body worn camera per year. This is accomplished by a random assignment of videos by the sergeant's selection. Additionally, all use of force incidents that involve more than simple handcuffing or prisoner escort are also reviewed by a sergeant when applicable.

Incidents

Between April 1, 2023, and December 31, 2023, Henry County Sheriff's Office reports one thousand nine hundred sixty-seven (1,967) incidents leading to two thousand nine hundred fourteen (2,914) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Highland Police Department

Highland Police Department consists of twenty-two (22) officers who utilize twenty-two (22) WatchGuard V300 body worn cameras.

Technical Issues

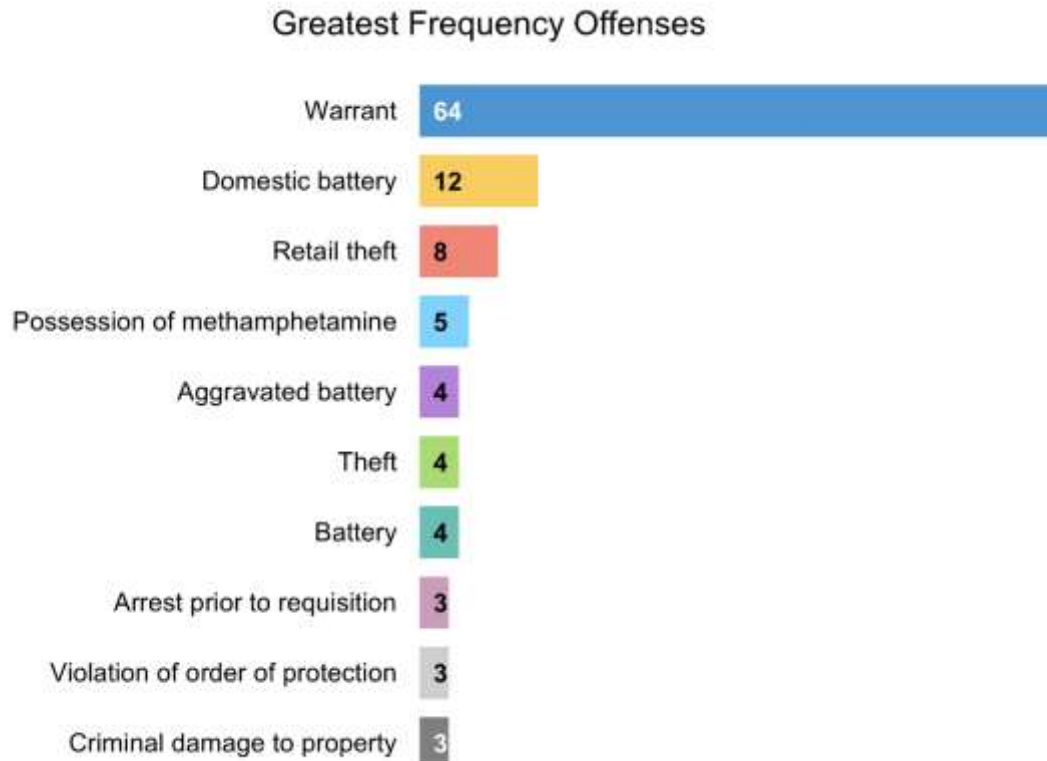

Highland Police Department reports few technical issues which includes battery failures, and hardware failures. Batteries were replaced and units suffering malfunctions were sent in and replaced by Motorola. Officers used spare body worn cameras while waiting for replacement cameras.

Review Process

Highland Police Department's each supervisor reviews five (5) random videos of each of their subordinates each month. Use of force incidents are also reviewed.

Incidents

Between January 1, 2023, and December 31, 2023, Highland Police Department reports one hundred nineteen (119) incidents leading to one hundred thirty-seven (137) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Highland Park Police Department

Highland Park Police Department consists of sixty (60) officers who utilize body worn cameras. The department has a total of sixty-seven (67) cameras, of which six (6) are spares.

Technical Issues

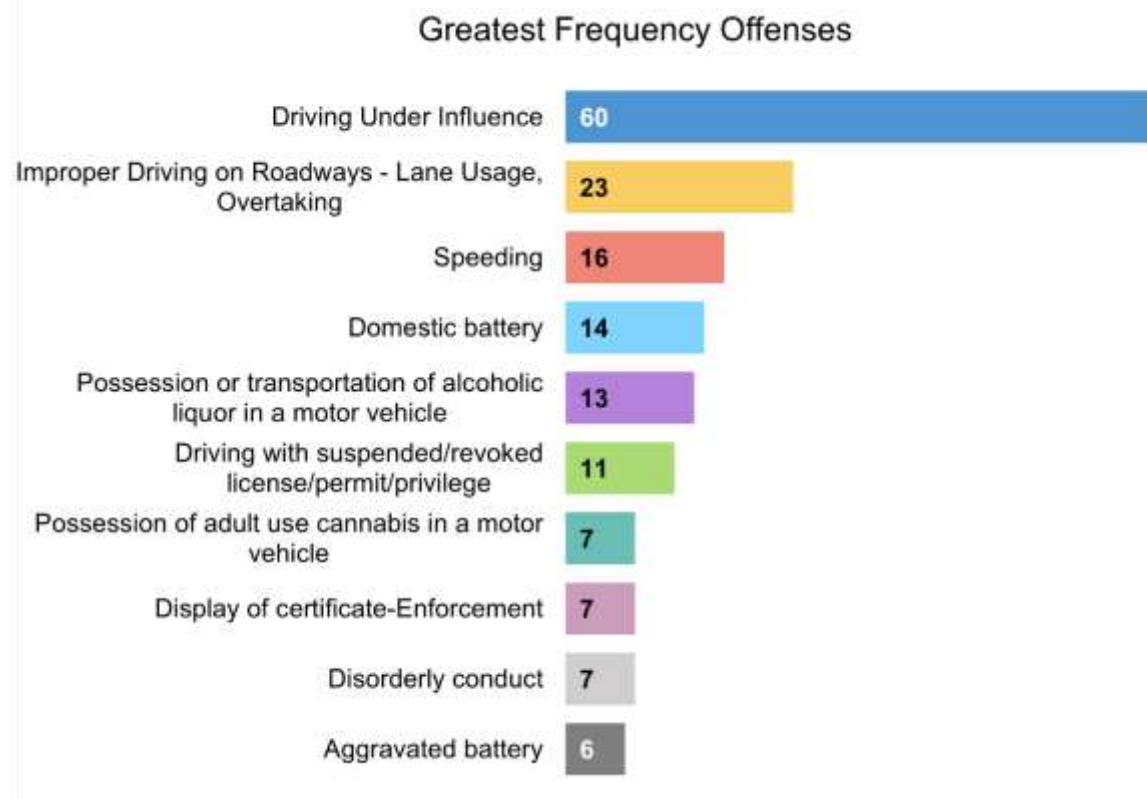

Highland Park Police Department reports battery charging and video downloading issue. Other issues include 'Error 1004'. The cameras with issues were returned and replaced.

Review Process

Highland Park Police Department supervisors can access, and review body worn camera video as needed, in response to resistance/aggression, citizen concern/complaint, and for training purposes. Additionally, body worn camera videos from each patrol officer are randomly chosen each quarter to be reviewed.

Incidents

Between January 1, 2023, and December 31, 2023, Highland Park Police Department reports ninety-four (94) incidents leading to two hundred forty-nine (249) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Hillside Police Department

Hillside Police Department utilizes twenty-five (25) body worn cameras that are used by all full-time sworn officers of the agency.

Technical Issues

Hillside Police Department reports having two (2) technical issues, neither of which were explicitly stated. Both issues were resolved by battery replacements.

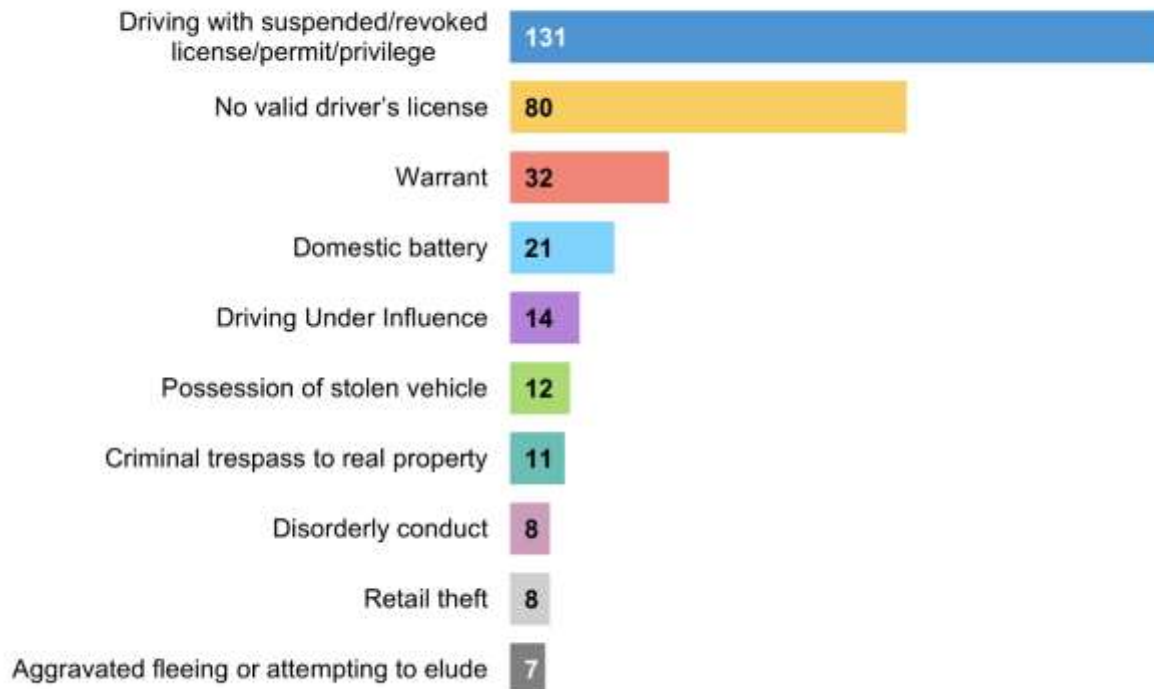

Review Process

Hillside Police Department's policy allows supervisors to review footage at their discretion. Complaints, uses of force, meritorious actions, and other unusual circumstances are also reviewed using camera recordings as part of the review process. An audit log of when videos are viewed and who accessed them is kept digitally within the storage software.

Incidents

Between January 1, 2023, and December 31, 2023, Hillside Police Department reports three hundred seventy-eight (378) incidents leading to three hundred eighty-two (382) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Hinsdale Police Department

Hinsdale Police Department consists of twenty-five (25) sworn officers who utilize twenty-five (25) WatchGuard body worn cameras and three (3) are kept as spare units.

Technical Issues

Hinsdale Police Department reports issues with battery failures which are remedied by the vendor. Often spare batteries are also purchased to expedite any issue.

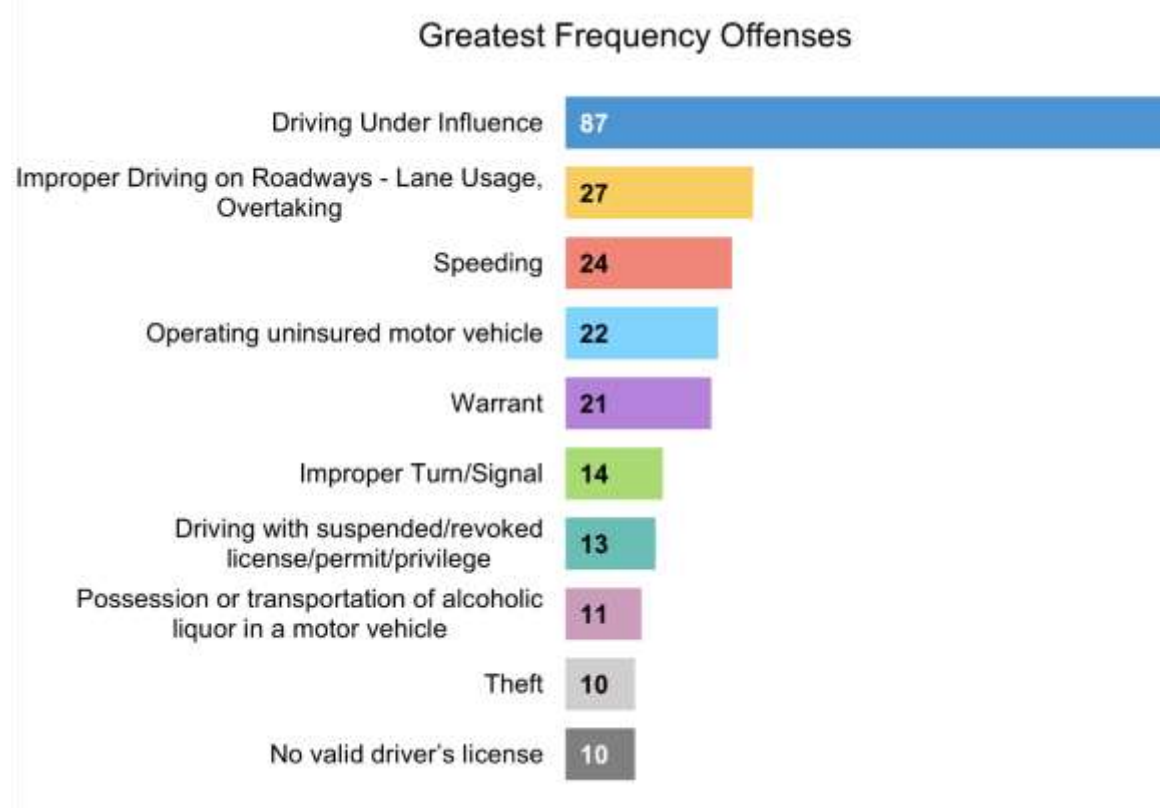

Review Process

Hinsdale Police Department's Shift Sergeants review traffic stops by officers on their shift and provide feedback on areas of officer safety, dialogue, driving, or other areas that require attention. Notable behavior or safety issues are addressed immediately or within the officer's evaluation.

Instances such as police pursuits, use of force, and crashes involving officers are always reviewed by the deputy chief and chief by policy.

Incidents

Between January 1, 2023, and December 31, 2023, Hinsdale Police Department reports one hundred sixty-seven (167) incidents leading to three hundred sixty-seven (367) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Hodgkins Police Department

Hodgkins Police Department consists of twenty-one (21) sworn officers who utilize twenty (20) Getac Bc-03 body worn cameras.

Technical Issues

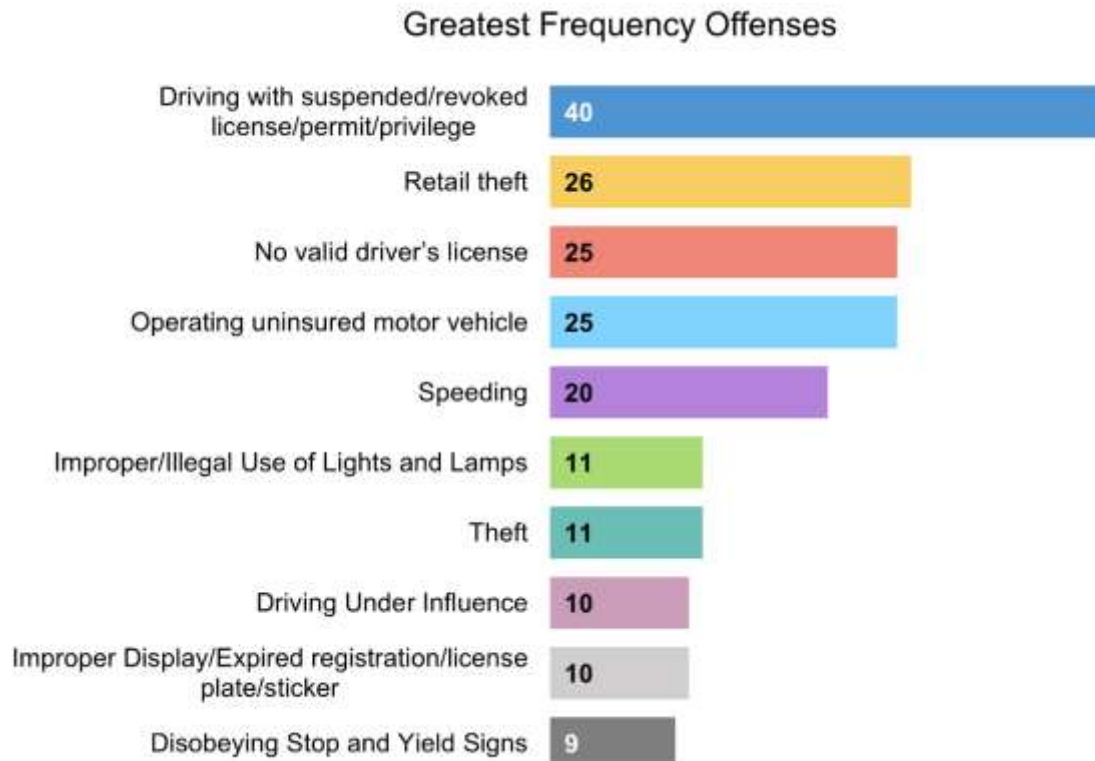

Hodgkins Police Department reports a few technical issues including syncing and video uploading, insufficient battery life. The syncing issue was resolved through reconfiguring the DVR.

Review Process

Hodgkins Police Department’s administrative staff periodically reviews a random sampling of body worn camera video recordings across the patrol division to ensure that officers are adhering to body worn camera policy. Additionally, the administrative staff also reviews recordings of major incidents and arrests. Patrol sergeants also randomly review two (2) body worn camera recordings during each shift they supervise.

Incidents

Between January 9, 2023, and December 31, 2023, Hodgkins Police Department reports one hundred thirty (130) incidents leading to two hundred fifty-one (251) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Hoffman Estates Police Department

Hoffman Estates Police Department consists of eighty-seven (87) sworn officers and five (5) civilian community service officers who utilize one hundred (100) Axon Body 3 body worn cameras.

Technical Issues

Hoffman Estates Police Department reports one (1) technical issue where camera kept restarting and hard reset did not resolve the issue. The camera was replaced by Axon.

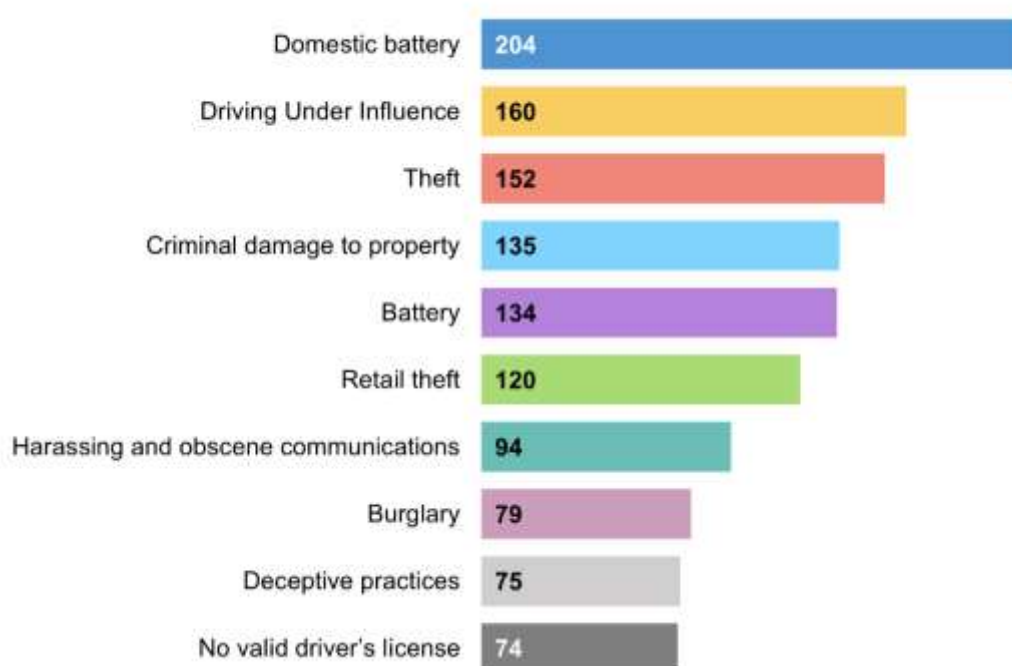

Review Process

Hoffman Estates Police Department utilizes built-in software in Axon's evidence.com, called Axon Performance, to review body worn camera footage of officers and supervisors, ensuring their proper use and performance. The software is set to automatically (monthly) select one random video for each officer in a platoon for review. The supervisor one rank above the rank of the officer creating the video is responsible for these reviews. Any deficiencies in how the camera is utilized, worn, and functions is documented and then an email is directed to the officer or supervisor for correction. Supervisors do not review recordings to search for violations or policy or law not related to a specific complaint or incident. Supervisors may, per policy, review body worn camera footage for the following: formal or informal complaint, or encounter could result in a complaint, use of force encounters, as corroboration of evidence of misconduct, or viewed to correct substandard performance or highlight commendatory performance.

Incidents

Between January 1, 2023, and December 31, 2023, Hoffman Estates Police Department reports two thousand sixty-three (2,063) incidents leading to two thousand one hundred twenty-one (2,121) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Indian Head Park Police Department

Indian Head Park Police Department consists of sixteen (16) officers who utilize ten (10) body worn cameras.

Technical Issues

Indian Head Park Police Department reports user errors, as well as wear and tear issues.

Review Process

Indian Head Park Police Department's shift supervisors and administrators have the right to review body worn camera videos any time they are investigating alleged misconduct, reports of meritorious conduct, or whenever such recordings would be beneficial in reviewing an officer's performance or training exercise. Shift supervisors conduct random monthly spot checks of officer's recordings.

Incidents

Between January 1, 2023, and December 31, 2023, Indian Head Park Police Department reports twenty (20) incidents leading to twenty (20) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Illinois Central College Police Department

The Illinois Central College Police Department is a combined agency of sworn law-enforcement officers and non-sworn civilian campus security officers. The department currently employs eighteen (18) full-time and part-time police officers, as well as fifteen (15) full-time and part-time security officers, who utilize twenty-eight (28) body worn cameras while on uniformed patrol.

Technical Issues

Illinois Central College Police Department reports zero (0) technical issues.

Review Process

Illinois Central College Police Department's supervisors view recordings as necessary to complete the flagging process and review for reports. They additionally complete periodic quality control reviews to see that cameras are recording properly, that orientation is correct, and that appropriate video and sound can be heard.

Incidents

Between January 1, 2023, and December 31, 2023, Illinois Central College Police Department reports three (3) incidents leading to three (3) offenses charged which were aggravated assault, theft, and battery.

Department Overview – Illinois State University Police Department

Illinois State University Police Department consists of thirty (30) sworn officers who utilize thirty (30) body worn cameras, with two (2) additional body worn cameras available in case of technical issues.

Technical Issues

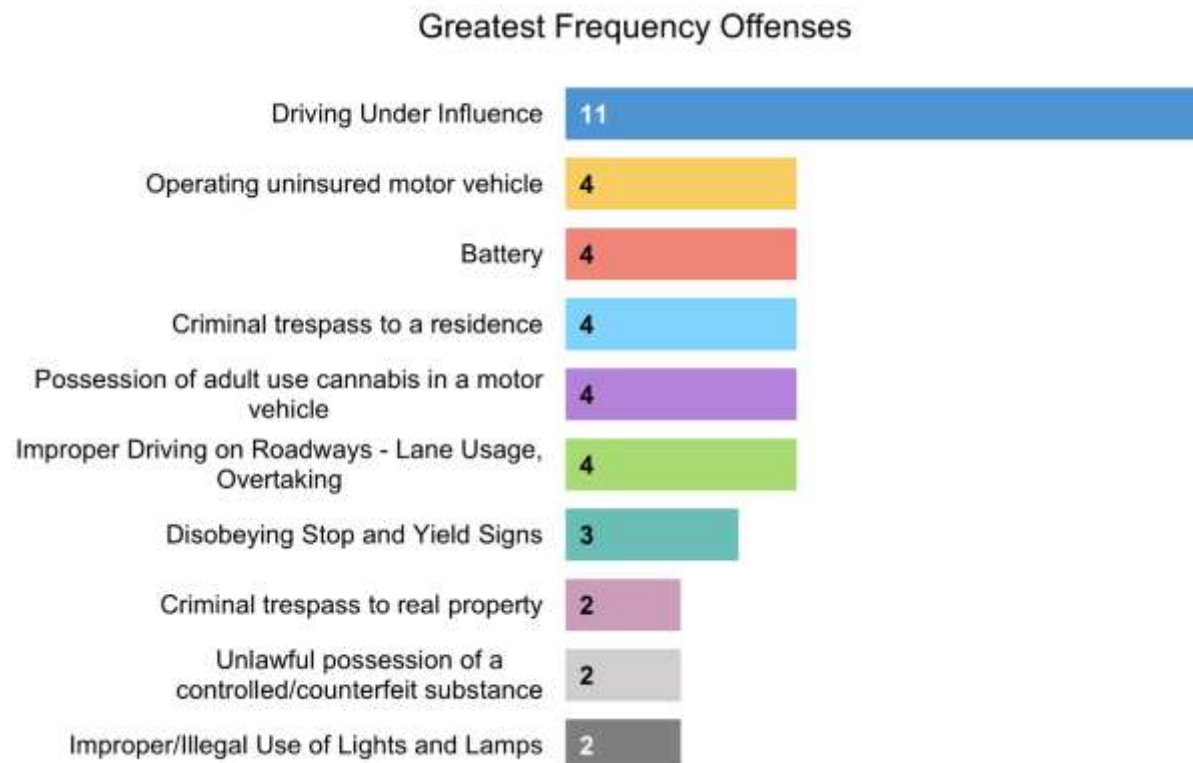

Illinois State University Police Department reports issues with officers failing to activate cameras, low battery life, hardware issue with a rubber piece surrounding the lens, and cameras not docking correctly, leading to a failure to charge and download videos.

Review Process

Illinois State University Police Department officers review their recordings and use them as a resource when preparing written reports. Supervisors are authorized to review relevant recordings any time they are investigating alleged misconduct or reports of meritorious conduct, or whenever such recordings would be beneficial in reviewing an officer's performance.

Incidents

Between January 1, 2023, and December 31, 2023, Illinois State University Police Department reports twenty-six (26) incidents leading to sixty-eight (68) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Jacksonville Police Department

Jacksonville Police Department’s report does not provide department or body worn camera information.

Technical Issues

Jacksonville Police Department reports zero (0) technical issues.

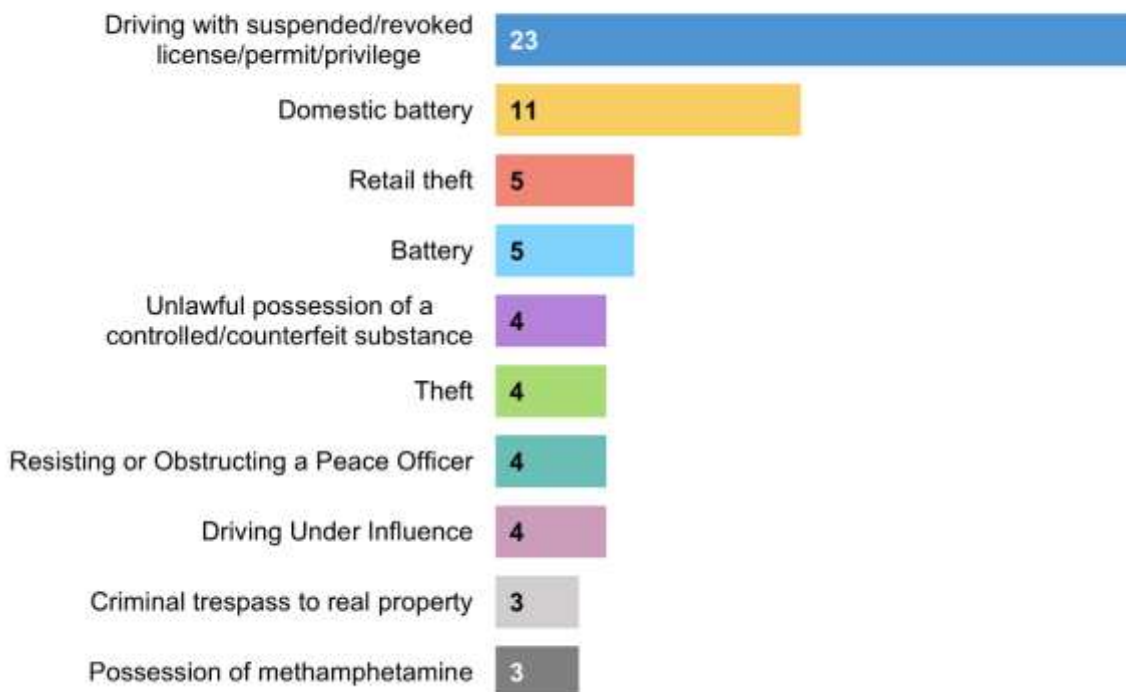

Review Process

Jacksonville Police Department’s report does not include a formal review process.

Incidents

Between May 1, 2023, and December 31, 2023, Jacksonville Police Department reports eighty-eight (88) incidents leading to eighty-eight (88) incidents offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Jo Daviess County Sheriff’s Office

Jo Daviess County Sheriff’s Office’s report does not provide department or body worn camera information.

Technical Issues

Jo Daviess County Sheriff’s Office’s reports zero (0) technical issues.

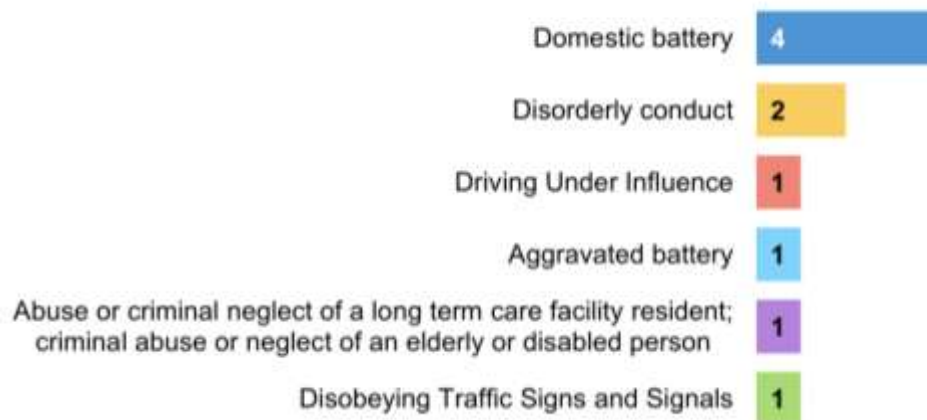

Review Process

Jo Daviess County Sheriff’s Office’s report does not include a formal review process.

Incidents

Between January 1, 2023, and December 31, 2023, Jo Daviess County Sheriff’s Office’s reports ten (10) incidents leading to ten (10) incidents offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Joliet Police Department

Joliet Police Department consists of two hundred sixty (260) sworn officers who utilizes four hundred eighty-eight (488) Axon body worn cameras.

Technical Issues

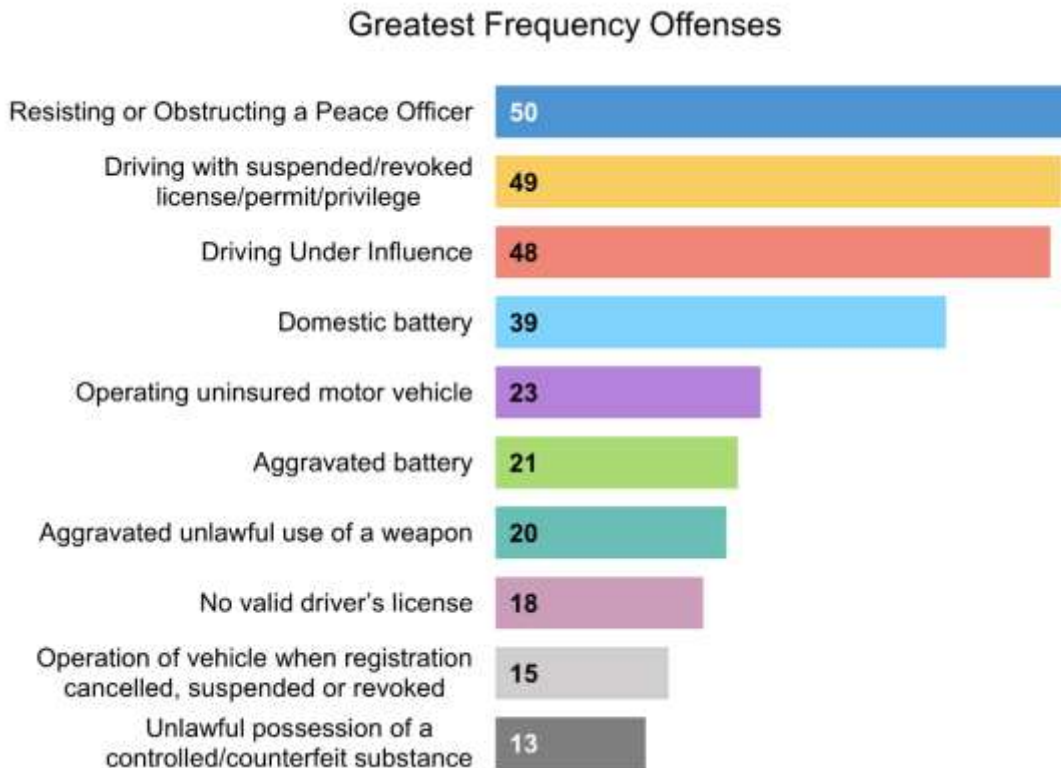

Joliet Police Department reports a few internal software issues with the cameras. Those were returned and replaced by Axon.

Review Process

Joliet Police Department utilizes built-in software in Axon's evidence.com, called AXON Performance. This program randomly selects body worn camera footage of officers and supervisors. The pre-designated parameters ensure that three (3) videos are generated for review every month. The supervisor one rank above the rank of the officer, is responsible for these reviews. Any deficiencies in how the camera is utilized, worn, and functions is documented and then an email is directed to the officer or supervisor for correction.

Incidents

Between January 1, 2023, and December 31, 2023, Joliet Police Department reports two hundred forty-nine (249) incidents leading to five hundred twenty-four (524) incidents offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Justice Police Department

Justice Police Department consists of eighteen (18) patrol officers who utilizes eighteen (18) body worn cameras.

Technical Issues

Justice Police Department reports zero (0) technical issues.

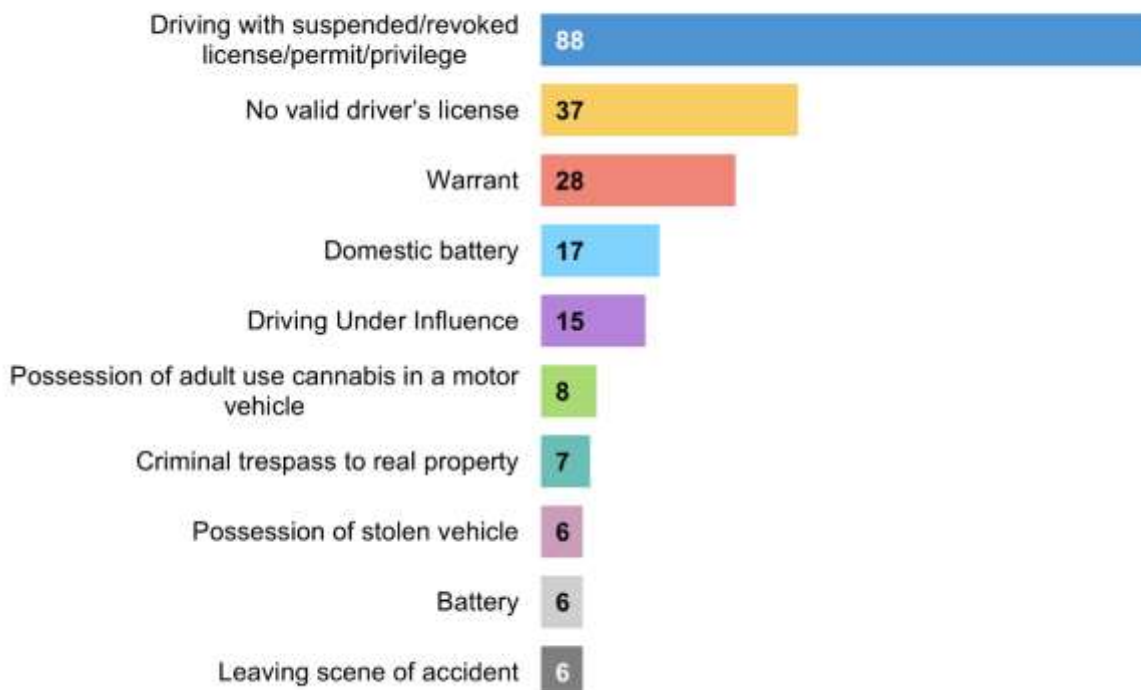

Review Process

Justice Police Department’s Supervisors are authorized to review relevant recordings any time they are investigating alleged misconduct or reports of meritorious conduct or whenever such recordings would be beneficial in reviewing a member’s performance. The supervisor of the recording member documents in the report or other documentation if the supervisor or the recording member reviewed body worn camera recordings prior to completing the report or other documentation.

Incidents

Between January 1, 2023, and December 31, 2023, Justice Police Department reports two hundred sixty-seven (267) incidents leading to two hundred seventy-five (275) incidents offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Kankakee City Police Department

Kankakee Police Department utilizes forty-three (43) body worn cameras, with thirty-two (32) distributed amongst the patrol division, six (6) in the investigation division, and five (5) assigned to individual officers of the Kankakee County Emergency Response Team.

Technical Issues

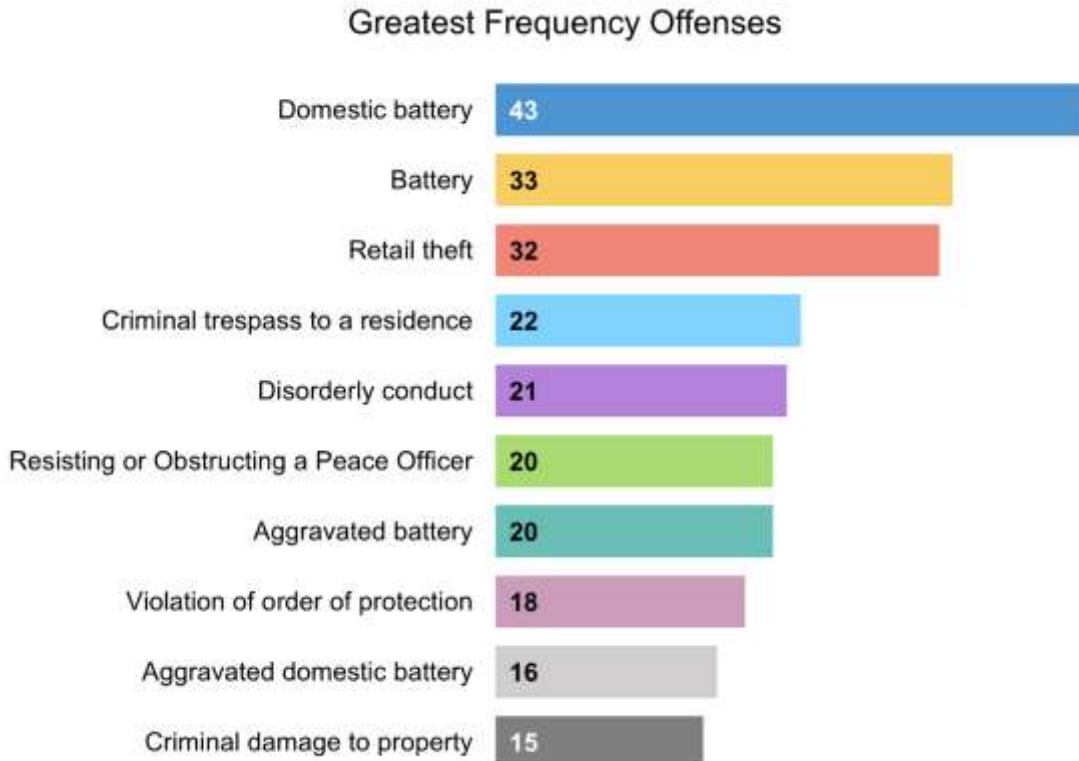

Kankakee Police Department reports minimal technical issues with footage downloading and cameras syncing to in-car computers. Issues were resolved by the IT team or GETAC support services.

Review Process

Kankakee City Police review process is overseen by lieutenant shift commander who reviews two videos per officer each month. After review, the supervisor documents: incident number, date of use, start time, squad number, officer name, that the officer used the GETAC video equipment properly per required procedures, that officer followed departmental rules, regulations, and procedures, that officer categorized video(s) properly, and that the body worn camera was activated during the call per policy.

Incidents

Between January 1, 2023, and December 31, 2023, Kankakee City Police Department reports two hundred sixty-five (265) incidents leading to three hundred sixty-three (363) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Kankakee County Sheriff’s Office

The Kankakee County Sheriff’s Office consists of fifty-three (53) sworn officers who utilize GETAC body worn cameras when in the field, including the sheriff, undersheriff, chief deputy, three (3) chiefs, two (2) lieutenants, five (5) sergeants, seven (7) corporals, and thirty-four (34) patrol officers.

Technical Issues

Kankakee County Sheriff’s Office reports minor technical issues, including battery life, officer error, syncing issues, and uploading challenges.

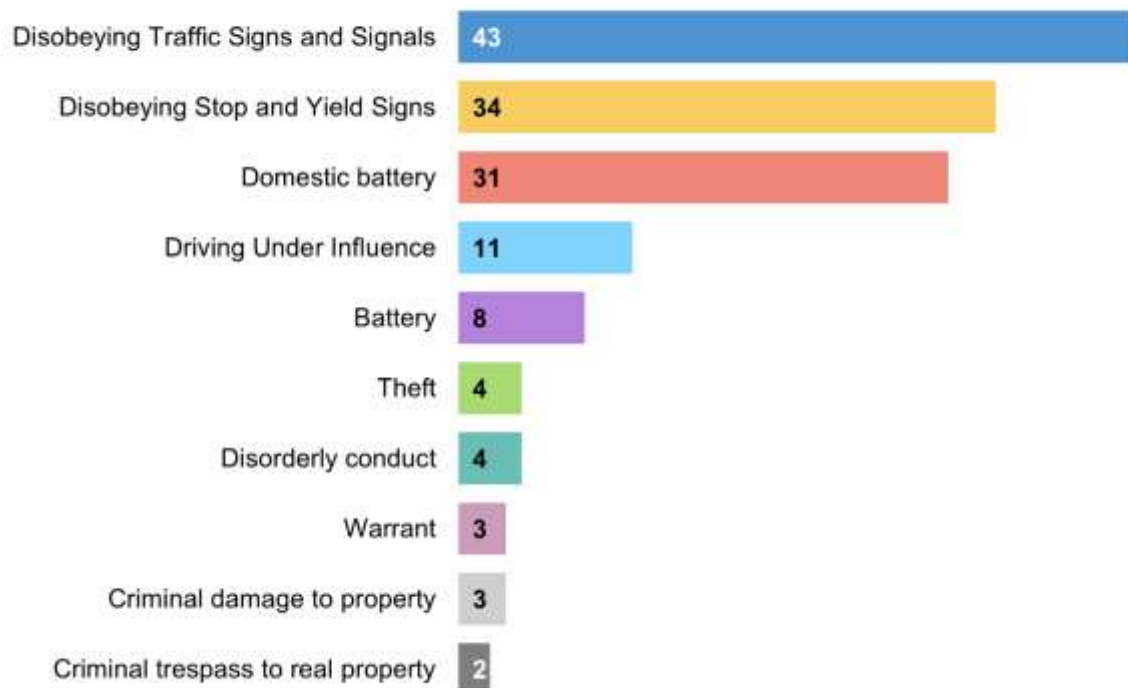

Review Process

Kankakee County Sheriff’s Office’s supervisors randomly review their officers’ body camera videos for policy compliance and training issues that should be addressed. Administrators have the right to review body camera videos any time they are investigating alleged misconduct or reports of meritorious conduct, or whenever such recordings would be beneficial in reviewing an officer’s performance or training exercise.

Incidents

Between January 1, 2023, and December 31, 2023, Kankakee County Sheriff’s Office reports one hundred fifty-two (152) incidents leading to one hundred fifty-two (152) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Kewanee Police Department

Kewanee Police Department's report does not provide department or body worn camera information.

Technical Issues

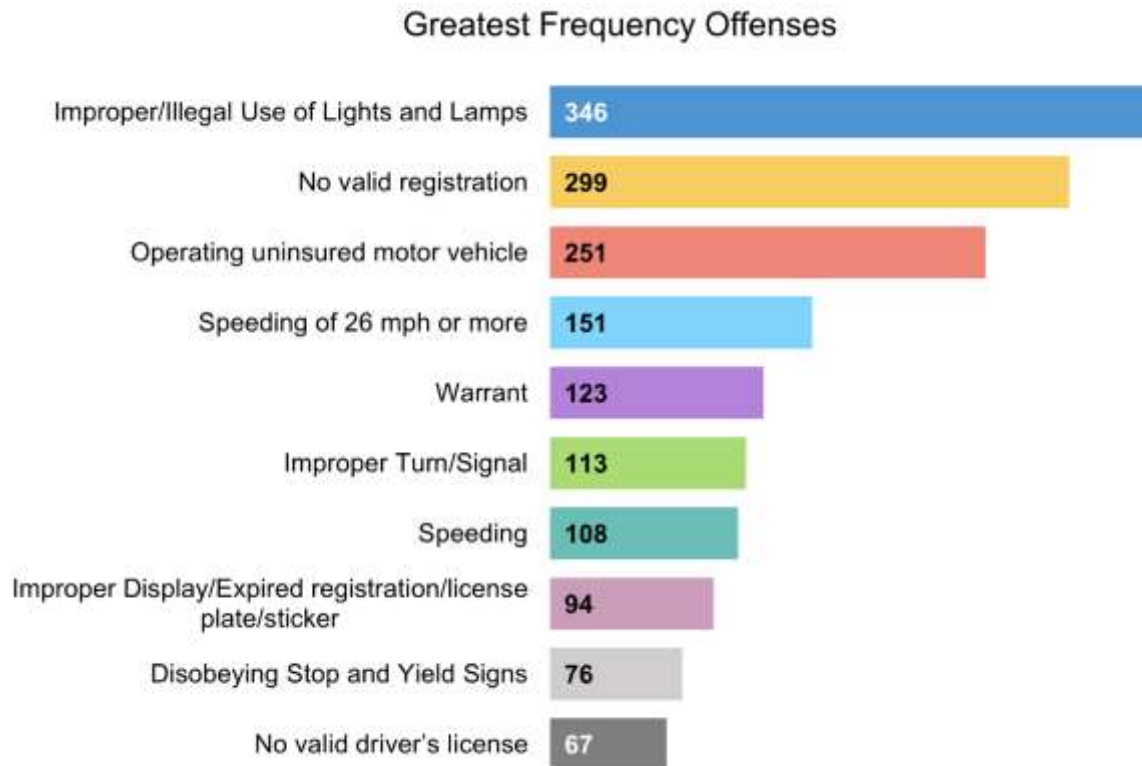

Kewanee Police Department reports zero (0) technical issues.

Review Process

Kewanee Police Department's report does not include a formal review process.

Incidents

Between April 11, 2023, and December 31, 2023, Kewanee Police Department reports one thousand eight hundred twenty-nine (1,829) incidents leading to two thousand six hundred forty-five (2,645) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – La Grange Park Police Department

La Grange Park Police Department consists of twenty-one (21) full-time sworn officers and one (1) part-time officer, of which twenty-two (22) Axon body worn cameras are assigned to officers, supervisors and command staff.

Technical Issues

La Grange Park Police Department reports two (2) technical issues which were resolved by replacement.

Review Process

La Grange Park Police Department utilizes built-in software in Axon's evidence.com called AXON Performance to review body worn camera footage of officers and supervisors, ensuring their proper use and performance. The software is set to automatically select four (4) random videos pertaining to subordinates under his/her responsibility for monthly review. Any deficiencies in how the camera is utilized, worn, and functions are documented.

Supervisors do not review recordings to search for violations of policy or law not related to a specific complaint or incident. Supervisors may, per policy, review recordings when the encounter on the recording could result in a formal investigating pursuant to the Uniform Peace Officer's Disciplinary Act. Recordings will be reviewed when a complaint of misconduct has been made or discovered, or when a use of force incident has occurred.

Incidents

La Grange Park Police Department's report does not include incidents data.

Department Overview – Lake Bluff Police Department

Lake Bluff Police Department consists of thirteen (13) sworn officers who utilize thirteen (13) body worn cameras. There were two (2) more unutilized cameras.

Technical Issues

Lake Bluff Police Department reports minor technical issues with activation. Most of the issues were resolved by camera provider (Axon) or with an IT contractor.

Review Process

Lake Bluff Police Department's sergeants conduct random reviews of body worn camera videos monthly. Footage is reviewed for oversight or any concerns. Additionally, a records clerk ensures all videos are properly labeled/tagged and accurate retention categories are added. The deputy chief also checks the recordings and visually inspects the devices weekly.

Incidents

Lake Bluff Police Department's report does not include incidents data.

Department Overview – Lake County Sheriff’s Office

The Lake County Sheriff’s Office utilizes one hundred seventy (170) sworn law enforcement deputies who utilize three hundred seventy (370) Axon Body 3 body worn cameras.

Technical Issues

Lake County Sheriff’s Office reports zero (0) technical issues.

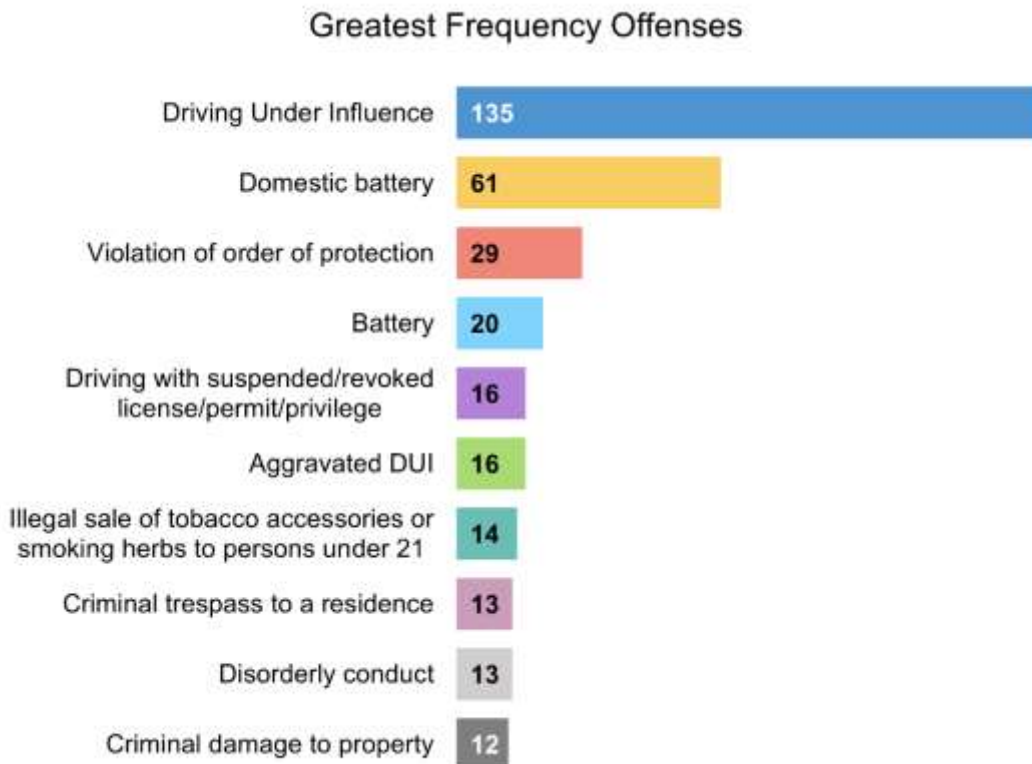

Review Process

Lake County Sheriff’s Office’s supervisory staff conduct biannual reviews of two (2) random videos per subordinate to ensure compliance with policy and state law, as well as to identify any technical issues. Any technical glitches are promptly reported to the training division, while policy violations are addressed through disciplinary and complaint procedures.

In the event of an external or internal complaint, supervisory personnel have access to review relevant body worn camera footage. Moreover, the Office of Professional Standards oversees all reviews and conducts periodic checks and audits.

Incidents

Between January 1, 2023, and December 31, 2023, Lake County Sheriff’s Office reports four hundred fifty-two (452) incidents leading to four hundred eighty-four (484) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Lake Forest Police Department

Lake Forest Police Department consists of thirty-nine (39) sworn officers who utilize forty (40) Axon Body 3 body worn cameras; one (1) is used as a spare.

Technical Issues

Lake Forest Police Department reports four (4) technical issues consisting of recording issue, charge issues which were solved by cameras being replaced.

Review Process

Lake Forest Police Department's supervisors access and review body worn camera footage for performance assessments, compliance checks, as well as random checks and to investigate misconduct complaints. During these inspections supervisors check to make sure officers are operating their body worn cameras in accordance with the Body Worn Camera Act. Additionally, supervisors review if officers are properly documenting body worn camera use in police reports.

Incidents

Lake Forest Police Department's report does not include incidents data.

Department Overview – Lake in the Hills Police Department

The Lake in the Hills Police Department consists of fifty-one (51) authorized personnel; forty-one (41) sworn officers, eight (8) civilian positions, and two (2) part-time positions. The department currently has forty-one (41) body worn cameras utilized by sworn officers.

Technical Issues

Lake in the Hills Police Department reports four (4) technical issues consisting of incorrect date display and system recovery error. All technical issues were addressed through the manufacturer's warranty for camera replacement.

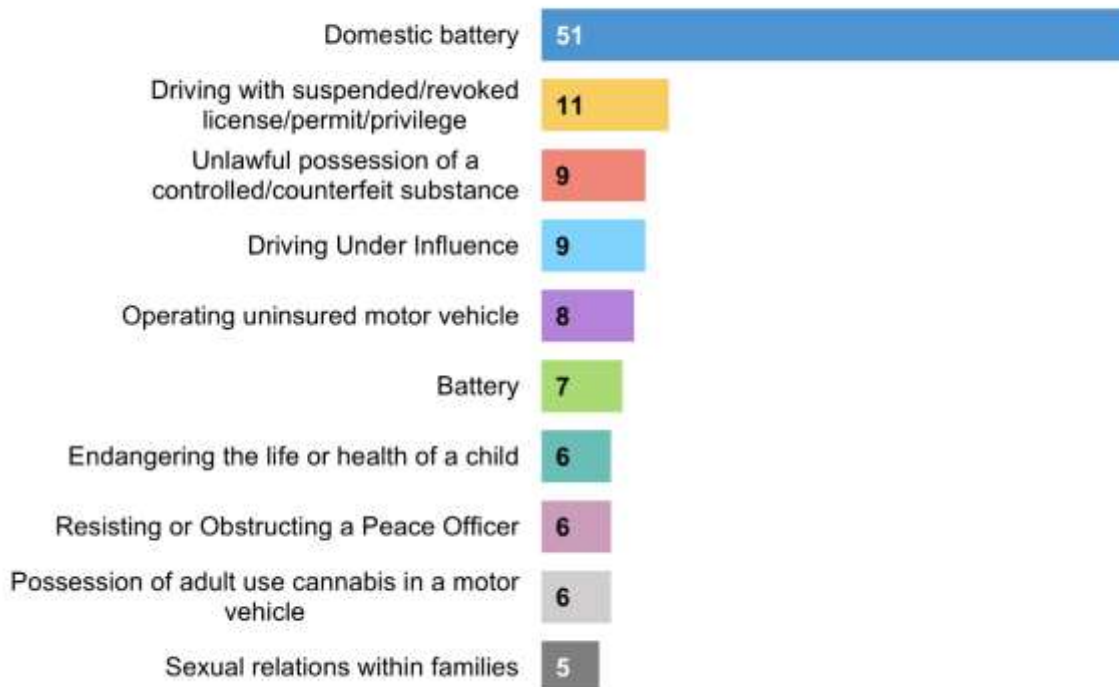

Review Process

The Lake in the Hills Police Department Sergeants or Shift commanders conduct a quarterly audit of three (3) random camera recordings for each direct report officer to ensure that the equipment is operating properly, and body worn cameras are being used appropriately in accordance with policy and training. The audit results are forwarded to the body worn camera administrator and an inquiry is conducted into any violation of policy determined because of the audit. Upon consultation with the program administrator, a determination will be made on whether a further audit needs to be conducted.

Incidents

Between January 1, 2023, and December 31, 2023, Lake in the Hills Police Department reports ninety-one (91) incidents leading to two hundred twenty-seven (227) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Between January 1, 2023, and December 31, 2023, Morris Police Department reports three hundred eight (308) incidents leading to five hundred forty-six (546) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Morton Police Department

The Morton Police Department consists of twenty-two (22) sworn officers who utilize twenty-two (22) Axon Body 3 body worn cameras.

Technical Issues

Morton Police Department reports zero (0) technical issues.

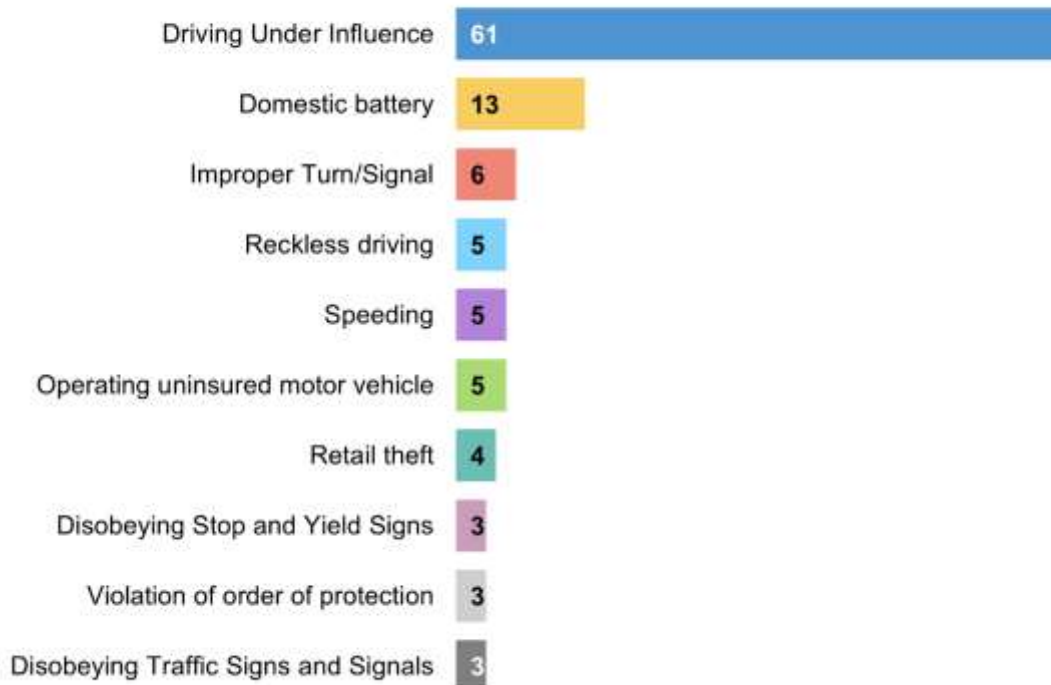

Review Process

Morton Police Department implemented Axon’s built-in software, Axon Performance, to review body worn camera footage of officers and supervisors, ensuring their proper use and performance. The supervisor, one rank above the rank of the officer, reviewing the video is responsible to review two (2) randomly selected videos of each officer under their direct supervision each month. Supervisors can then provide constructive feedback and report any deficiencies in how the camera is utilized, worn, and functions. After each review is completed, an email is directed to the officer informing them that a review has been done and can provide comments, feedback, and/or coaching suggestions.

Incidents

Between January 1, 2023, and December 31, 2023, Morton Police Department reports seventy-five (75) incidents leading to one hundred sixty-one (161) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Mount Prospect Police Department

Mount Prospect Police Department consists of eighty-five (85) sworn officers who utilize body worn cameras. Each sworn member of the department is issued their own WatchGuard V300 body worn camera, a battery, and a mounting plate to be worn.

Technical Issues

Mount Prospect Police Department reports issues with bulged batteries, USB base, cameras shutting off and going into system recovery mode, transfer station not connecting to network, hence not indicating charging status, broken battery case, video failure, etc. All faulty cameras and batteries were returned to WatchGuard and replaced with new cameras and batteries.

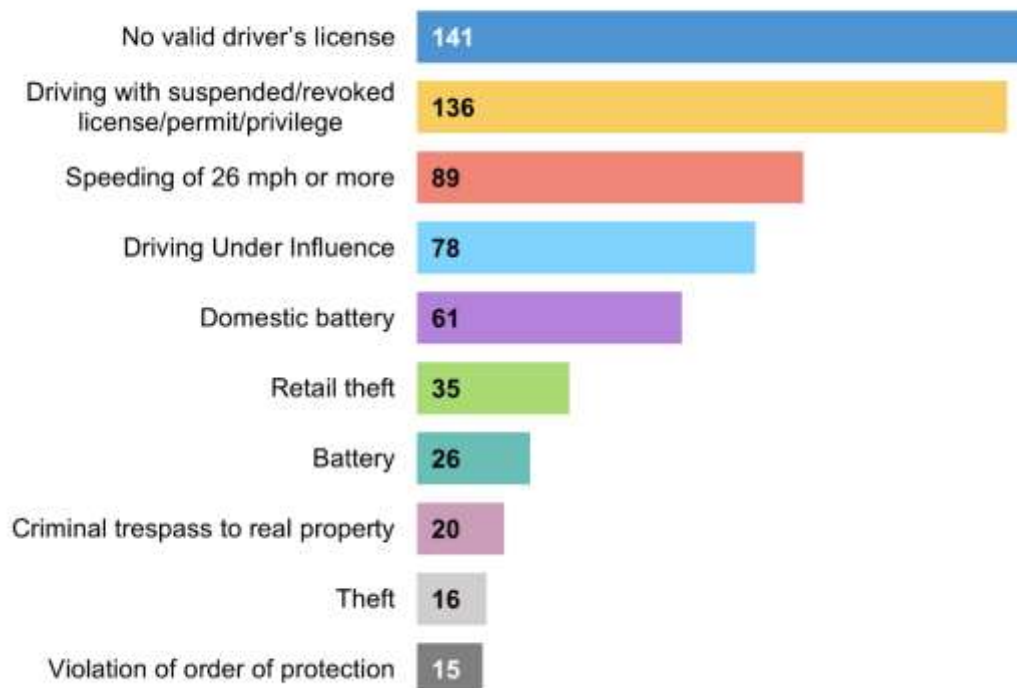

Review Process

Mount Prospect Police Department subscribes to the Frontline Public Safety Solutions BWC Audit software which supervisors utilize to document monthly required reviews of body worn cameras for their assigned personnel. Supervisory personnel are required at a minimum to review one (1) body worn camera video for each of their assigned personnel monthly and address any issues noted during the review with the officer in question.

Incidents

Between January 1, 2023, and December 31, 2023, Mount Prospect Police Department reports seven hundred ninety-nine (799) incidents leading to eight hundred eight (808) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Mt. Zion Police Department

The Mt. Zion Police Department consists of eleven (11) full-time sworn officers who utilize eleven (11) WatchGuard V300 body worn cameras.

Technical Issues

Mt. Zion Police Department reports two (2) technical issues with video recording and camera power up displaying an error code.

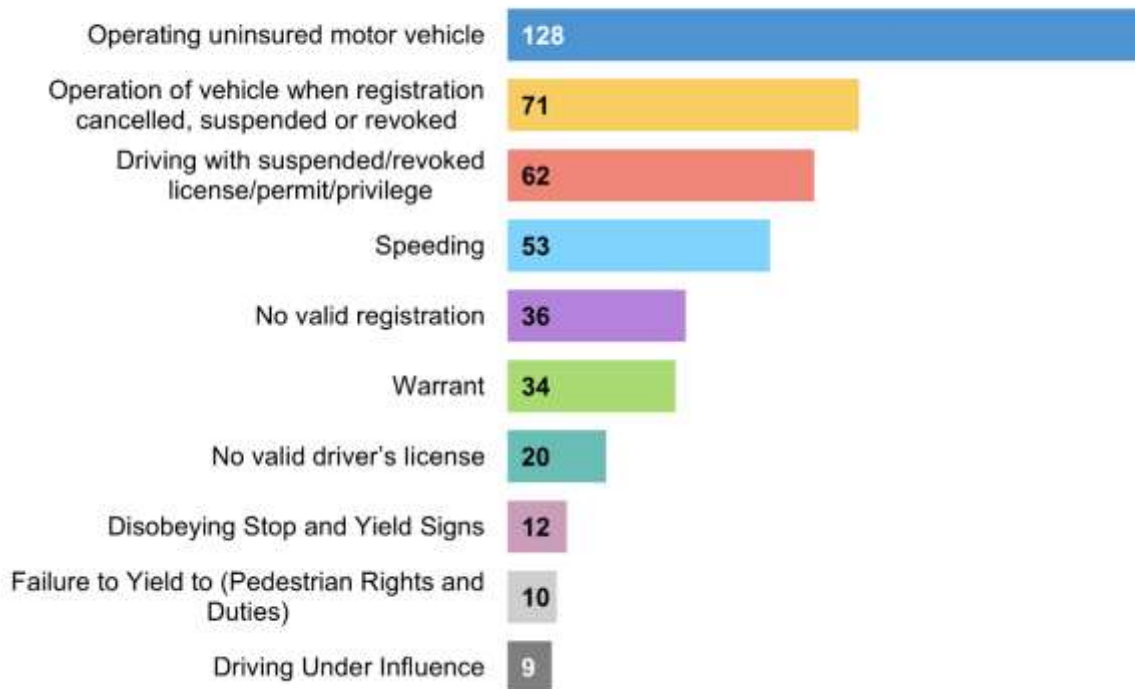

Review Process

Mt. Zion Police Department's report does not include a formal review process.

Incidents

Between January 1, 2023, and December 31, 2023, the Mt. Zion Police Department reports three hundred forty-seven (347) incidents leading to five hundred thirty-three (533) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Mundelein Police Department

Mundelein Police Department consists of fifty (50) sworn police officers and three (3) community service officers who utilize Axon body worn cameras.

Technical Issues

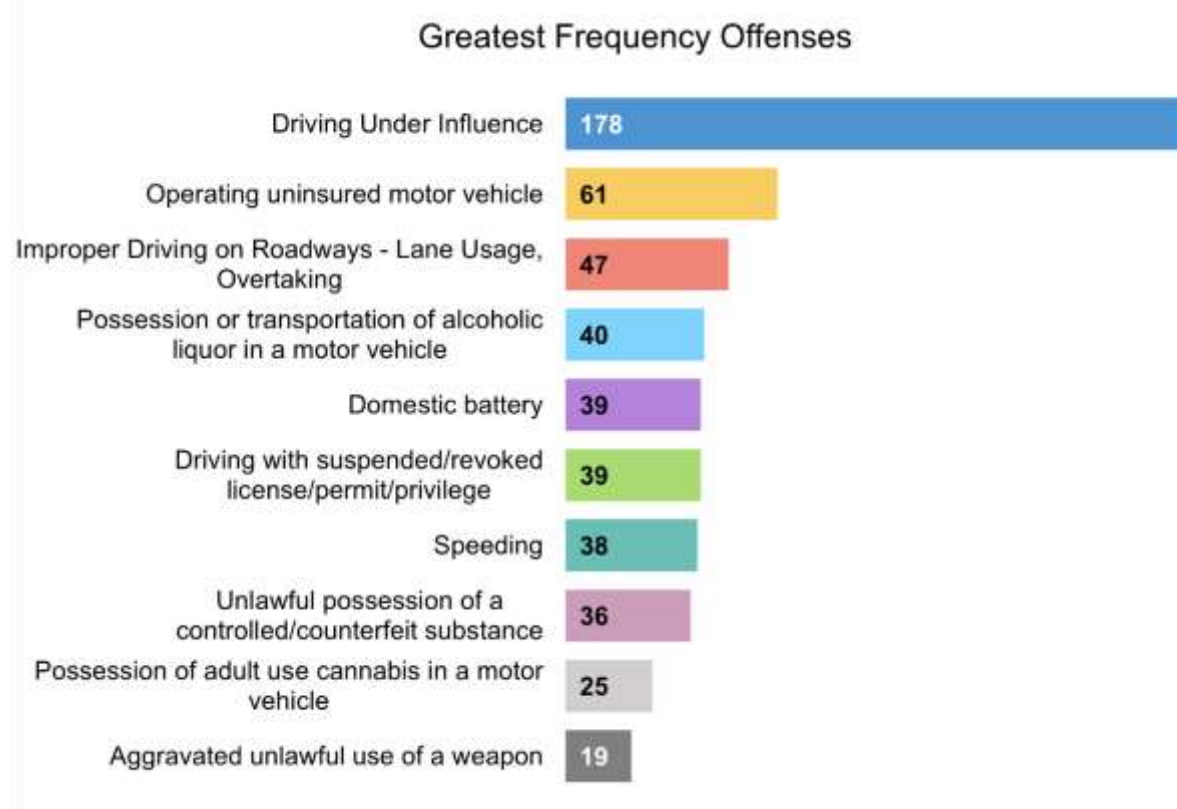

Mundelein Police Department reports minor technical issues regarding charging and camera activation. Replacements were made under warranty through the manufacturer.

Review Process

Mundelein Police Department’s supervisors ensure officers utilize body worn cameras in accordance with policy and training. In cases where footage has the propensity to generate community interest, the supervisors review footage in their investigative scope, conduct further investigation they deem appropriate, and forward the information via the chain of command. Supervisors randomly review and document at least one (1) body worn camera recording quarterly for each officer they supervise to ensure equipment operates. In use of force incidents, the employee’s direct supervisor reviews body worn camera recordings.

Incidents

Between January 1, 2023, and December 31, 2023, Mundelein Police Department reports two hundred thirty-five (235) leading to eight hundred forty-five (845) offenses charged. On the following page is a snapshot of the greatest frequency of offenses charged.

Department Overview – Naperville Police Department

Naperville Police Department consists of one hundred eighty-five (185) sworn officers who utilize body worn cameras. Fourteen (14) spare cameras are kept at the police department in a ready state when in-service cameras require maintenance or repair.

Technical Issues

Naperville Police Department reports three (3) technical issues including random reboot resolved by hard reset by IT, and battery life and power up issues which were resolved by returning the body worn camera to the manufacturer.

Review Process

Naperville Police Department's shift supervisors review two (2) randomly selected videos per officer. This is completed quarterly to ensure compliance with department policies and procedures.

Incidents

Naperville Police Department's report does not include incidents data.

Department Overview – Neoga Police Department

Neoga Police Department consists of three (3) full-time and five (5) part-time officers who utilize four (4) body worn cameras. Each full-time officer has own camera, and one is shared by the part-time officers.

Technical Issues

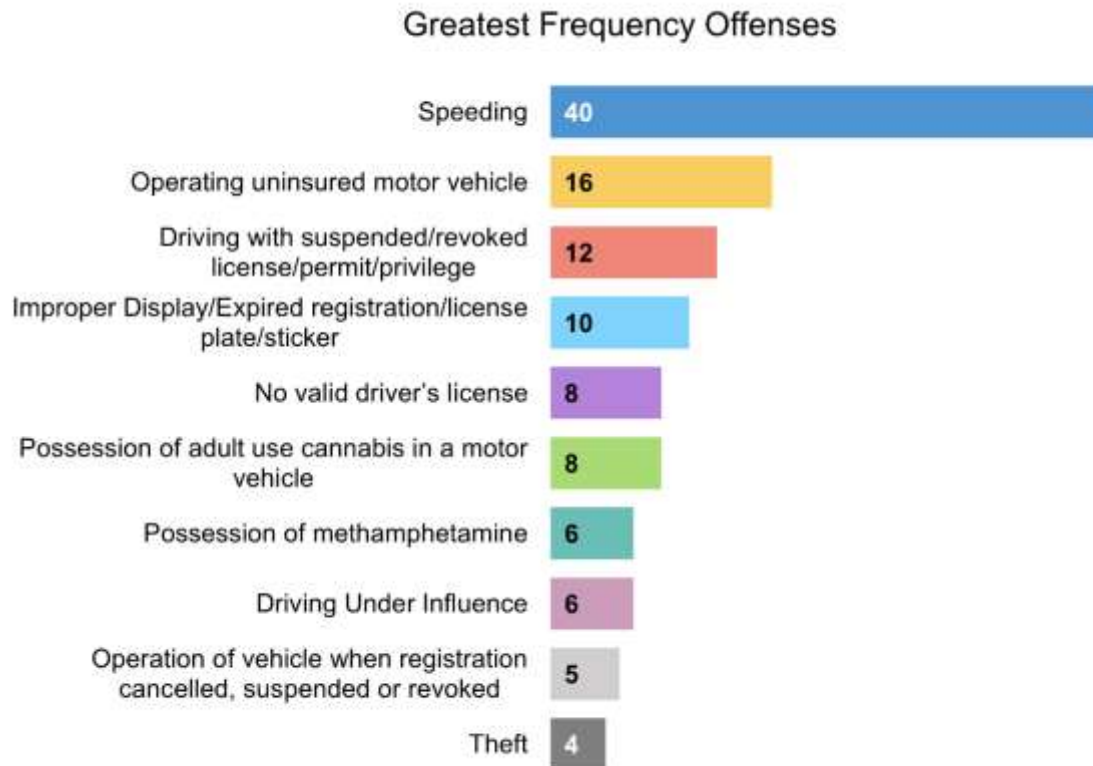

Neoga Police Department reports zero (0) technical issues.

Review Process

Neoga Police Department's Chief reviews flagged body worn camera recordings.

Incidents

Between January 1, 2023, and December 31, 2023, Neoga Police Department reports one hundred forty-four (144) incidents leading to one hundred forty-five (145) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – New Lenox Police Department

New Lenox Police Department consists of thirty-nine (39) officers who utilize thirty-nine (39) body worn cameras.

Technical Issues

New Lenox Police Department reports user error, camera use wear, and a battery life issue that was rectified by Axon.

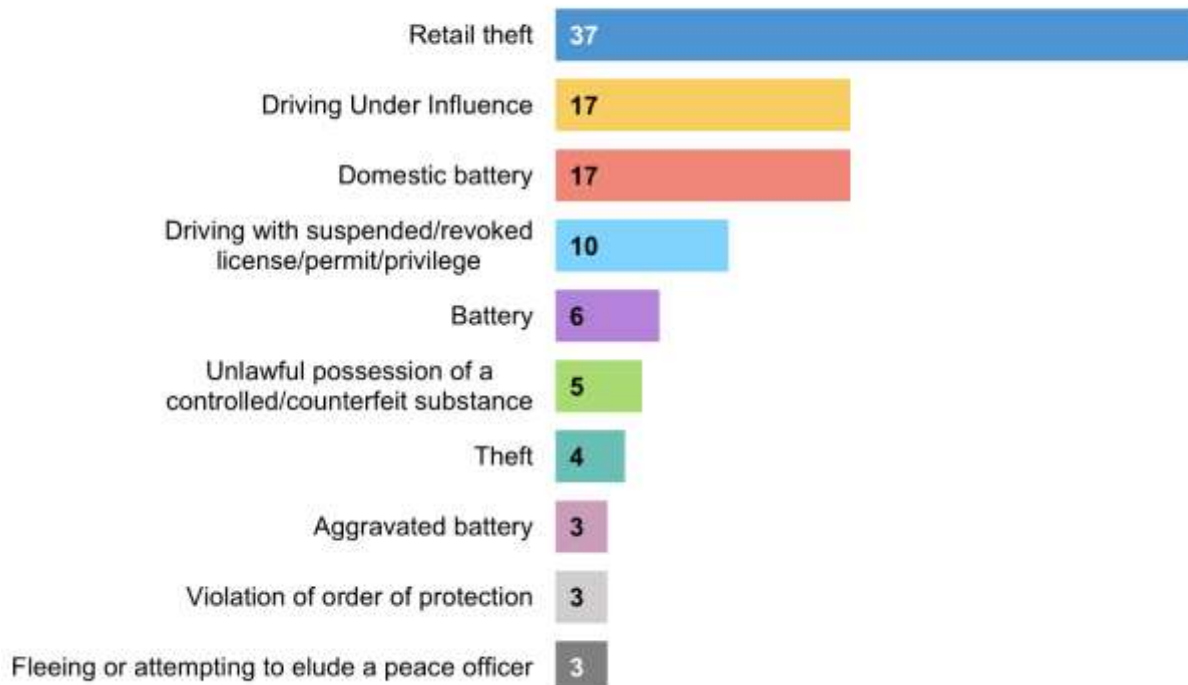

Review Process

New Lenox Police Department's shift supervisors and administrators have the right to review body camera videos any time they are investigating alleged misconduct, reports of meritorious conduct, or whenever such recordings would be beneficial in reviewing an officer's performance or training exercise. Shift supervisors conduct daily random spot checks of officer's recordings.

Incidents

Between January 1, 2023, and December 31, 2023, New Lenox Police Department reports one hundred twenty-four (124) incidents leading to one hundred twenty-eight (128) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Normal Police Department

Normal Police Department consists of eighty-four (84) sworn officers who utilize seventy-nine (79) Panasonic Arbitrator I Pro body worn cameras. Additionally, there are five (5) spare body worn cameras for new officers.

Technical Issues

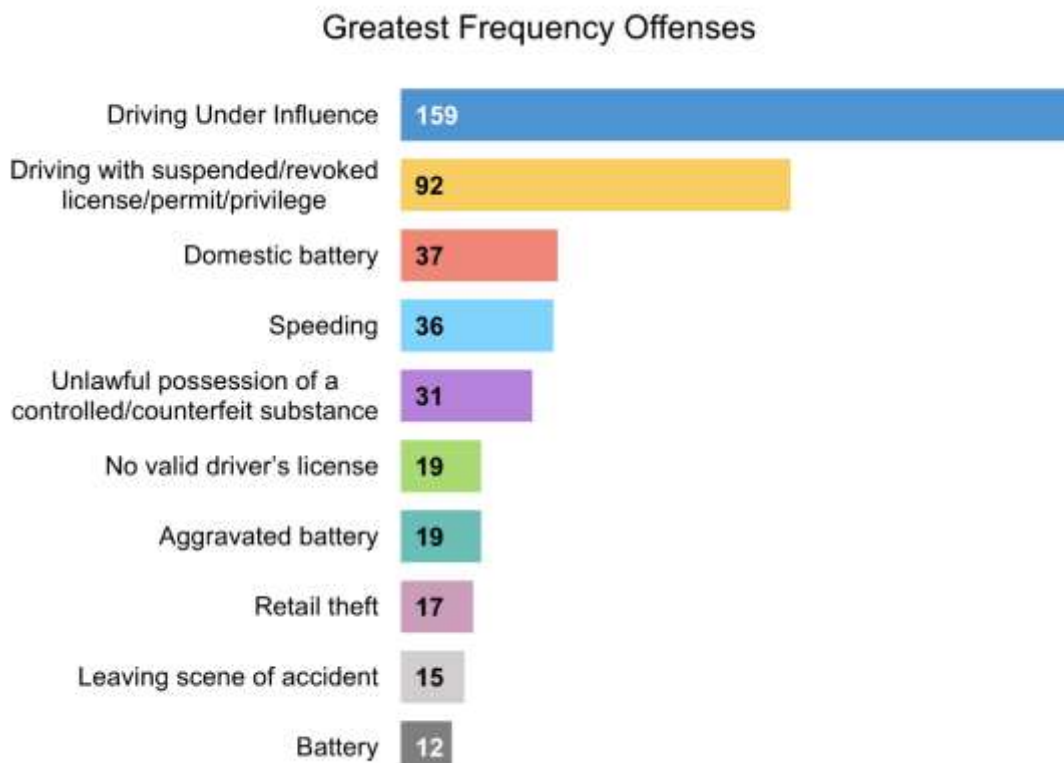

Normal Police Department reports that there are few technical issues after the new purchase of cameras.

Review Process

Normal Police Department's sergeants randomly review five (5) videos each month from their respective shifts. The shift lieutenants report these reviews in their monthly shift reports. A minimum of two (2) command ranks also review all reports and accompanying body worn camera footage. Supervisors approve, date, and forward reports via the chain of command.

Incidents

Between January 1, 2023, and December 31, 2023, Normal Police Department reports five hundred eighty (580) incidents leading to five hundred eighty-five (585) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – North Aurora Police Department

North Aurora Police Department consists of thirty-two (32) sworn officers who utilize thirty-two (32) Axon Body 3 body worn cameras.

Technical Issues

North Aurora Police Department reports minor issues with cameras not charging because they were not seated correctly in the dock. This was corrected with training for officers to ensure the cameras were properly seated in the dock.

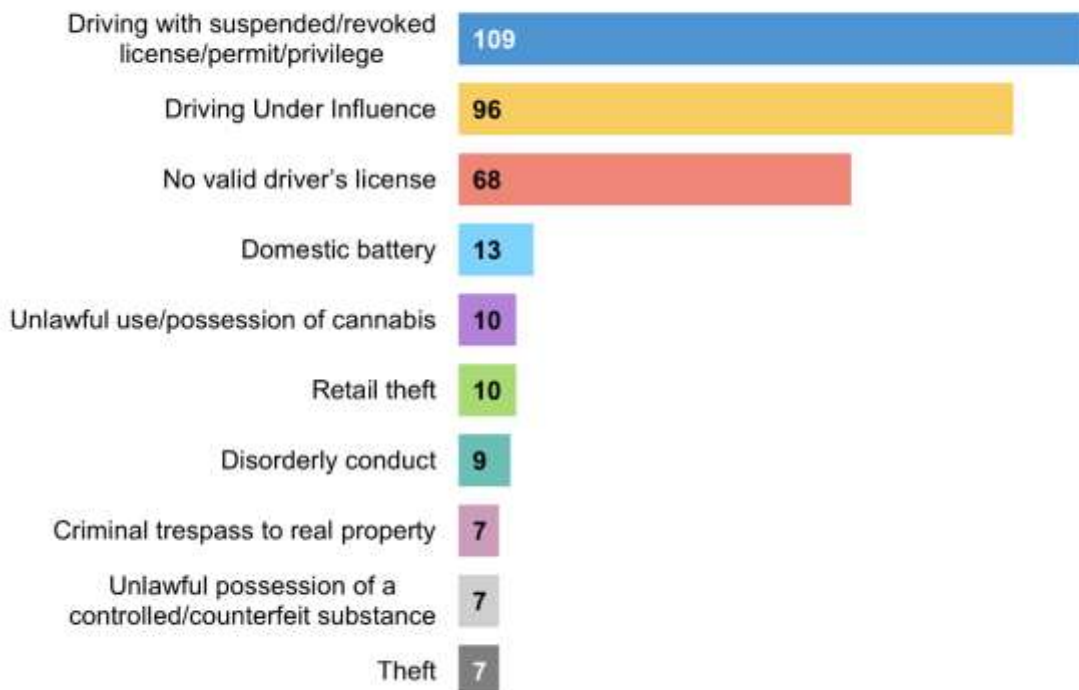

Review Process

North Aurora Police Department uses body worn camera audit software by Frontline Systems, called BWC Audits, to review body worn camera recordings of officers and supervisors to ensure their proper use and review performance. Using the software, supervisors randomly select two (2) body worn camera recordings of each officer on their shift and review them, completing an audit report to ensure that the equipment is working correctly, officers are following policies, and feedback is provided to the users.

Incidents

Between January 1, 2023, and December 31, 2023, North Aurora Police Department reports three hundred ninety-seven (397) incidents leading to three hundred ninety-seven (397) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Northern Illinois University Department of Police and Public Safety

Northern Illinois University Department of Police and Public Safety consists of thirty-seven (37) officers who utilize thirty-seven (37) body worn cameras.

Technical Issues

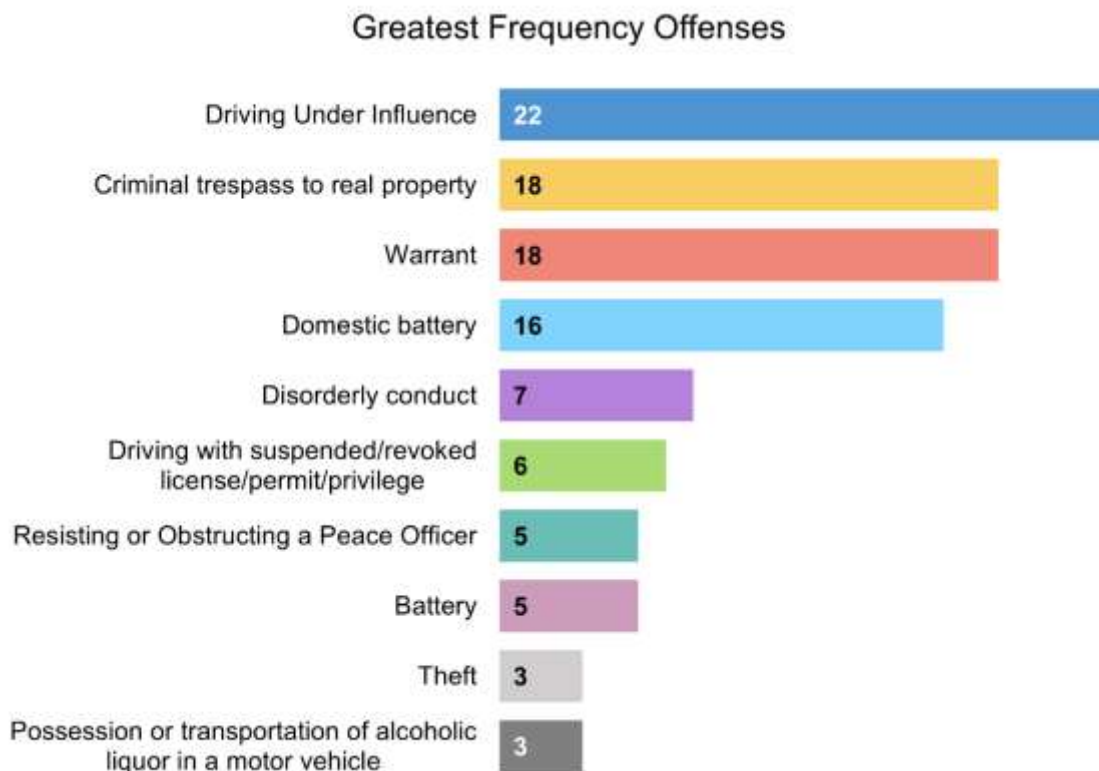

Northern Illinois University Department of Police and Public Safety reports zero (0) technical issues.

Review Process

Northern Illinois University Department of Police and Public Safety’s supervisors monitor compliance with body worn camera policy and test functionality of body worn camera equipment each shift.

Incidents

Between January 1, 2023, and December 31, 2023, Northern Illinois University Department of Police and Public Safety reports seventy-three (73) incidents leading to one hundred forty-five (145) charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Northlake Police Department

Northlake Police Department consists of thirty-four (34) sworn officers who utilize thirty-two (32) body worn cameras.

Technical Issues

Northlake Police Department reports two (2) technical issues with Bluetooth connectivity and device restarting. Both the cameras were replaced by the manufacturer.

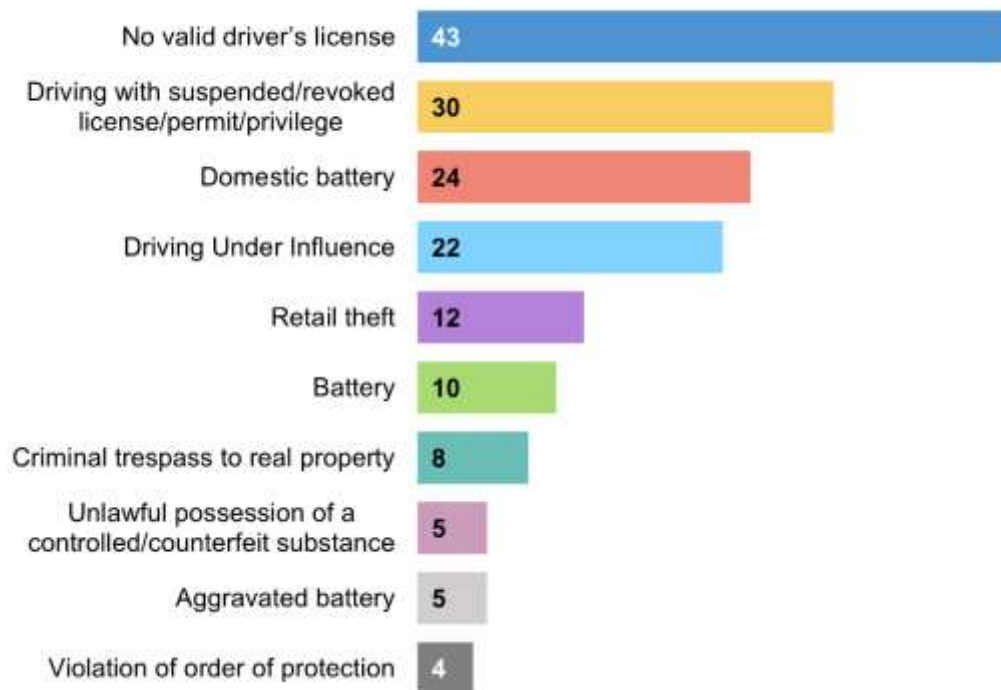

Review Process

Northlake Police Department supervisors review all videos related to use of force situations, vehicular pursuits, complaints of alleged misconduct, and events being brought to light for training issues. They complete random reviews of officer recordings on a quarterly basis.

Incidents

Between January 1, 2023, and December 31, 2023, Northlake Police Department reports two hundred two (202) incidents leading to two hundred three (203) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Oak Lawn Police Department

Oak Lawn Police Department consists of one hundred six (106) sworn officers who utilize one hundred seven (107) Axon body worn cameras. The department started using body worn cameras on May 5, 2023.

Technical Issues

Oak Lawn Police Department reports zero (0) technical issues.

Review Process

Oak Lawn Police Department's supervisors and administrators review body worn camera video when investigating alleged misconduct, meritorious conduct or any other time a supervisor or administrator needs to review an officer's performance. Shift supervisors conduct random spot checks of body worn camera videos for members of their shift.

Incidents

Oak Lawn Police Department's report does not include incidents data.

Department Overview – O’Fallon Police Department

O’Fallon Police Department consists of forty-nine (49) sworn officers who utilize forty-seven (47) Axon 3 body worn cameras. Body worn cameras are issued to every officer except for two (2) officers deployed to external task forces; administration is also issued body worn cameras.

Technical Issues

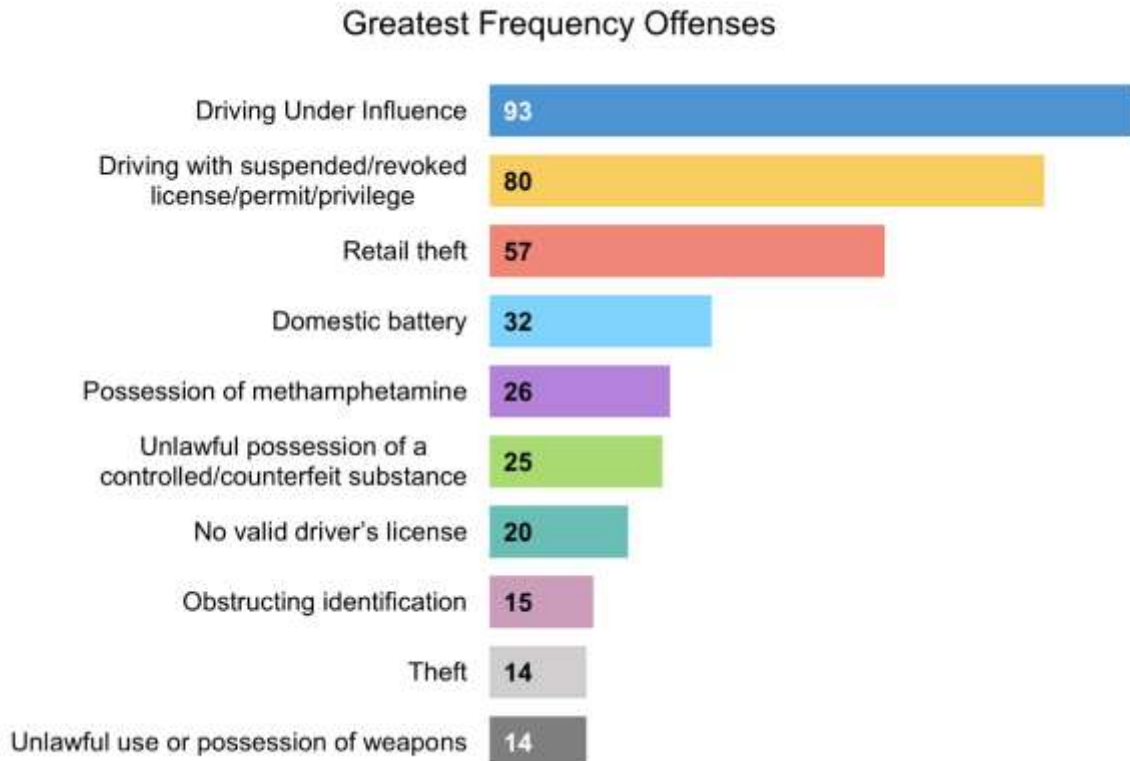

O’Fallon Police Department reported a few technical issues including software malfunction which was replaced by Axon, and overheating and then melting of portable charging cords, which was rectified by purchase of new charging cords.

Review Process

O’Fallon Police Department’s supervisors conduct one (1) random review of each patrol officer each quarter to ensure adherence to state law and policy. Other videos are reviewed in accordance with law.

Incidents

Between January 1, 2023, and December 31, 2023, O’Fallon Police Department reports five hundred ninety (590) incidents leading to five hundred ninety (590) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Oglesby Police Department

Oglesby Police Department consists of eleven (11) officers who utilize eleven (11) Motorola V300 body worn cameras.

Technical Issues

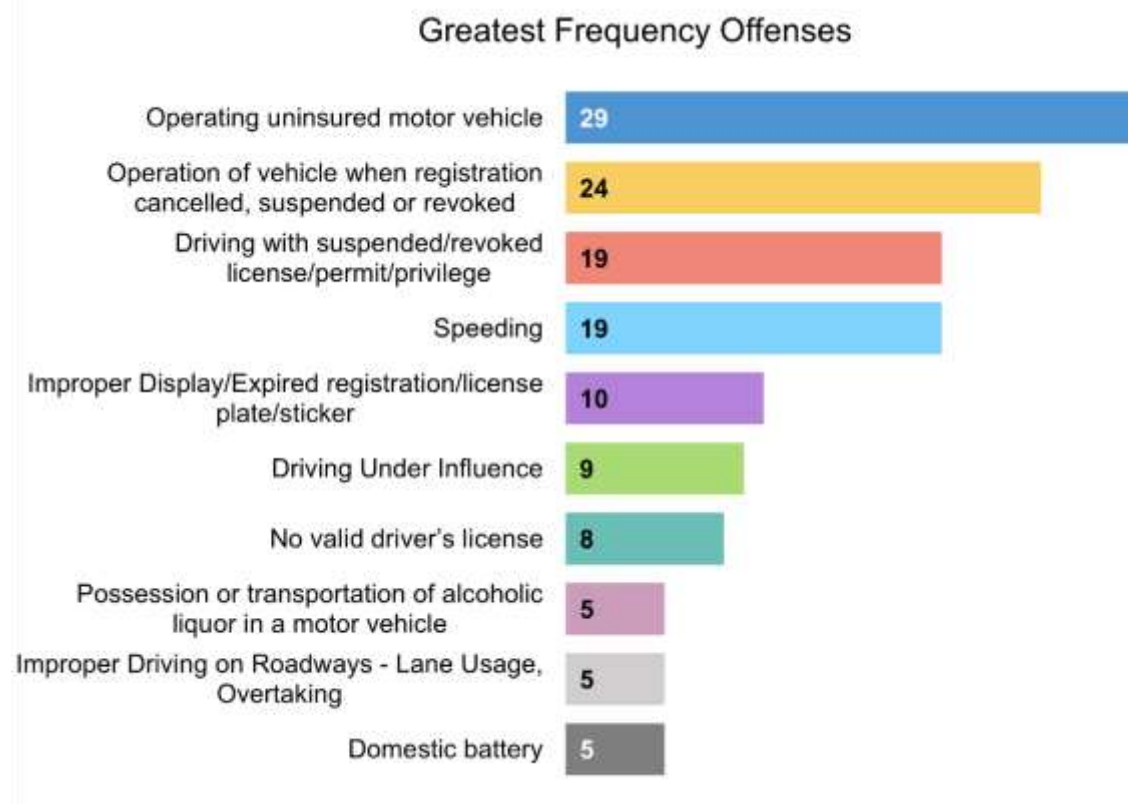

Oglesby Police Department reports zero (0) technical issues.

Review Process

Oglesby Police Department's patrol sergeant reviews at least one (1) randomly selected file or files monthly to ensure officer compliance to policy, identify training needs, recognize exemplary officer performance and complete citizen complaint investigations.

Incidents

Between January 1, 2023, and December 31, 2023, Oglesby Police Department reports one hundred twenty-four (124) incidents leading to one hundred sixty-eight (168) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Orland Park Police Department

Orland Park Police Department consists of one hundred twenty (120) sworn officers who utilize one hundred twenty (120) Axon body worn cameras.

Technical Issues

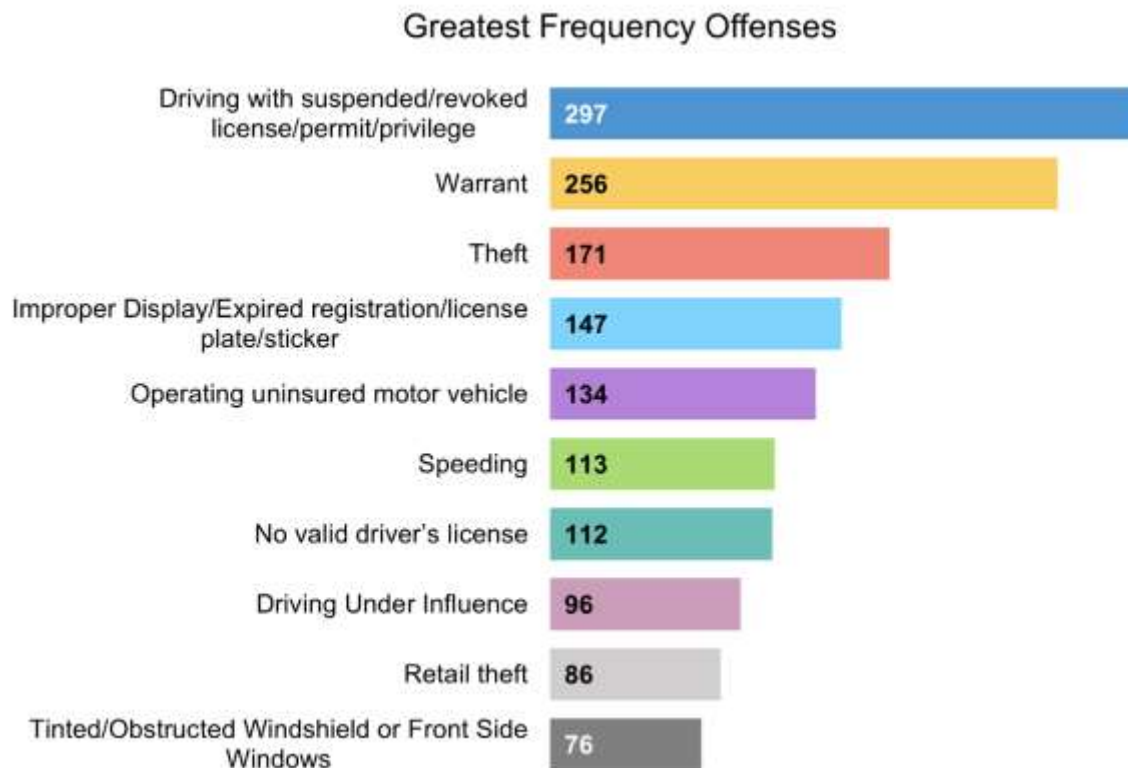

Orland Park Police Department reports few technical issues including software bug issues, Signal Sidearms, and implementing the Redaction Studio software.

Review Process

Orland Park Police Department requires the senior supervisor for the shift to randomly select a video from the previous day and review it. This supervisor watches the footage of officers and supervisors to ensure their proper use and performance. Any deficiencies in how the camera is utilized, worn, and/or functions is documented and then an email is sent to the officer or supervisor for correction.

Incidents

Between January 1, 2023, and December 31, 2023, Orland Park Police Department reports two thousand four hundred thirty-four (2,434) arrests leading to two thousand five hundred forty (2,540) offences charged. The report does not include individual incident data. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Oswego Police Department

Oswego Police Department consists of fifty-three (53) sworn officers who utilize fifty-six (56) body worn cameras.

Technical Issues

Oswego Police Department reports many technical issues with body worn cameras which include issue with video recording, Bluetooth failure, power unit failure, failure due to water ingress, mechanical failure on action buttons, accidental physical damage, accidental actuation of power button, failed microphone, and loose components. All issues were resolved by replacement of body worn cameras.

Review Process

Oswego Police Department's shift supervisor does a review of two (2) videos each month. The reviews are documented in Frontline and the officers are notified that their video has been reviewed.

Incidents

Oswego Police Department's report does not include incidents data.

Department Overview – Ottawa Police Department

Ottawa Police Department consists of thirty-nine (39) sworn officers who utilize thirty-nine (39) body worn cameras.

Technical Issues

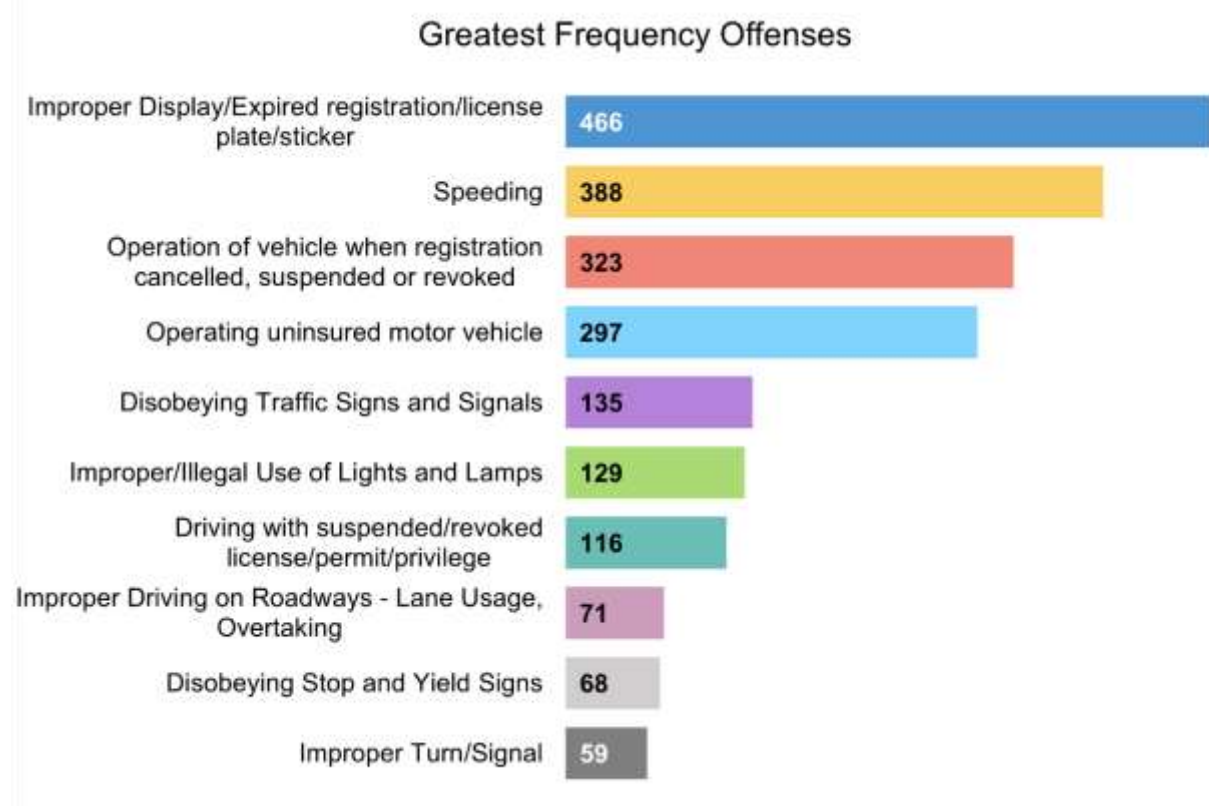

Ottawa Police Department reports one (1) technical issue with camera battery life. The body worn camera was sent in for service.

Review Process

Ottawa Police Department's Captain of Patrol reviews at least six (6) random videos per month that have been uploaded to I-Crimefighter or the AXON database. Supervisors are authorized to review relevant recordings any time they are investigating alleged misconduct or reports of meritorious conduct or whenever such recordings would be beneficial in reviewing a member's performance. The supervisor of the recording member documents in the report or other documentation if the supervisor or the recording member reviewed body worn camera recordings prior to completing the report or other documentation.

Incidents

Between August 23, 2023, and December 31, 2023, Ottawa Police Department reports one thousand nine hundred nineteen (1,919) incidents leading to two thousand five hundred sixty-two (2,562) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Palatine Police Department

Palatine Police Department consists of one hundred eight (108) sworn officers who utilize one hundred eight (108) Axon Body Worn 3 body worn cameras.

Technical Issues

Palatine Police Department reports zero (0) technical issues.

Review Process

Palatine Police Department's patrol supervisors (three (3) commanders and nine (9) sergeants) review a minimum of ten (10) videos recorded by Axon equipment each monthly. This review process is accomplished through the Axon Performance program, which randomly assigns the requesting supervisor a video that has been recorded by the officers. The purpose of this review is to ensure that equipment is operating properly and that officers are using the cameras appropriately and in accordance with the policy and training.

Incidents

Palatine Police Department's report does not include incidents data.

Department Overview – Park Forest Police Department

Park Forest Police Department is comprised of forty-four (44) sworn officers and maintains twenty-nine (29) Watch Guard body worn cameras. Body cameras are assigned permanently to six (6) detectives, four (4) members of administration, and to the one (1) K-9 Officer, while sixteen (16) are assigned at the beginning of the shift to each officer of the patrol division.

Technical Issues

Park Forest Police Department reports thirty-one (31) incidents of body camera malfunction, mainly consisting of clip and slider top breaking, and issues with recording audio and video uploading. Twenty-two (22) cameras were replaced.

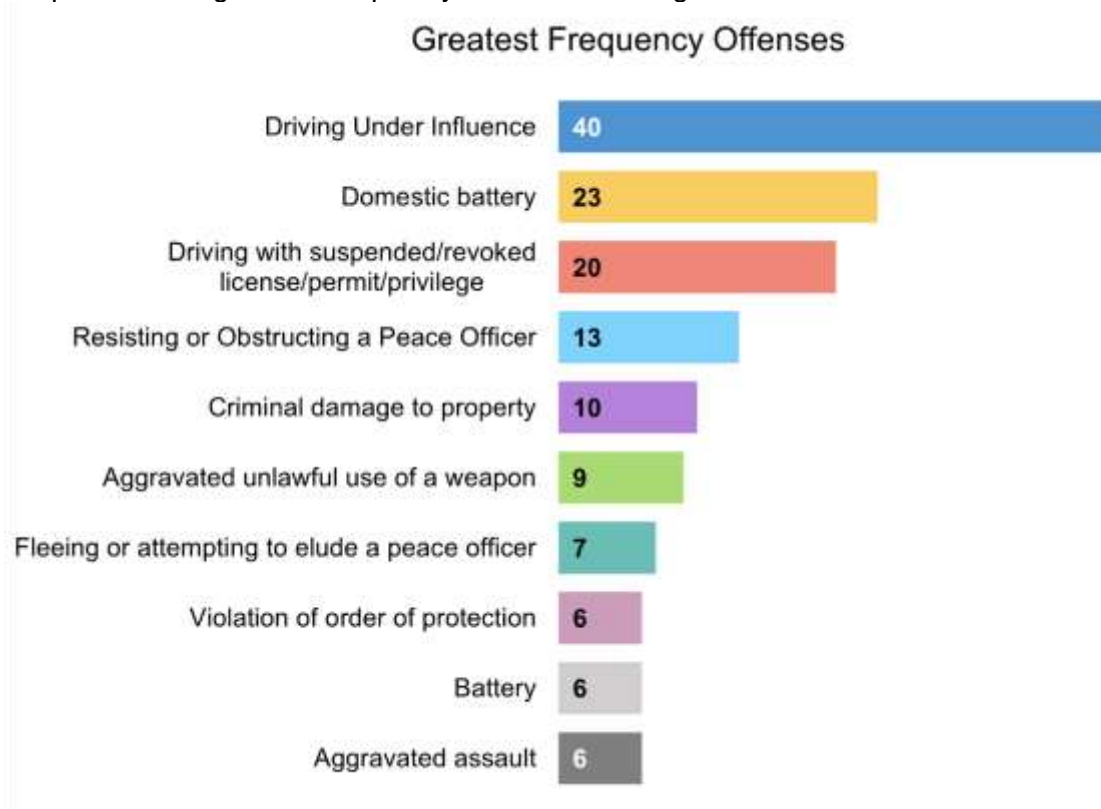

Review Process

Park Forest Police Department's commander of each platoon performs a bodycam review of each officer under their command and submits a report to the field operations deputy chief to include date, time, type of incident, and any comments about the incident or conversation had with the officer monthly.

A minimum of one (1) deputy chief also reviews each pursuit and each use of force incident, in addition to that officer's commander.

Incidents

Between January 1, 2023, and December 31, 2023, Park Forest Police Department reports one hundred forty-six (146) incidents leading to two hundred five (205) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Park Ridge Police Department

Park Ridge Police Department consists of fifty-three (53) sworn officers who utilize fifty-three (53) body worn cameras.

Technical Issues

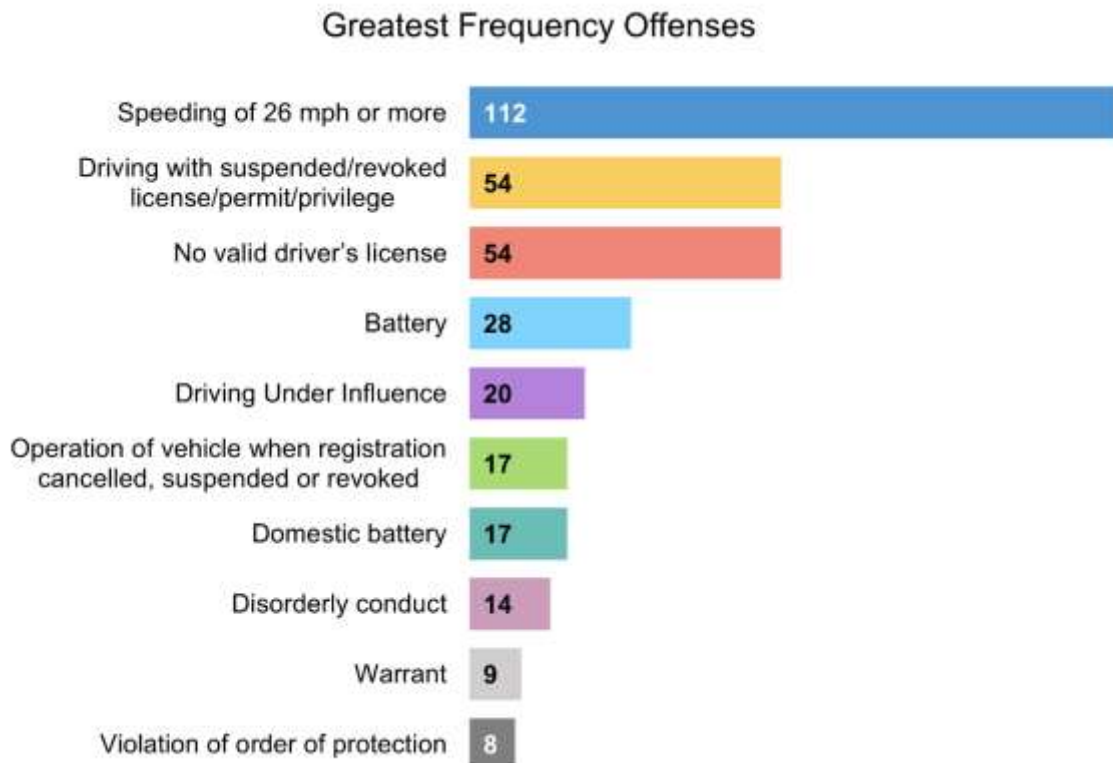

Park Ridge Police Department reports zero (0) technical issues.

Review Process

Park Ridge Police Department supervisors randomly review ten (10) recordings each month pertaining to their area of responsibility to ensure that the equipment is operating properly and that officers are using the cameras appropriately and in accordance with department policy and training. Supervisors document their review using the BWC Supervisor Review Form, which is forwarded to the body worn camera coordinator through the chain of command.

Incidents

Between January 3, 2023, and December 31, 2023, Park Ridge Police Department reports four hundred five (405) incidents leading to four hundred six (406) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Parkland College Police Department

Parkland College Police Department consists of thirteen (13) sworn officers who utilize thirteen (13) body worn cameras. There are fifteen (15) WatchGuard VISTA Wi-Fi body worn cameras owned by the department.

Technical Issues

Parkland College Police Department reports technical issues with body worn cameras including unprompted activation of recordings, battery not holding charge which were resolved by software upgrade, and replacement by the manufacturer respectively.

Review Process

Parkland College Police Department's sergeants review at least one (1) randomly selected file a month, documented through a Body Cam Monthly Check spreadsheet. Parkland police command staff may periodically review records to identify training needs, ensure officer compliance to policy, fulfil FOIA requests. If a complaint is made and a body worn camera recording exists, a supervisor immediately ensures that the recording is secure. The recording is copied to DVD or USB storage device and given to the chief for review.

Incidents

Parkland College Police Department's report does not include incidents data.

Department Overview – Paxton Police Department

Paxton Police Department consists of eight (8) full-time officers and two (2) part-time officers who utilize eight (8) body worn cameras.

Technical Issues

Paxton Police Department reports two (2) issues consisting of docking station and camera malfunction, which required replacement of the body worn cameras by the manufacturer.

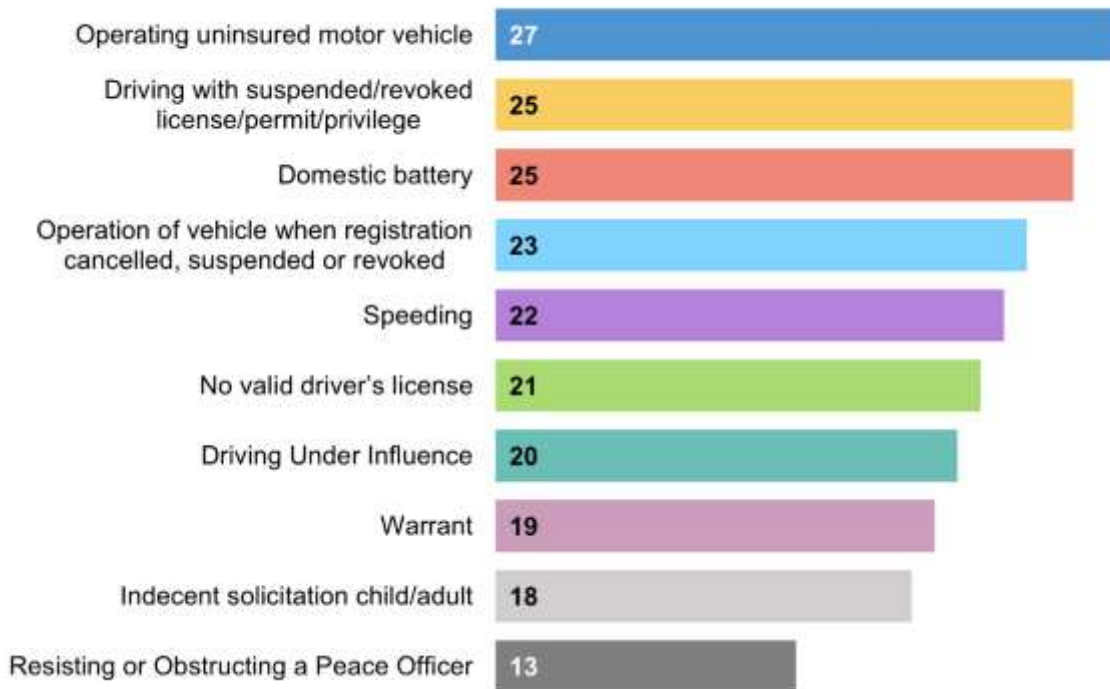

Review Process

Paxton Police Department reports no formal body worn camera review process.

Incidents

Between January 1, 2023, and December 31, 2023, Paxton Police Department reports two hundred eight (208) incidents leading to four hundred twenty-three (423) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Pekin Police Department

Pekin Police Department consists of fifty-seven (57) sworn officers, with an additional three (3) full-time code enforcement officers. There are forty-one (41) body worn cameras assigned to patrol officers/patrol supervisors and three (3) assigned to code enforcement officers.

Technical Issues

Pekin Police Department reports a few issues including one (1) broken screen and a few body worn cameras randomly restarting. These cameras were immediately removed from service, sent to Axon, and were repaired or replaced.

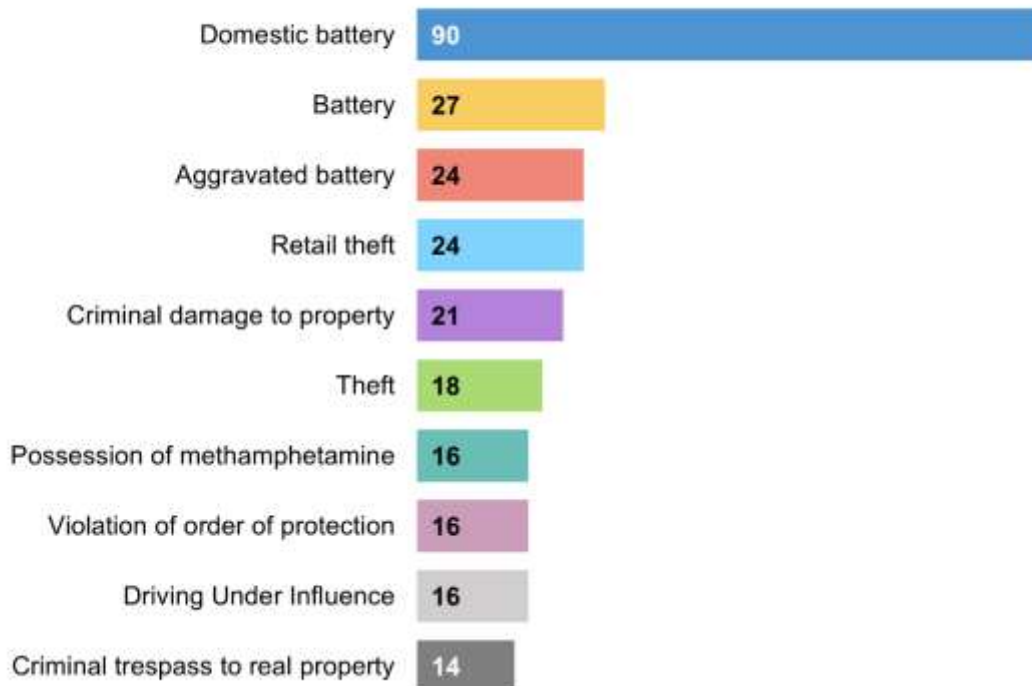

Review Process

Pekin Police Department's shift commanders or their designee review a sampling of recordings monthly for each officer assigned to their shift to ensure that the equipment is operating properly and that officers are using the cameras appropriately and in accordance with policy and training. Supervisors document their review in the Guardian Tracking Program under officer statistics. The responsibility for this task falls upon the shift commander to make sure it is being completed each month and entered Guardian Tracking.

Incidents

Between January 1, 2023, and December 31, 2023, Pekin Police Department reports four hundred (400) incidents leading to four hundred two (402) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Peru Police Department

Peru Police Department consists of twenty-five (25) officers who utilize fourteen (14) Motorola V300 body worn cameras.

Technical Issues

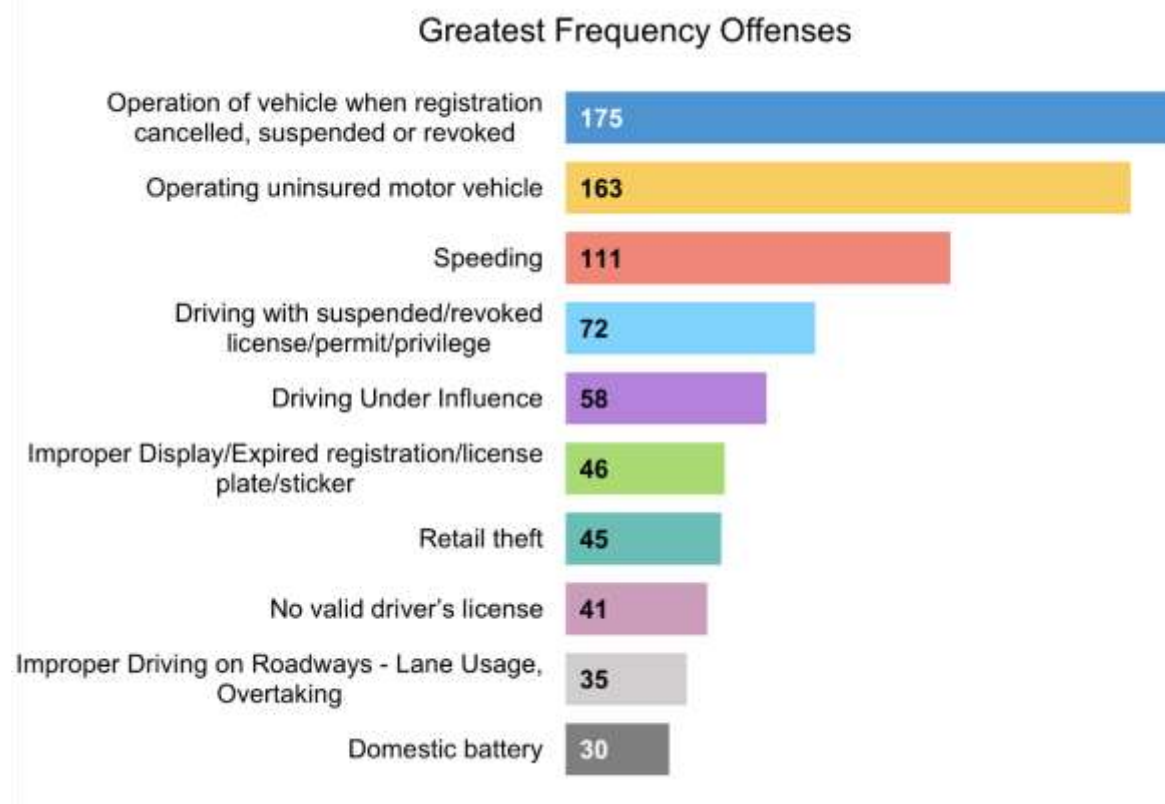

Peru Police Department reports zero (0) technical issues.

Review Process

Peru Police Department's Lieutenant reviews at least one randomly selected file or files typically monthly to ensure officer compliance to policy, identify training needs, recognize exemplary officer performance, and complete citizen complaint investigations.

Incidents

Between January 1, 2023, and December 31, 2023, Peru Police Department reports six hundred eighty-eight (688) incidents leading to one thousand twenty-eight (1,028) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Piatt County Sheriff's Office

Piatt County Sheriff's Office consists of sixteen (16) sworn deputy officers, who utilize seventeen (17) Motorola WatchGuard body worn cameras where one (1) additional body worn camera is available should one be lost or become inoperable.

Technical Issues

Piatt County Sheriff's Office reports a few technical and hardware issues with magnetic mounts, power supply issue to the body worn camera base, map function and GPS not working on the camera footage, and camera displaying system recovery error which remedied by Motorola.

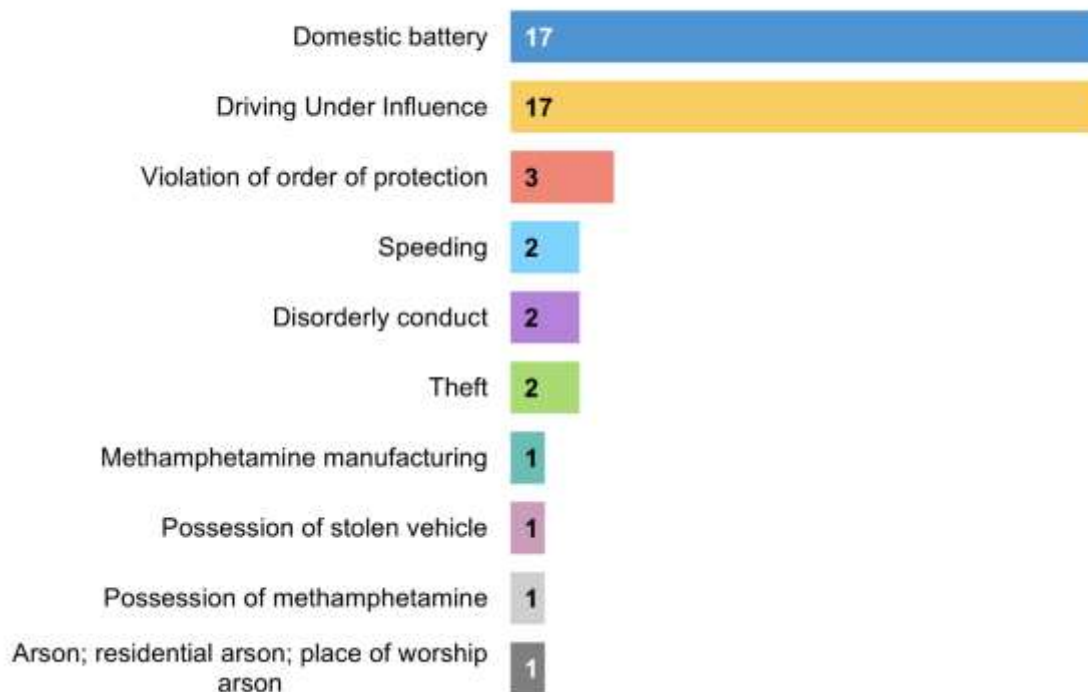

Review Process

Piatt County Sheriff's Office's staff involved in implementing the body worn camera program randomly views videos to ensure the programmed settings and video and audio are configured to meet the expectations. Supervisors review reports and accompanying body worn camera videos for encounters involving any use of force above normal handcuffing procedures. Sergeants randomly review videos for each of their assigned deputies. They use the video review process to ensure compliance with the department's policy and procedures.

Incidents

Between January 1, 2023, and December 31, 2023, Piatt County Sheriff's Office reports sixty (60) incidents leading to sixty-three (63) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Pingree Grove Police Department

Pingree Grove Police Department consists of fourteen (14) sworn officers (thirteen (13) full-time officers and one (1) part-time officer) and three (3) non-sworn personnel who utilize nineteen (19) body worn cameras.

Technical Issues

Pingree Grove Police Department reports zero (0) technical issue.

Review Process

Pingree Grove Police Department's Sergeants sample and review body worn camera recordings pertaining to the work groups under their command once a week. The purpose of this review is to ensure that equipment is operating properly, recordings are characterized accurately, and that officers are using the cameras appropriately and in accordance with the policy and training.

Incidents

Pingree Grove Police Department's report does not include incidents data.

Department Overview – Pittsfield Police Department

Pittsfield Police Department consists of twelve (12) officers, including both full and part-time, who utilize nine (9) body worn cameras.

Technical Issues

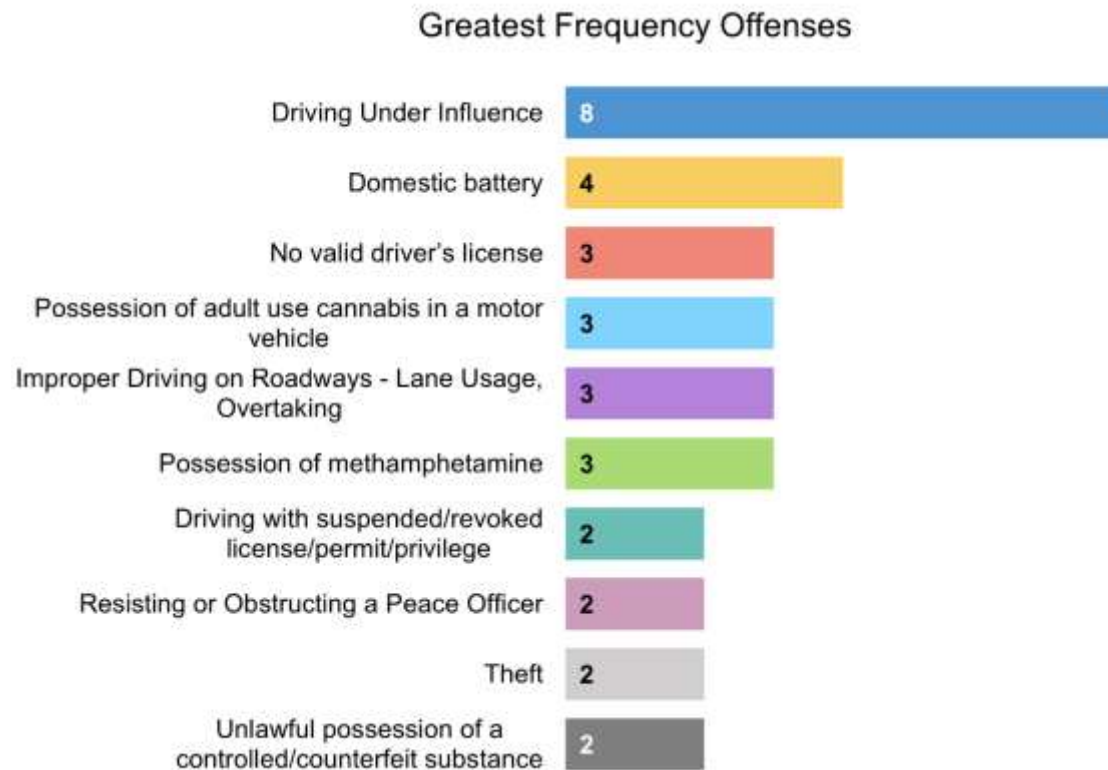

Pittsfield Police Department reports zero (0) technical issues.

Review Process

Pittsfield Police Department's Chief of Police and Deputy Chief frequently review body worn camera footage at random to monitor the progress of new officers, after a complaint is made against an officer, and in other instances related to criminal investigations being conducted by the department.

Incidents

Between January 1, 2023, and December 31, 2023, Pittsfield Police Department reports eighteen (18) incidents leading to forty-seven (47) offenses charged, majority of it was Possession of methamphetamine.

Department Overview – Plainfield Police Department

Plainfield Police Department consists of sixty-three (63) sworn law enforcement officers who utilize a body worn camera each.

Technical Issues

Plainfield Police Department reports body worn camera not responding to inputs from the device buttons or dashboard application to stop recording. This was resolved by power-cycling the body worn cameras. There was an issue with uploading stored video to the cloud storage in one camera which was resolved via a service request from the manufacturer. The mounting bracket of two (2) body worn cameras sheared off the devices and were replaced by the body worn camera program coordinator with parts provided by the manufacturer.

Review Process

Plainfield Police Department's supervisors review randomly selected officers' body worn camera video during their line inspections of that officer.

Incidents

Plainfield Police Department's report does not include incidents data.

Department Overview – Prairie Grove Police Department

Prairie Grove Police Department consists of a Chief of Police and five (5) sworn officers who utilize four (4) body worn cameras.

Technical Issues

Prairie Grove Police Department reports battery charge issue. It was resolved by charging the body worn camera periodically during the shift or swapping out the camera for a fully charged camera.

Review Process

Prairie Grove Police Department's supervisors are authorized to review relevant recordings when investigating alleged misconduct or reports of meritorious conduct, or whenever such recordings would be beneficial in reviewing an officer's performance.

Incidents

Prairie Grove Police Department's report does not include incidents data.

Department Overview – Riverwoods Police Department

Riverwoods Police Department consists of nine (9) full-time officers and eight (8) part-time officers who utilize seventeen (17) Axon Body 4 body worn cameras.

Technical Issues

Riverwoods Police Department reports zero (0) technical issues.

Review Process

The Riverwoods Police Department's supervisors are authorized to review relevant recordings any time they are investigating alleged misconduct or reports of meritorious conduct or whenever such recordings would be beneficial in reviewing a member's performance. On a bi-monthly basis, supervisors randomly review one traffic stop recording and one non-traffic related recording of subordinates under his/her responsibility to ensure that the equipment is operating properly and that officers are efficiently using the cameras appropriately and in accordance with policy, state laws and training. These bi-monthly reviews are documented on a supervisory review form.

Incidents

Riverwoods Police Department's report does not include incidents data.

Department Overview – Rock Island Police Department

Rock Island Police Department consists of one hundred nine (109) employees, with eighty-one (81) sworn positions and twenty-eight (28) civilian positions. The department has seventy-seven (77) Axon Body III cameras in use, with fifty-one (51) being used by members assigned to the patrol division, three (3) used by the administrative division, seven (7) used by technical services division, and sixteen (16) used by the criminal investigations division. In addition, sixteen (16) Axon Flex II are used by the emergency response team.

Technical Issues

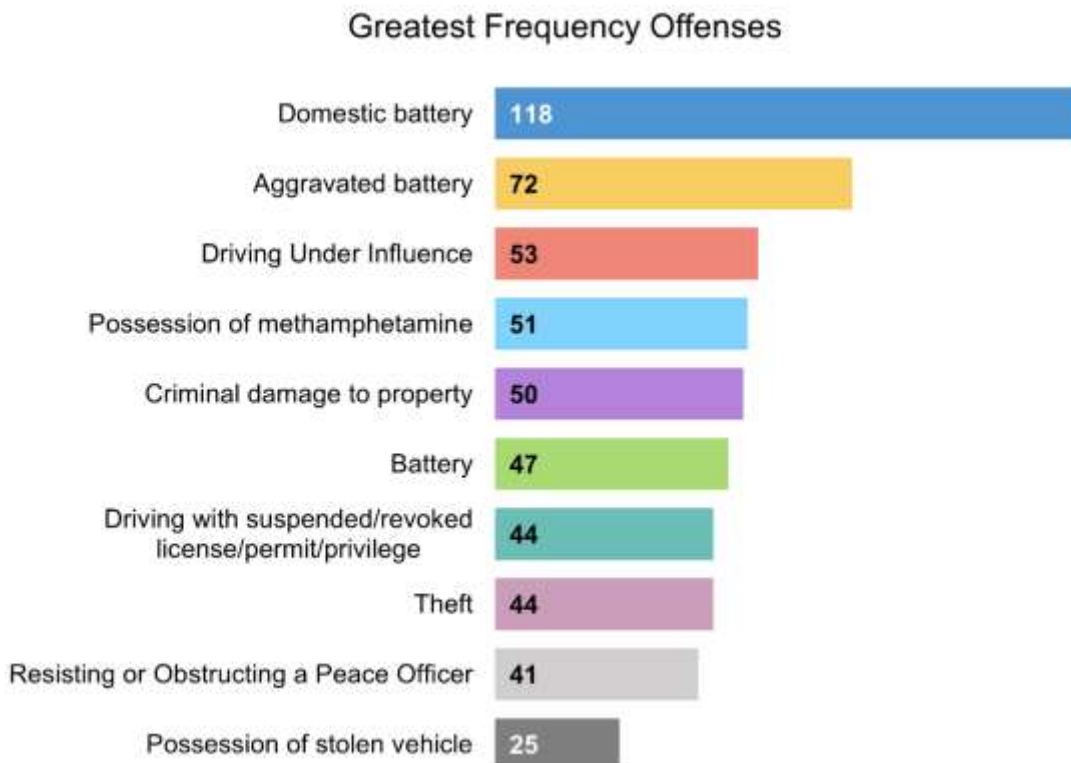

Rock Island Police Department reports zero (0) technical issues.

Review Process

Rock Island Police Department’s supervisors review body worn camera videos when conducting investigations into use of force incidents, squad car accidents, pursuits, external or internal complaints, or for any other supervisory oversight function.

Incidents

Between January 1, 2023, and December 31, 2023, Rock Island Police Department reports five hundred ninety-eight (598) incidents leading to one thousand sixty (1,060) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Rockton Police Department

Rockton Police Department consists of sixteen (16) full-time sworn officers and two (2) part-time sworn officers, who utilize eighteen (18) Axon Body 4 body worn cameras.

Technical Issues

Rockton Police Department reports two (2) issues of battery failure.

Review Process

Incidents

Rockton Police Department's report does include incidents data.

Department Overview – Romeoville Police Department

Romeoville Police Department consists of seventy (70) sworn officers who utilize approximately seventy (70) Axon body worn cameras.

Technical Issues

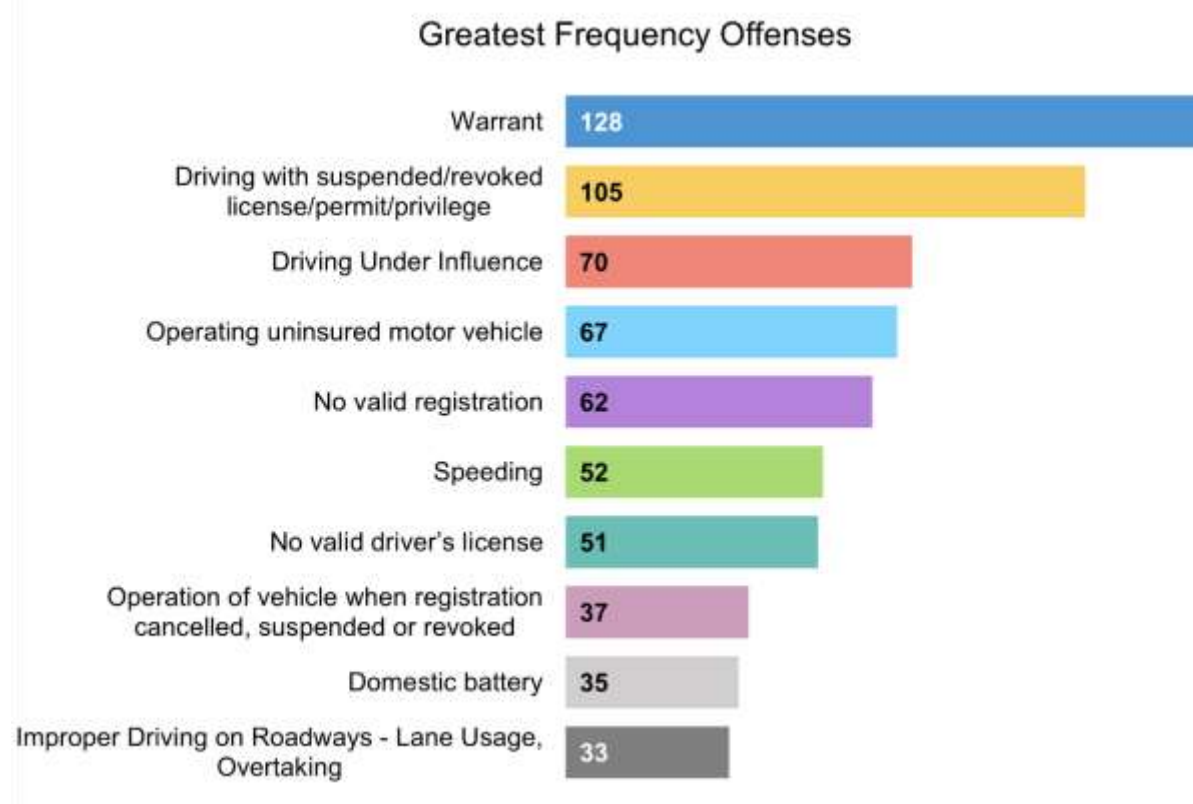

Romeoville Police Department reports a few technical issues which includes Axon Redaction studio being very slow at times.

Review Process

Romeoville Police Department's Commanders review an appropriate sampling of body worn camera recordings pertaining to working groups under their command, once a month. This review process ensures the equipment is operating properly and officers are utilizing the cameras appropriately and in accordance with policy and training. The same process is used by the chief of police, or their designee, to review body worn camera content for commanders and above. If the Chief of Police is randomly chosen, the review is done by a deputy chief.

Incidents

Between April 3, 2023, and December 31, 2023, Romeoville Police Department reports five hundred fifty-nine (559) arrests leading to one thousand one hundred (1,100) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Roscoe Police Department

Roscoe Police Department consists of fifteen (15) sworn officers who utilize fifteen (15) body worn cameras.

Technical Issues

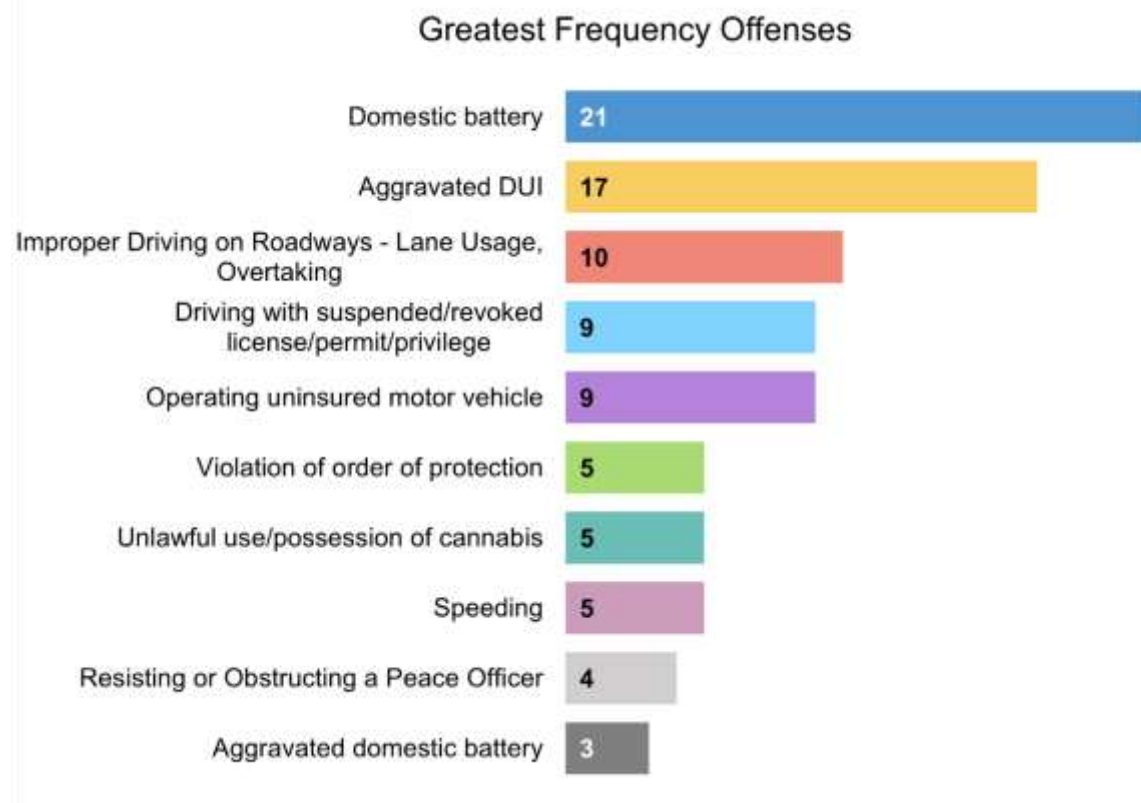

Roscoe Police Department reports zero (0) technical issues.

Review Process

Roscoe Police Department's sergeants review appropriately sampled body worn camera recordings pertaining to officer within their span of control every thirty (30) days. The purpose of this review is to ensure that equipment is operating properly and that officers are using the cameras appropriately and in accordance with the policy and training.

Incidents

Between January 1, 2023, and December 31, 2023, Roscoe Police Department reports sixty-three (63) incidents leading to one hundred twenty-eight (128) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Roselle Police Department

Roselle Police Department consists of thirty-three (33) sworn officers, including one (1) chief, two (2) deputy chiefs, four (4) sergeants, twenty (20) patrol officers, two (2) detectives, two (2) part-time officers and two (2) school resource officers, as well as four (4) community service officers, who utilize body worn cameras.

Technical Issues

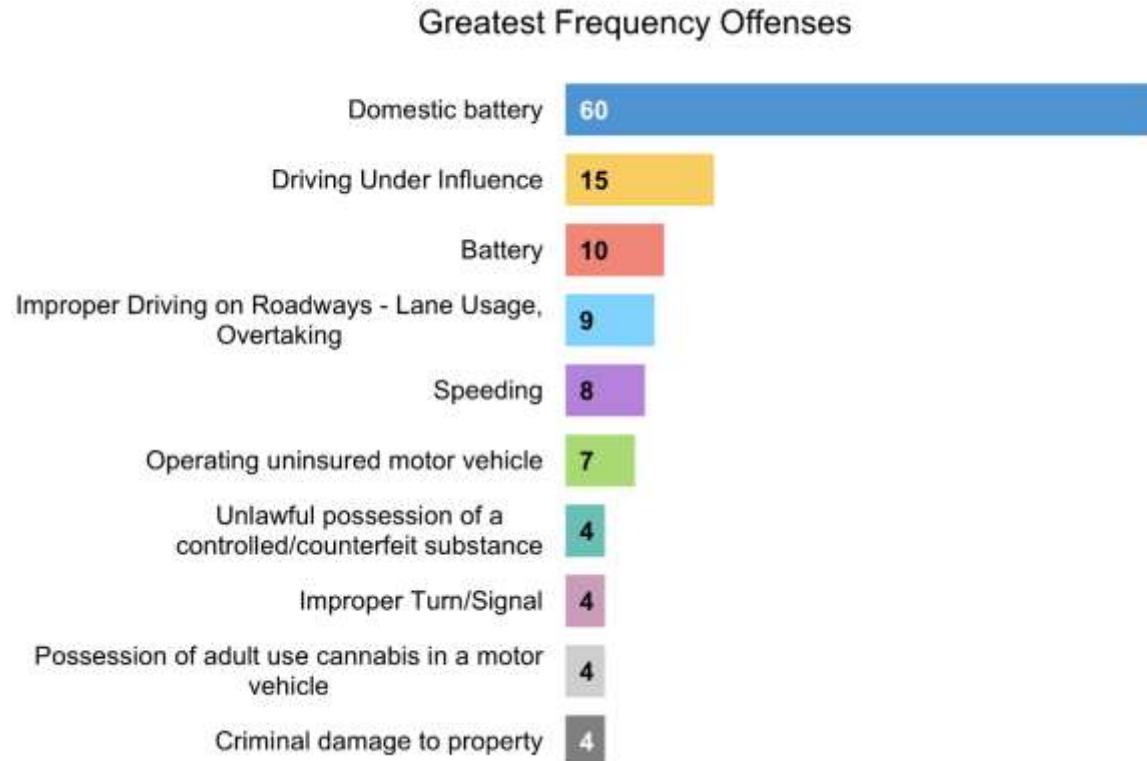

Roselle Police Department reports issues with charging docks, camera controllers, and battery failures. The cameras were replaced with spares.

Review Process

Roselle Police Department's supervisors review footage to ensure officers utilize body worn cameras in accordance with policy and training. Supervisors randomly review at least two (2) body worn camera recordings per subordinate and document their review, which is forwarded to the body worn camera program administrator. Areas where additional guidance or training is required are identified after reviewing camera footage. Supervisors do not review recordings to search for violations of policy or law not related to a specific complaint or incident.

Incidents

Between January 1, 2023, and December 31, 2023, Roselle Police Department reports sixty (60) incidents leading to one hundred eighty-one (181) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Round Lake Police Department

Round Lake Police Department consists of thirty (30) sworn officers and one (1) community service officer who utilize thirty-one (31) body worn cameras.

Technical Issues

Round Lake Police Department reports zero (0) technical issues.

Review Process

Round Lake Police Department's supervisors are authorized to review relevant recordings any time they are investigating alleged misconduct or reports of meritorious conduct or whenever such recordings would be beneficial in reviewing the officer's performance.

Incidents

Round Lake Police Department's report does not include incidents data.

Department Overview – Round Lake Beach Police Department

Round Lake Beach Police Department consists of thirty-eight (38) sworn officers who utilize twenty-eight (28) Motorola V300 body worn cameras.

Technical Issues

Round Lake Beach Police Department reports zero (0) technical issues.

Review Process

Round Lake Beach Police Department's recording officer or his or her supervisors may access and review recordings prior to completing incident reports, provided that the officer or his or her supervisor discloses that fact in the report or documentation. They may not redact, label, duplicate or otherwise alter the recording officer's body worn camera recordings.

Incidents

Round Lake Beach Police Department's report does not include incidents data.

Department Overview – Round Lake Heights Police Department

Round Lake Heights Police Department consists of nine (9) sworn officers (seven (7) full-time and two (2) part-time) who utilize five (5) Motorola V300 body worn cameras.

Technical Issues

Round Lake Heights Police Department reports issue with software update.

Review Process

Round Lake Heights Police Department's Patrol Sergeant and Chief of Police frequently review the body worn camera footage to make sure the events are properly tagged, and case notes have been entered correctly once or twice a week.

Incidents

Round Lake Heights Police Department's report does not include incidents data.

Department Overview – Round Lake Park Police Department

Round Lake Park Police Department consists of one (1) chief, three (3) commanders, one (1) detective, seven (7) full-time patrol officers, and three (3) part-time patrol officers who utilize twelve (12) body worn cameras.

Technical Issues

Round Lake Park Police Department reports zero (0) technical issues.

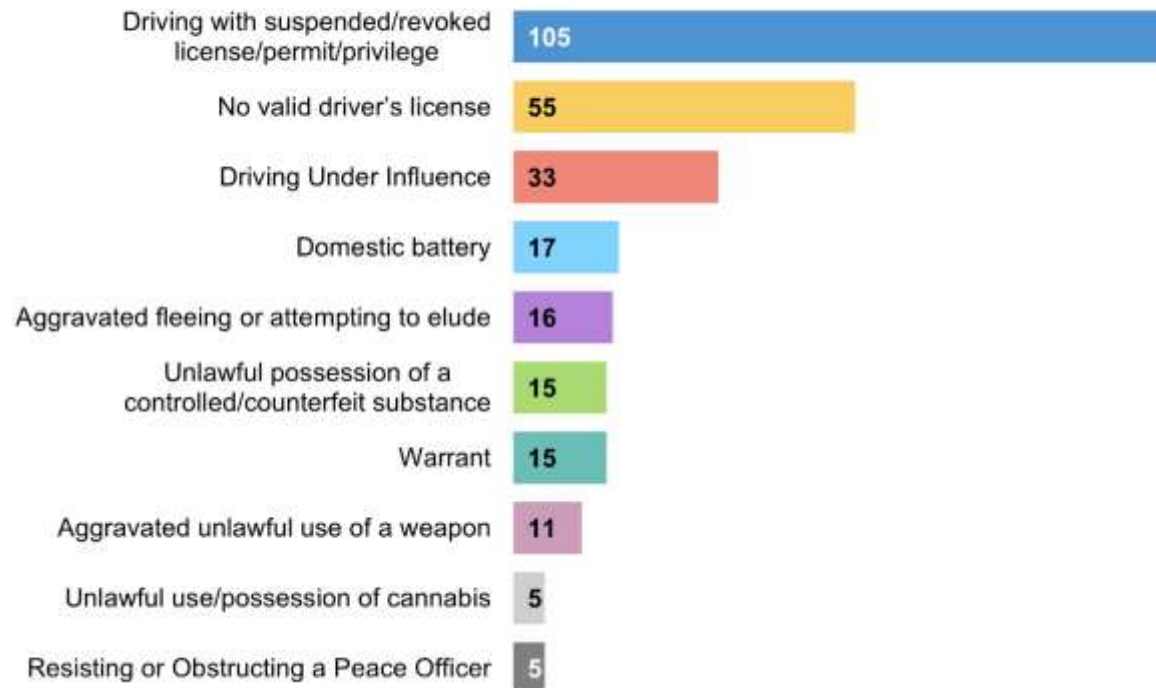

Review Process

Round Lake Park Police Department supervisors and investigators review the body worn camera recordings to ensure equipment is working properly, assess performances, investigation purposes, training purposes, etc.

Incidents

Between January 1, 2023, and December 31, 2023, Round Lake Park Police Department reports two hundred sixty-nine (269) incidents leading to three hundred twenty-one (321) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Rushville Police Department

Rushville Police Department consists of six (6) full-time officers and six (6) part-time officers who utilize eight (8) body worn cameras. Each full-time officer has a camera assigned to them, and when a part-time officer works, they utilize a body worn camera reserved for them. One (1) body worn camera is kept as back-up in case of a failed or broken camera.

Technical Issues

Rushville Police Department reports two (2) software issues with the cameras. The body worn cameras malfunctioning were returned and replaced.

Review Process

Rushville Police Department's Chief reviews body worn camera footage on each arrest and periodically (weekly) spot checks a recording for each officer.

Incidents

Between January 1, 2023, and December 31, 2023, Rushville Police Department reports ninety-one (91) incidents leading to one hundred sixty-five (165) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – Salem Police Department

Salem Police Department consists of eighteen (18) sworn officers and one (1) code enforcement/auxiliary officer who utilizes twenty-two (22) Axon body worn cameras.

Technical Issues

Salem Police Department reports three (3) technical issues including cameras randomly stopping and restarting in the middle of incidents; the issue was resolved by a firmware update.

Review Process

Salem Police Department's supervisors randomly review at least one (1) video of every officer issued a body worn camera every sixty (60) days. Additionally, all use of force incidents that involve more than simple handcuffing or prisoner escort are also reviewed by a supervisor when applicable.

Incidents

Salem Police Department's report does not include incidents data.

Department Overview – Silvis Police Department

Silvis Police Department has nineteen (19) body worn cameras; eighteen (18) body worn cameras are utilized with the remaining one (1) being used as a spare.

Technical Issues

Silvis Police Department reports battery issues with the body worn cameras.

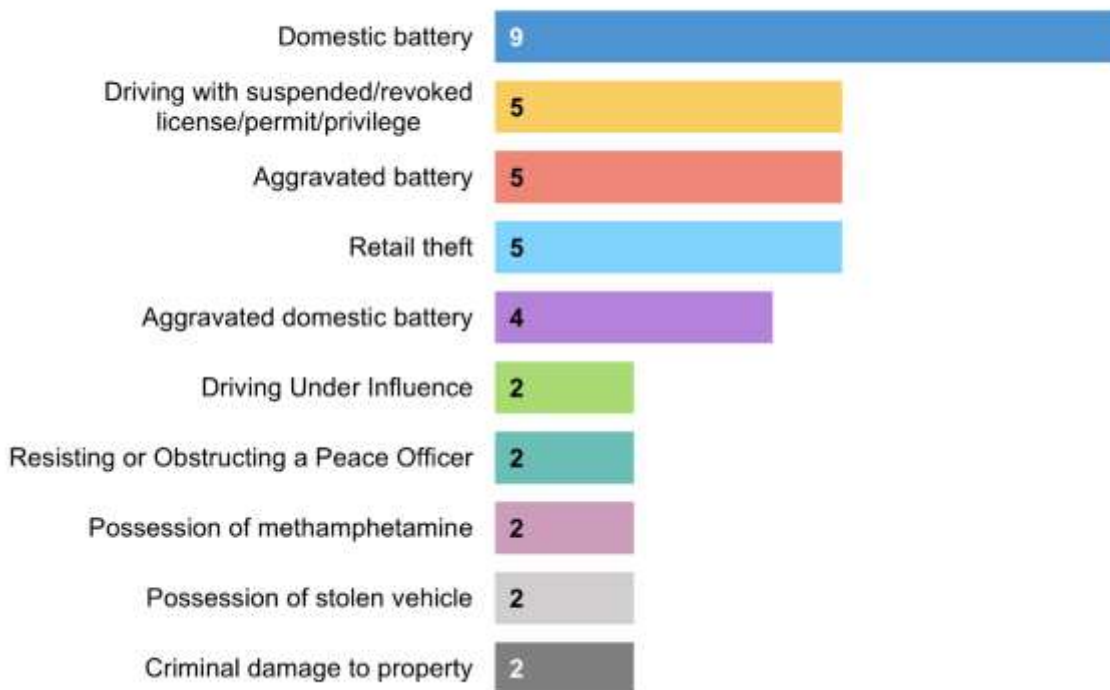

Review Process

Silvis Police Department's supervisors are required to review one (1) recorded video for each officer assigned to their shift/unit, to ensure the body worn camera is being utilized. Once the recorded video is reviewed, the supervisor documents the review in the notes section provided by evidence.com.

Incidents

Between January 1, 2023, and December 31, 2023, Silvis Police Department reports sixty (60) incidents leading to sixty (60) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Greatest Frequency Offenses

Department Overview – Skokie Police Department

Skokie Police Department consists of one hundred five (105) sworn officers who utilize one hundred eight (108) (three (3) officers have two (2) cameras assigned to them) Axon 3 body worn cameras.

Technical Issues

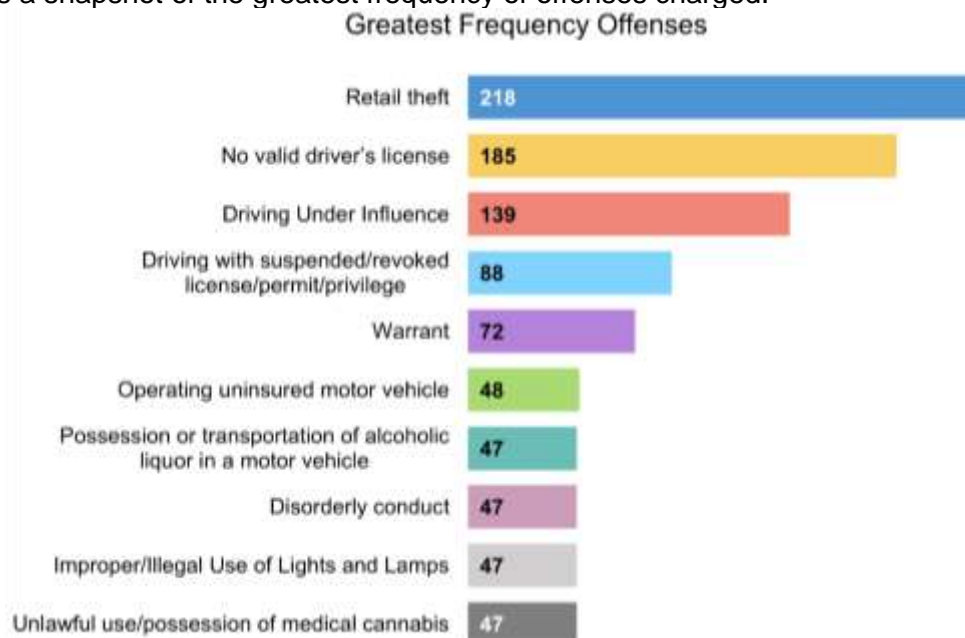

Skokie Police Department reports several issues with the body worn cameras such as self-reset while recording, Error Code 1004 while in dock, heating, self-switch from sleep mode to ready mode, display errors, flashing yellow lights, issue with event button, broken magnet and pocket mounts, and issue connecting with Axon Evidence.com for video uploads. The body worn cameras were replaced by Axon and the issue with video upload was resolved by undocking and redocking the camera. There were connectivity issues with the cellphone applications and with uploading evidence via WIFI which were remedied with IT support within the agency and through Axon.

Review Process

Skokie Police Department's supervisors randomly review recordings of the officers they supervise to ensure that the equipment is operating properly and that officers are using the cameras appropriately and in accordance with policy and training, monthly and forward the information via the chain of command. Recordings are reviewed when a complaint of misconduct has been made or discovered, or as part of the supervisory use of force or resisting/obstructing review. Body worn camera recordings are reviewed by a supervisor if an employee is a subject of an official investigation, such as a personnel complaint, administrative investigation or criminal investigation.

Incidents

Between January 1, 2023, and December 31, 2023, Skokie Police Department reports six hundred forty-three (643) incidents leading to nine hundred fifty-eight (958) offenses charged. Below is a snapshot of the greatest frequency of offenses charged.

Department Overview – South Barrington Police Department

South Barrington Department consists of twenty-three (23) sworn officers. However, currently two (2) police officers and one (1) sergeant utilize Axon Body 4 body worn cameras. The department implemented the body worn cameras on December 14, 2023.

Technical Issues

South Barrington Police Department reports zero (0) technical issues.

Review Process

South Barrington Police Department's supervisors will randomly review one (1) recording monthly from each officer working with them to ensure the equipment is operating properly and officers are using the cameras appropriately and in accordance with this policy and training.

Incidents

South Barrington Police Department's report does not include incidents data.

Department Overview – South Chicago Heights Police Department

South Chicago Heights Police Department consists of eight (8) full-time officers, nine (9) part-time officers, and two (2) detectives who utilize eighteen (18) body worn cameras.

Technical Issues

South Chicago Heights Police Department reports issues with the body worn camera application, Axon View XL, and camera port which were corrected by updating application and changing the port.

Review Process

South Chicago Heights Police Department reviews the body worn camera recordings in three phases - videos up for deletion, daily review of all evidence and supervisor random reviews. Street supervisors randomly review body worn camera footage from previous shifts. Administration staff reviews all evidence downloaded several times a week and checks for proper labeling of body worn camera footage – Evidence ID, Category and Titles.

Incidents
